

# DEEPBRAIN AI

## AI Human Video Synthesis Company

*Humanize your digital interactions*

**Media • Presentations • Chatbots • Kiosks • eCommerce • Metaverse**

- ✓ World's first commercialized real time video synthesis solution
- ✓ Supports both conversational and non-conversational use cases
- ✓ Real-life application of interactive AI Human and AI Kiosk
- ✓ Create "script to video" content with our easy-to-use AI Studios
- ✓ Drive omnichannel engagement for loyalty customers
- ✓ AI Human - interactive AI solution for real-time two-way customer engagement and customer service.

### Challenge

- Keeping pace with the increasing expectations of consumers
- Gap in customer engagement due to labor shortages or Covid restrictions
- Innovating customer engagement & experience across vs text based
- Humanizing the unmanned or frictionless retail environments

### Solution

- AI Human (SDK/SaaS/Kiosk) is an on-offline interplay between speech synthesis, image synthesis, natural language processing, and facial recognition that converges to provide customer guidance related services on a level similar to that of a real person. The solution also enables more efficient data gathering and data utilization

**Our innovative and award-winning technology is used by:**

✓ Financial

**NH Bank**  **Shinhan Card**  **KB**

✓ Retail

**LOTTE**  **minus**  **HOLA PET** **BT.ONE**  **FORBIZ KOREA**

✓ Education

 **AI SPEAK NOW**  **KYOSPICUS WON** 교원

✓ Media

**MBN** **LG HelloVision**

✓ Other

 **classic** MATERNITY CARE CENTER

**ASAN**  
Medical Center

 **Samchully**
