

M&A DEAL TRACKER

THE PROCESS

Pre-Screen

- Categorize business industry and vertical.
- Set prospect basic company information.
- Classify your contact relation.
- Set your team owner for the deal.

Screen

- Schedule contact meeting.
- Set a monetary value size.
- Define value driver.
- Define scope and risk.

Due Diligence

- Sign NDA.
- Create VDR on Teams.
- Gather prospect documentation and complete due diligence checklist.
- Create financial P&L.

Transition

- Notify integration team to proceed!.
- Or keep opportunity in the watch list.

CHALLENGES

1. The need for a centralized platform to share and obtain information.

- Lack of centralized notes.
- No secure repositories for confidential documents.

2. No standardized process among analysts.

3. Multiple Excel spreadsheets

- Inability to track changes without duplication.
- Difficulty in sharing process and opportunities status.

4. Confidential and proprietary information

- Multiple platforms hinder security
- Different ingestion and reporting channels complicate information security and retention.

5. Missing reporting tools to analyze historical data.

6. Difficulty engaging with company experts.

WHY DYNAMICS 365?

Microsoft Dynamics 365 is a set of intelligent business applications aimed to help you run and connect your entire business. Get more from your data and improve process efficiency while you modernize the way your company works.

Dynamics 365 is the perfect solution for M&A pipeline management. We will help you to centralize information, improve communications, optimize processes, and categorize data to obtain insights/reports. This allows companies to make critical decisions and investing in the right business opportunities.

Proposed Solution: **Dynamics 365 for M&A Deal Tracker.**

01 CASE STUDY FORTUNE 100 COMPANY

PROBLEM OVERVIEW

A company that invests in emerging technologies across a range of industries faced the following challenges:

Disorganized customer data and no analytics

Documents were all over the place; people kept important information in personal storage, multiple SharePoint sites, different OneNote notebooks, and scattered attachments.

Issues staying connected

Documents were all over the place; people kept important information in personal storage, multiple SharePoint sites, different OneNote notebooks, and scattered attachments.

Trouble finding & following prospects

The team spent too much time with manual tasks; Salesforce was unused; information was challenging to find and not visible for decision-makers.

SOLUTION

Implementation of Dynamics 365

Through a centralized repository and process for prospects and opportunities with a customized Dynamics 365 implementation, opportunities get assigned to specific team members, improving communication and tracking. Dynamics 365 enables metrics and reports that further help in closing those opportunities.

MAIN BENEFITS

- Automation of everyday tasks.
- Greater efficiency for multiple teams.
- Improved analytical data and reporting.
- Automate forecasting for business performance.
- The company saved 50% to 60% of time with Power BI.

DYNAMICS365 IS A GREAT SOLUTION THAT HELPED US MANAGE ALL INTERACTIONS WITH PROSPECTS & WILL SCALE OUR PROCESSES OVER TIME.

PEOPLE ARE SAVING 15-20% OF THEIR TIME BY IMPLEMENTING AUTOMATED PROCESSES AND TRACKING GOALS
