

HYBRID MEETING ROOMS WITH MICROSOFT TEAMS ROOMS

Microsoft Teams Rooms (MTR) brings the power of Microsoft Teams into your meeting rooms and transforms them into an easy-to-use Microsoft Teams meeting environment.

Microsoft Teams Rooms connects the MS Teams platform with your conference room devices. This gives you a native, accessible meeting environment that enables you to have more efficient meetings. With intuitive Teams controls, you can start your meetings by touching a single button and therefore easily include remote participants from other locations. The integration of the platform with your conference room enables a comprehensive hybrid meeting experience with best audio and video quality.
