

TRANSLATE A BUSINESS CASE TO AN MVP IN 1 WEEK WITH THE POWER PLATFORM

# YOUR BUSINESS APP IN 5 DAYS

Microsoft 

5 DAYS

Curious how Power Apps can change your organization? Want to have a **hands-on experience**? **Verifying** if low-code is the right technology for your case? Instead of being convinced by PowerPoints you want to see results? Or you want to **test out an idea**?

## FOR WHOM?

Business or IT leaders that want hands-on experience with the platform

PMs, POs or architects that want to verify if power apps is the right technology for the case & explore the platform

Organizations that want to test out an idea

## BENEFITS

- > Build a business case
- > Co-create an MVP in five days
- > Being convinced by results
- > Rapid time to value

Via “Your business app in 5 days” we want to immerse you into the power platform ...

### DAY 1 AM CONTEXT

- > Let's **frame** the platform and give **more context**
- > **Hands-on workshop** to determine business case

### DAY 1 PM GOAL

- > We create the **backlog** and **mock-ups** together
- > Make **goal & success factors** clear

### DAY 2, 3 & 4 DEV TIME

- > Focus on **development**
- > **Daily standup** to align and adjust

### DAY 5 DEMO & WRAP UP

- > Demo of the **MVP**
- > **Feedback** processing
- > **Looking back & next steps**

# YOUR BUSINESS APP IN 5 DAYS

## Preparation

The group that follows the “Your Business App In 5 Days” sessions ideally consists of a mix of persons from business and IT. Business users know the business cases and which processes can be optimized most. IT knows the internal landscape and can help determine the feasibility and make connections and data available.

In the weeks before “Your Business App In 5 Days” the invitees should think about some feasible business cases. These cases are then reviewed by the entire group on the first day. One of the cases or a new case that arises is then further elaborated during the week.

## Effort

<i>Task</i>	<i>Profiles</i>	<i>delaware effort in days</i>
<b>Workshops (day 1 &amp; 5)</b>		<b>4</b>
