

D365 Sales Kickstart

In just **5 days**, you'll have a full enterprise sales system to manage your **customers** and **sales processes**.

This implementation allows you add a sales system to your organization with **very low cost** and **high potential**.

If you already have a **clearly defined sales process** in your organization and prefer to continue to work with them;

No problem, we can add them on top of the implementation in just another 5 days, bringing it to a total of **10 days**.

1 Capture and create Leads, opportunities, and quotes

2 Assign to Leads and Opportunities to sellers

3 Seller and sales management dashboards provide in depth pipeline insight

4 Use Outlook integration to track important communication
