AI Revolution Company

LLIAPLATFORM.COM

Llia

More than just an assistant.

An Artificial Intelligence platform ready to transform the end-to-end value chain in your company through LLMs and RAG architectures.

Llia integrates highly customizable AI-powered modules to revolutionize how you find, interview, and hire new talents, with upcoming features to improve team management, onboarding, training, and performance.

Llia

AI/QuickMatch:
Talent attraction and
selection powered by AI.

AI Revolution Company

✳ Llia

Have intelligent, efficient, and scalable recruitment processes.

Identify ideal applicants quickly and accurately, aligning skills with your organizational needs and adding a strategic layer to your Talent Acquisition team. Powered by AI and data for more assertive hires and increased efficiency.

Backed by tech giants

OpenAI   ▦ Microsoft

▲ Azure   GitHub

Automated applicant selection

Automate selection and interview with a conversational AI Agent and access detailed analysis to empower recruiters.

Integration & development

Just plug and play. Integrate Llia with tools you already use or have us build custom integrations for you from scratch.

Responsible AI

Respecting responsible AI, Llia does not assess applicants but delivers detailed reports for enhanced human decisions.

✳ Llia

Companies that use Llia hire faster, boost efficiency, and cut costs.

Reach full scalability for agile, global recruitment processes. Enjoy competitive advantages today.

Up to **80%** cost savings

Reduced recruitment costs with automated technical interviews.

Full **availability**

Unlimited, simultaneous interviews that overcome language and time barriers.

Optimization **&** productivity

Better use of recruiters' working hours to focus on strategic tasks and increase productivity.

Intelligence **&** accuracy

Detailed feedback based on data to find your next perfect hires.

3× faster hiring process

Faster talent attraction and hiring using AI tools strategically.

Improved user experience

The best experience for both applicants and recruiters with faster processes.

✳ Llia

Access key features ready to be used:

Evaluation review

Access detailed, unbiased feedback with an AI Agent that generates analytical reports for recruiters for more assertive hires.

Personalized APIs

Adapt Llia to your business needs with flexible integrations and personalized setup end to end.

Behavioral &technical interviews by AI

Create and execute tests with applicants guided by a conversational AI Agent.

Intelligent dashboards with actionable metrics

Follow candidate performance and make quick, strategic, data-driven decisions.

ATS integration

Integrate the main Applicant Tracking Systems to automate recruitment.

✳ Llia

Unique features that set Llia apart from the competition:

Multimodal conversational agent that **feels like a real interviewer**

Single flow for behavior and technical assessment—**no need for multiple tools**

Custom tone, language, and culture-fit logic per client/team

Instant summary with hiring recommendations **for decision-makers**

Roadmap for post-hire engagement (onboarding, training, performance)

✳ Llia

AI agility and innovation with the necessary personal touch.

"Llia offered something different than just those repetitive tests, very innovative, I really liked the interactions."

"I had experience with asynchronous interviews, but this was the first time I had real-time feedback. I thought it was innovative."

"I had never done an interview like that before, and I was quite surprised."

"I found Llia much more peaceful because I felt like I was actually responding to a person."
