

Copilot Agents Discovery Workshop

Discover new ways to improve your organization's productivity.

What is this workshop about?

- **Create Tailored Solutions:** Learn to develop Copilot agents designed to address your unique business needs.
- **Data-Driven Intelligence:** Integrate agents with internal and external data sources, including non-Microsoft 365 databases.
- **Simplify and Accelerate Processes:** Use natural language to interact with your data, streamlining workflows and improving efficiency.

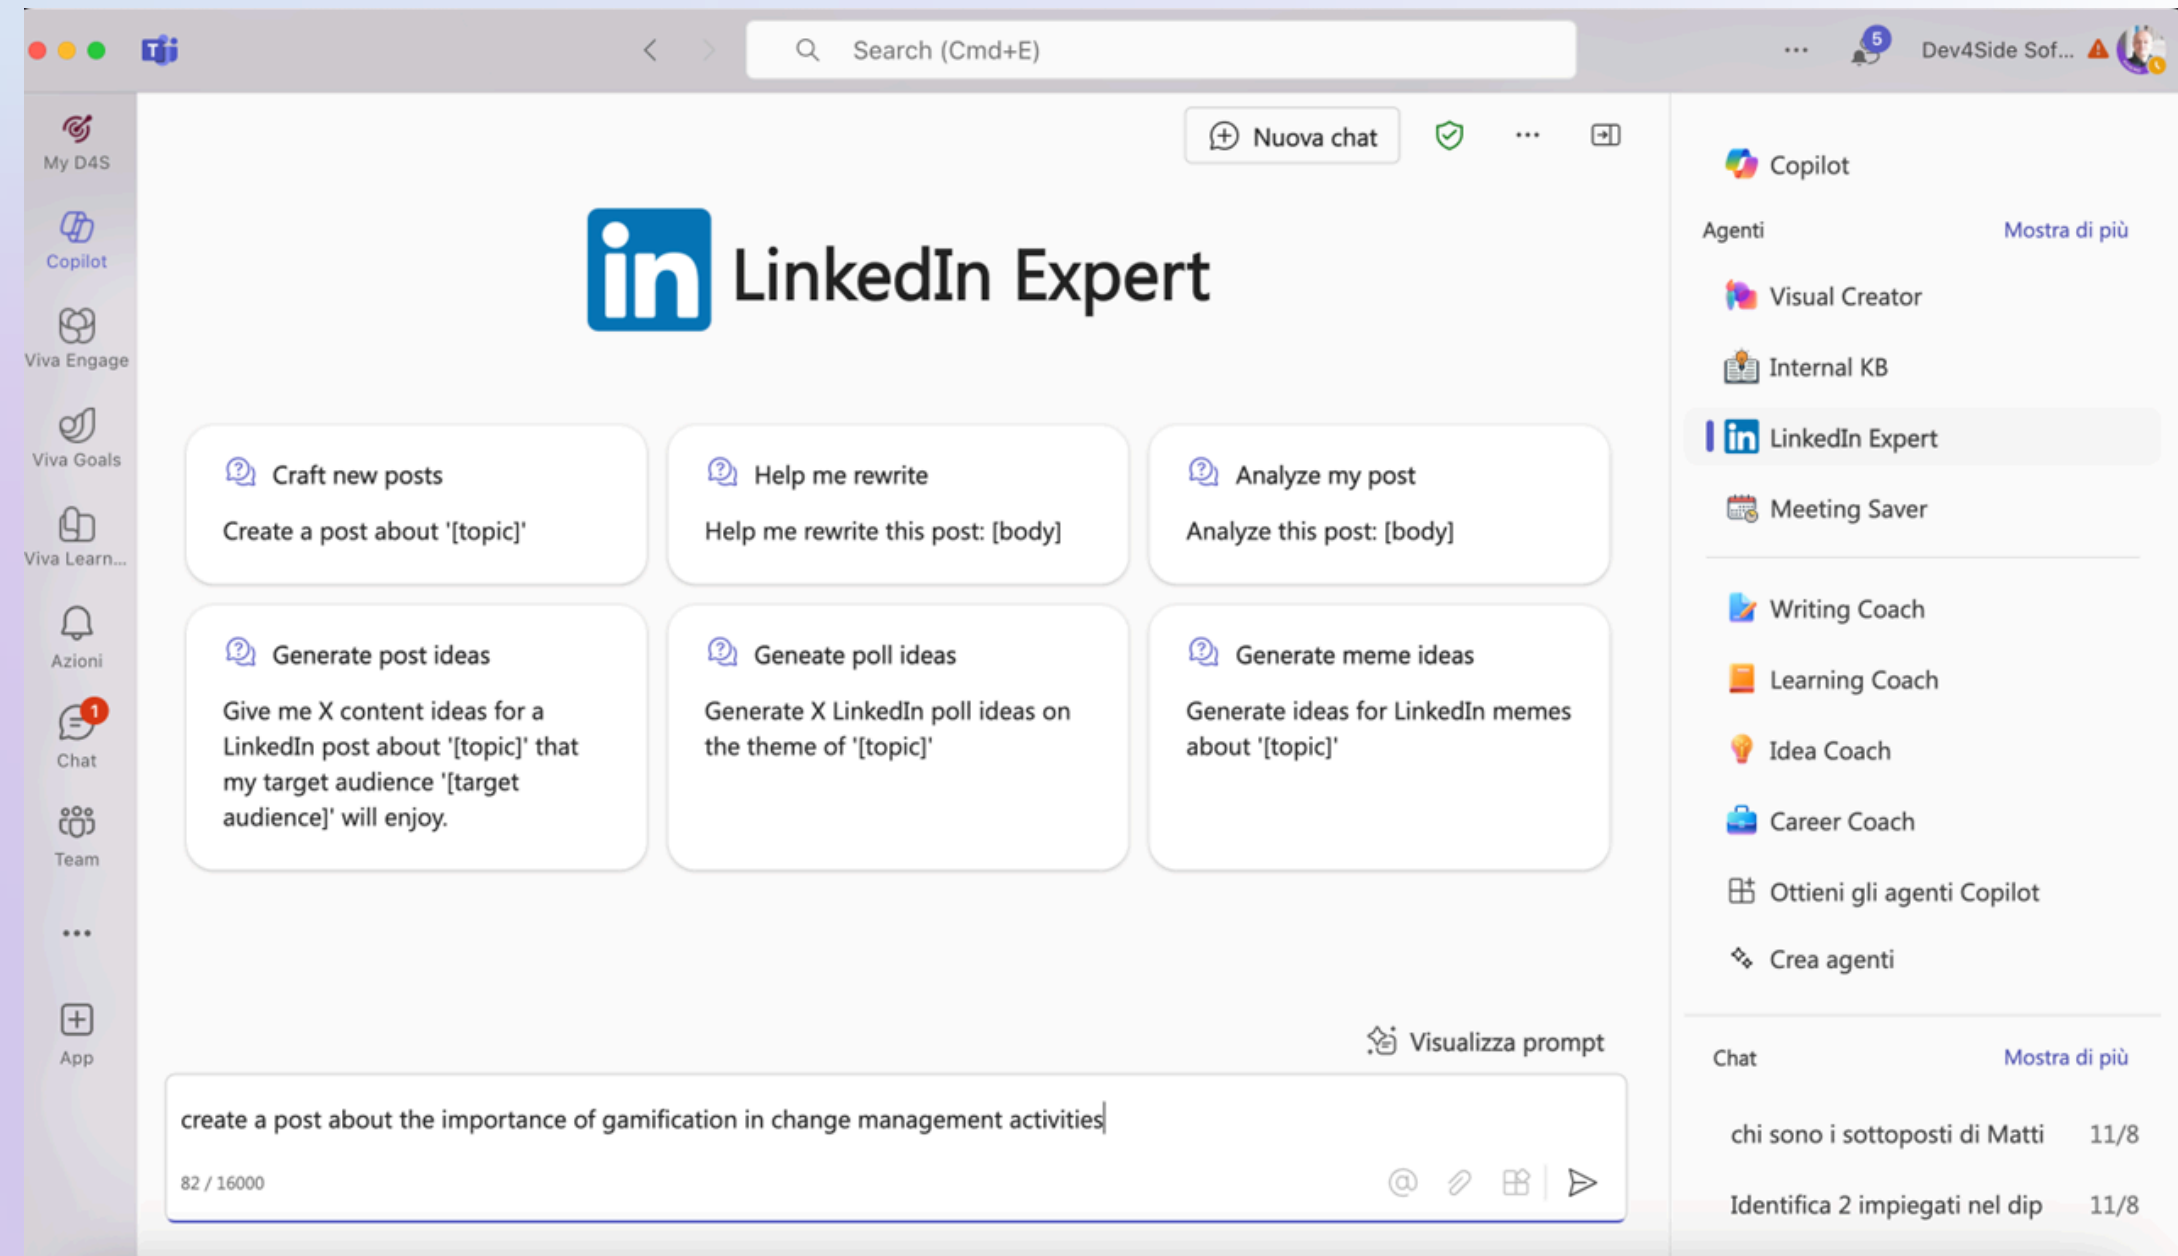

The screenshot displays the Copilot Studio configuration page for an agent named 'Company procedures expert'. The interface is dark-themed and includes a top navigation bar with the Copilot Studio logo and the agent name. A 'Draft auto-saved' indicator and a 'Create' button are visible in the top right. Below the navigation, there are 'Describe' and 'Configure' buttons. The main configuration area is divided into several sections: 'Details' with a hexagonal icon and an edit icon; 'Name' with a text input field containing 'Company procedures expert' and a character count of 25/30; 'Description' with a text area containing 'A Copilot agent to answer all of your questions about company procedures' and a character count of 72/1000; 'Instructions' with a text area containing 'You're an expert of Contoso company procedures and you help people to find information inside them. Please reply only with information from the SharePoint source.' and a character count of 162/8000; and 'Knowledge' with a circular refresh icon and the text 'SharePoint'. At the bottom right, there is a chat input field with the placeholder 'Type your message' and a character count of 0/2000. A footer at the bottom of the interface contains a disclaimer: 'AI-generated content may be incorrect | Copilot Studio capabilities in M365 are processed by the Copilot Studio service. By using this experience, you agree to these Terms | Privacy and cookies'.

Sample agents 1/4

LinkedIn Expert

Implement a LinkedIn expert agent with the goal of helping Marketing and HR departments quickly craft new posts following all the best practices and guidelines for LinkedIn content creation.

Sample agents 2/4

Slots finder

Simply use natural language to search for slots with your colleagues and book meetings directly from the chat in seconds. Plus, extend Copilot's capabilities to check not just your calendar, but all calendars within your organization. Streamline your scheduling and make your meetings a breeze!

In a few weeks, this plugin will be converted to a custom agent and added inside AppSource.

Sample agents 3/4

Room finder

Simply use natural language to search for available rooms in your facilities and book them directly from the Copilot BizChat. The plugin is able to directly book Exchange Online rooms.

The screenshot displays the Microsoft Copilot interface within a Teams chat window. The chat header shows the Copilot icon and the text "trova le Rooms disponibili il ...". The chat content includes a search prompt: "trova le Rooms disponibili il 16 luglio a Milano dalle 11:00 per 15 persone". The response from Copilot provides details for a room named "Acquario":

Ho trovato una sala disponibile a Milano per il 16 luglio alle 11:00 che può ospitare fino a 15 persone. La sala si chiama **Acquario** e ha una capacità di 14 persone. È situata a Milano e puoi contattarla tramite l'indirizzo email acquario@dev4side.com o al numero di telefono +39 02 39 29 5655. Tuttavia, è già occupata dalle 09:00 alle 10:00, quindi potrebbe essere disponibile subito dopo per il tuo evento. 1

In alternativa, c'è la sala **Newton** con una capacità di 14 persone. Puoi contattarla tramite l'indirizzo email Newton@dev4side.com o +39 02 39 29 5655. A

Se hai bisogno di ulteriori informazioni o desideri assisterti ulteriormente.

Below the text, there are two buttons: "1 Acquario" and "2 Newton", and a "Copy" button.

A modal window titled "Rooms" is open, showing a photo of the "Acquario" room. The modal includes the following details:

- Capacity: 14
- City: Milano
- Email Address: acquario@dev4side.com
- Phone: +39 02 39 29 5655

At the bottom of the modal, there are two buttons: "Reserve this Room" and "Show Schedule".

The left sidebar of the Teams interface shows various app icons: My D4S, Copilot, Viva Engage, Viva Goals, Viva Learning, Activity, Chat, Teams, Calendar, Service Desk, and Apps.

Sample agents 4/4

Internal KB agent

Agents are educated to reply to questions related to internal needs. The replies are generated starting from the contents of an internal KB created inside SharePoint Online.
