# A holistic approach for the Microsoft Clouds

# Our goal

## Our Objective

Together, identify the types of data and establish with you a classification and protection policy in line with your context, needs and requirements.

Protect and govern your data where it resides.

Protect yourself from leaks of sensitive data.

Identify critical internal risks and take appropriate remedial actions.

Simplify compliance and reduce risk.

Investigate and respond with relevant data.

Ensure access methods modern and reinforced by the development of authentication scenarios and the implementation of conditional access and strong authentication.

## Our Values

Recognized Microsoft cloud experts and leading player in digital transformation on the market.

Mastery of business and regulatory issues for security and compliance that integrates perfectly with security requirements without slowing down the business or degrading the user experience.

We offer end-to-end support:

- Strategic (governance, roadmaps, etc.)
- Functional expertise (management, collection of needs, design, etc.)
- Technical expertise (implementation of Microsoft security solutions, technical audit, remediation, etc.) .
