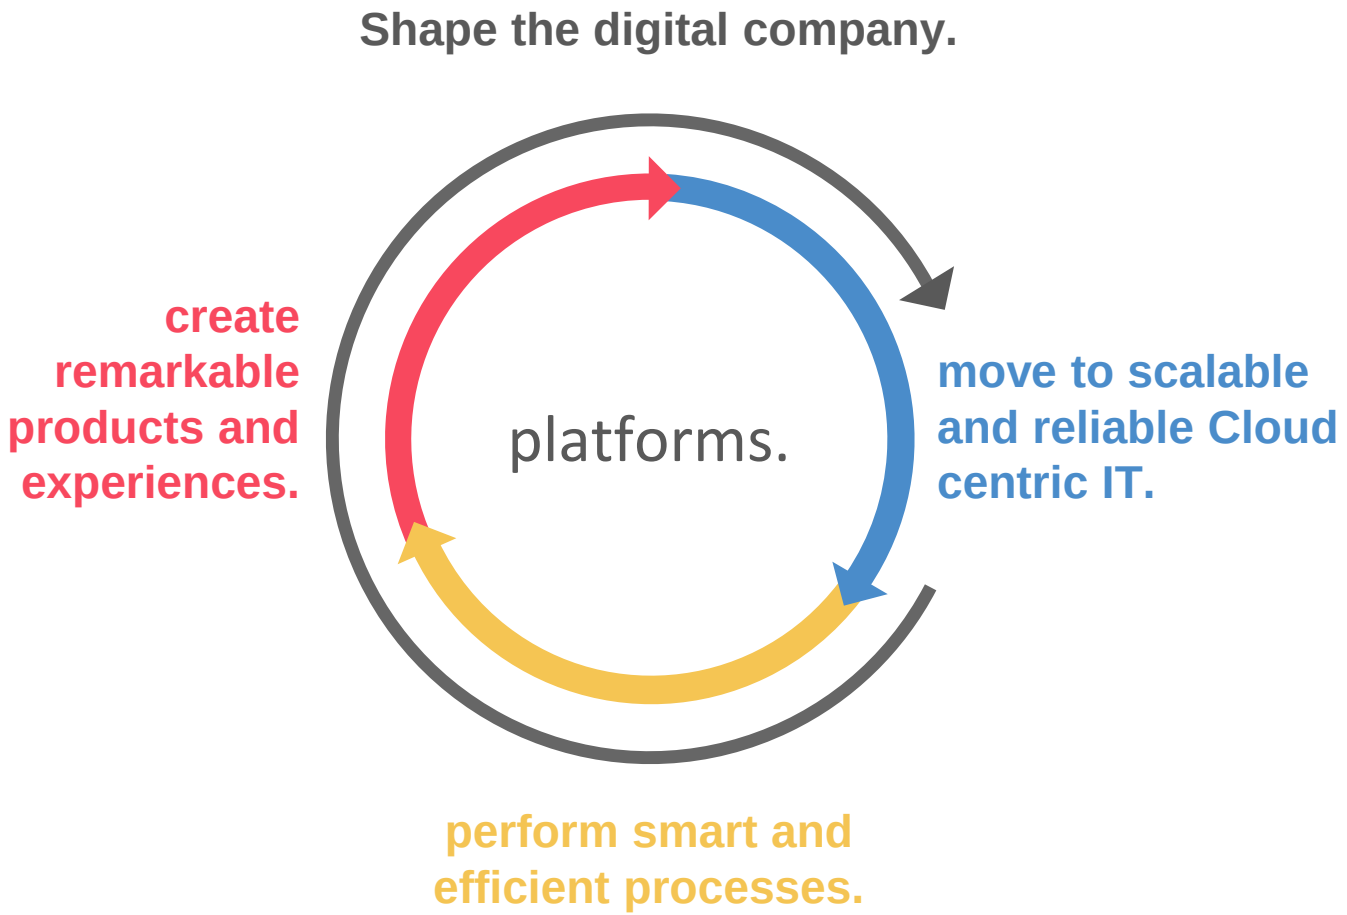
Revenue ambition 2019

We are a major partner for cutting-edge Cloud companies.

Google · Red Hat · servicenow · aws · salesforce · Microsoft

Make platform adoption a competitive advantage.



Navigate Cloud Journey

Why?

- Newbie or early cloud adopter? A cloud adoption journey is challenging.

- Make a short stop to:
  - Orient yourself
  - Re-evaluate where you are going
  - Adjust your roadmap, when needed.

Navigate Cloud Journey

Our approach

- Focus aligned with tour business strategy
- Balance between depth of justification & time-to-business impact
- Combined expertise of both business and technology consultant
- Industry leading frameworks
  - MS Azure cloud adoption framework
  - MS Azure well architected framework
  - OACO maturity model

Public Clouds Make Sense

Cloud computing has become the new normal

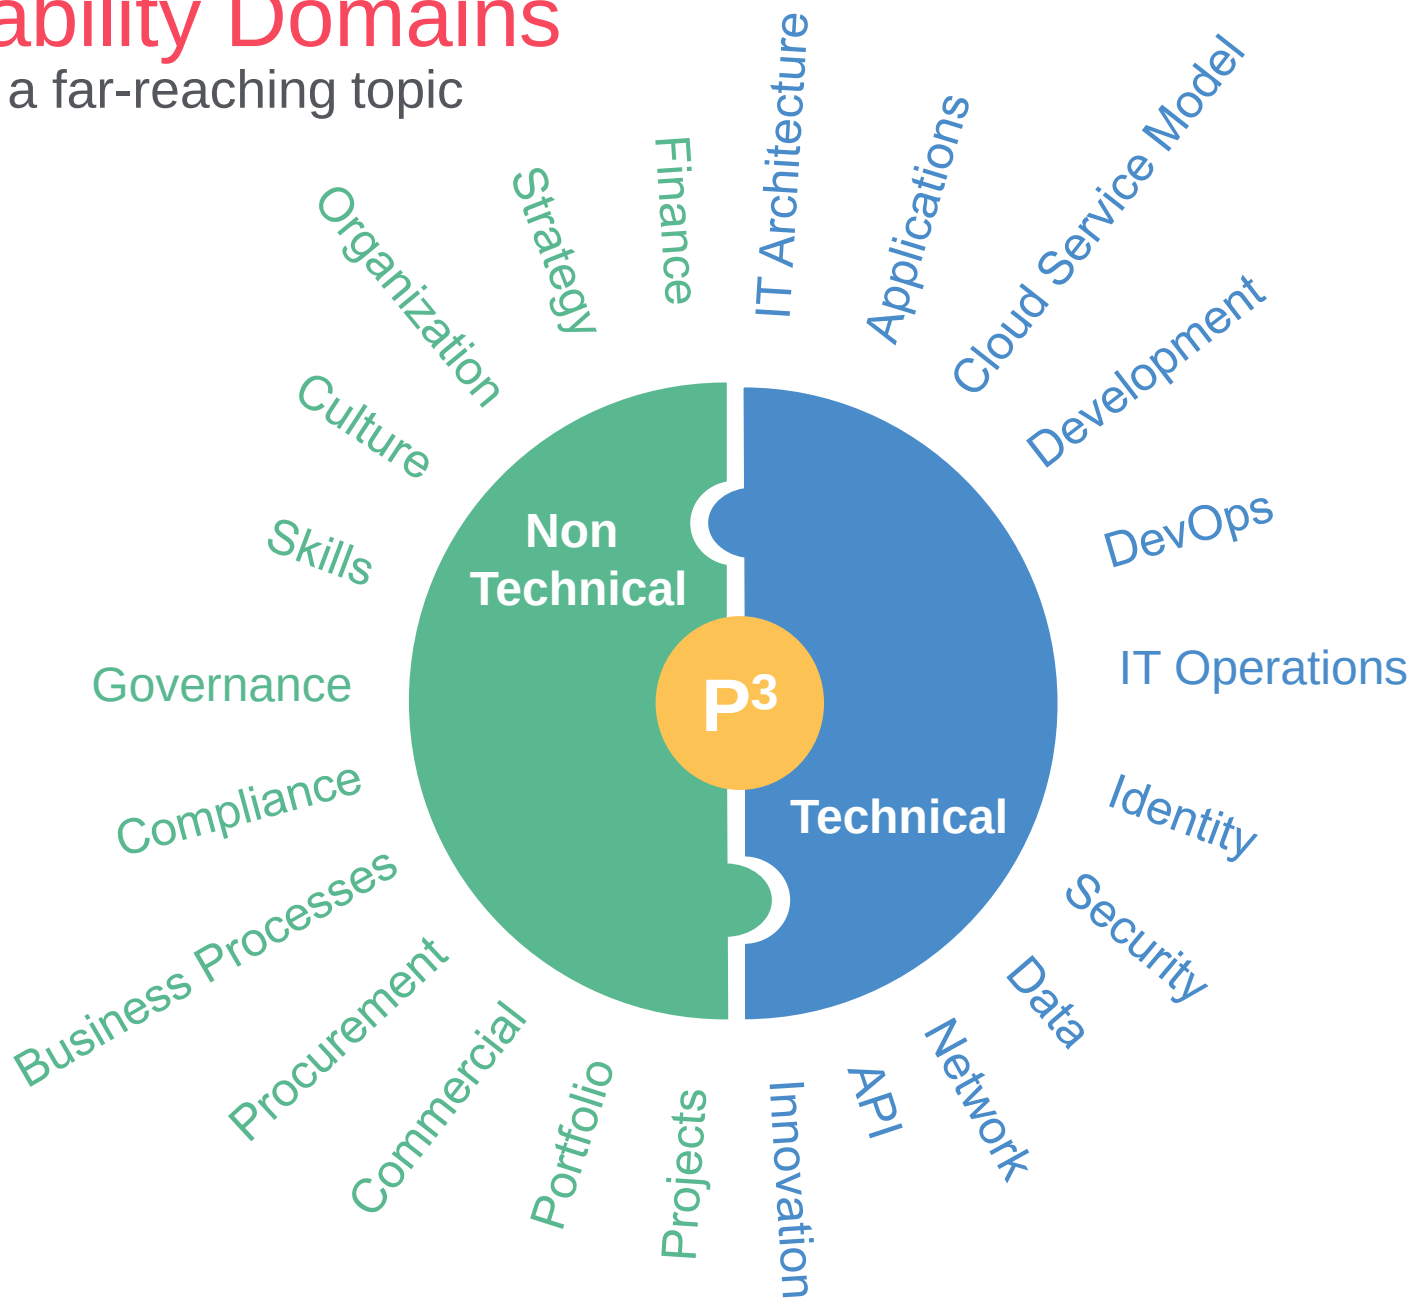
New Capabilities

Cloud Capability Domains

Cloud adoption is a far-reaching topic



Cloud Maturity Model

A tool, not a goal

CMM O
None

No cloud approach

No cloud elements implemented

CMM 1
Explorational

Awareness of cloud potential for existing services

Beginning to implement cloud elements

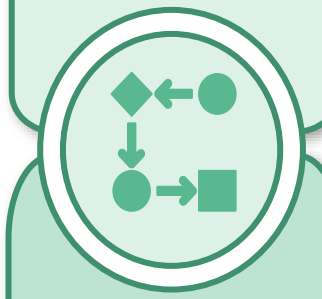
CMM 2
Opportunistic

Strategy and approach defined, but not widely accepted

Cloud for new or low risk services

Some level of automation

CMM 3
Systematic



Approach widely accepted

Migrate key applications

High level of Automation

CMM 4
Measured

Quantitatively managed by some governance structure

Cloud-first strategy

Standardized and automated processes

CMM 5
Optimized

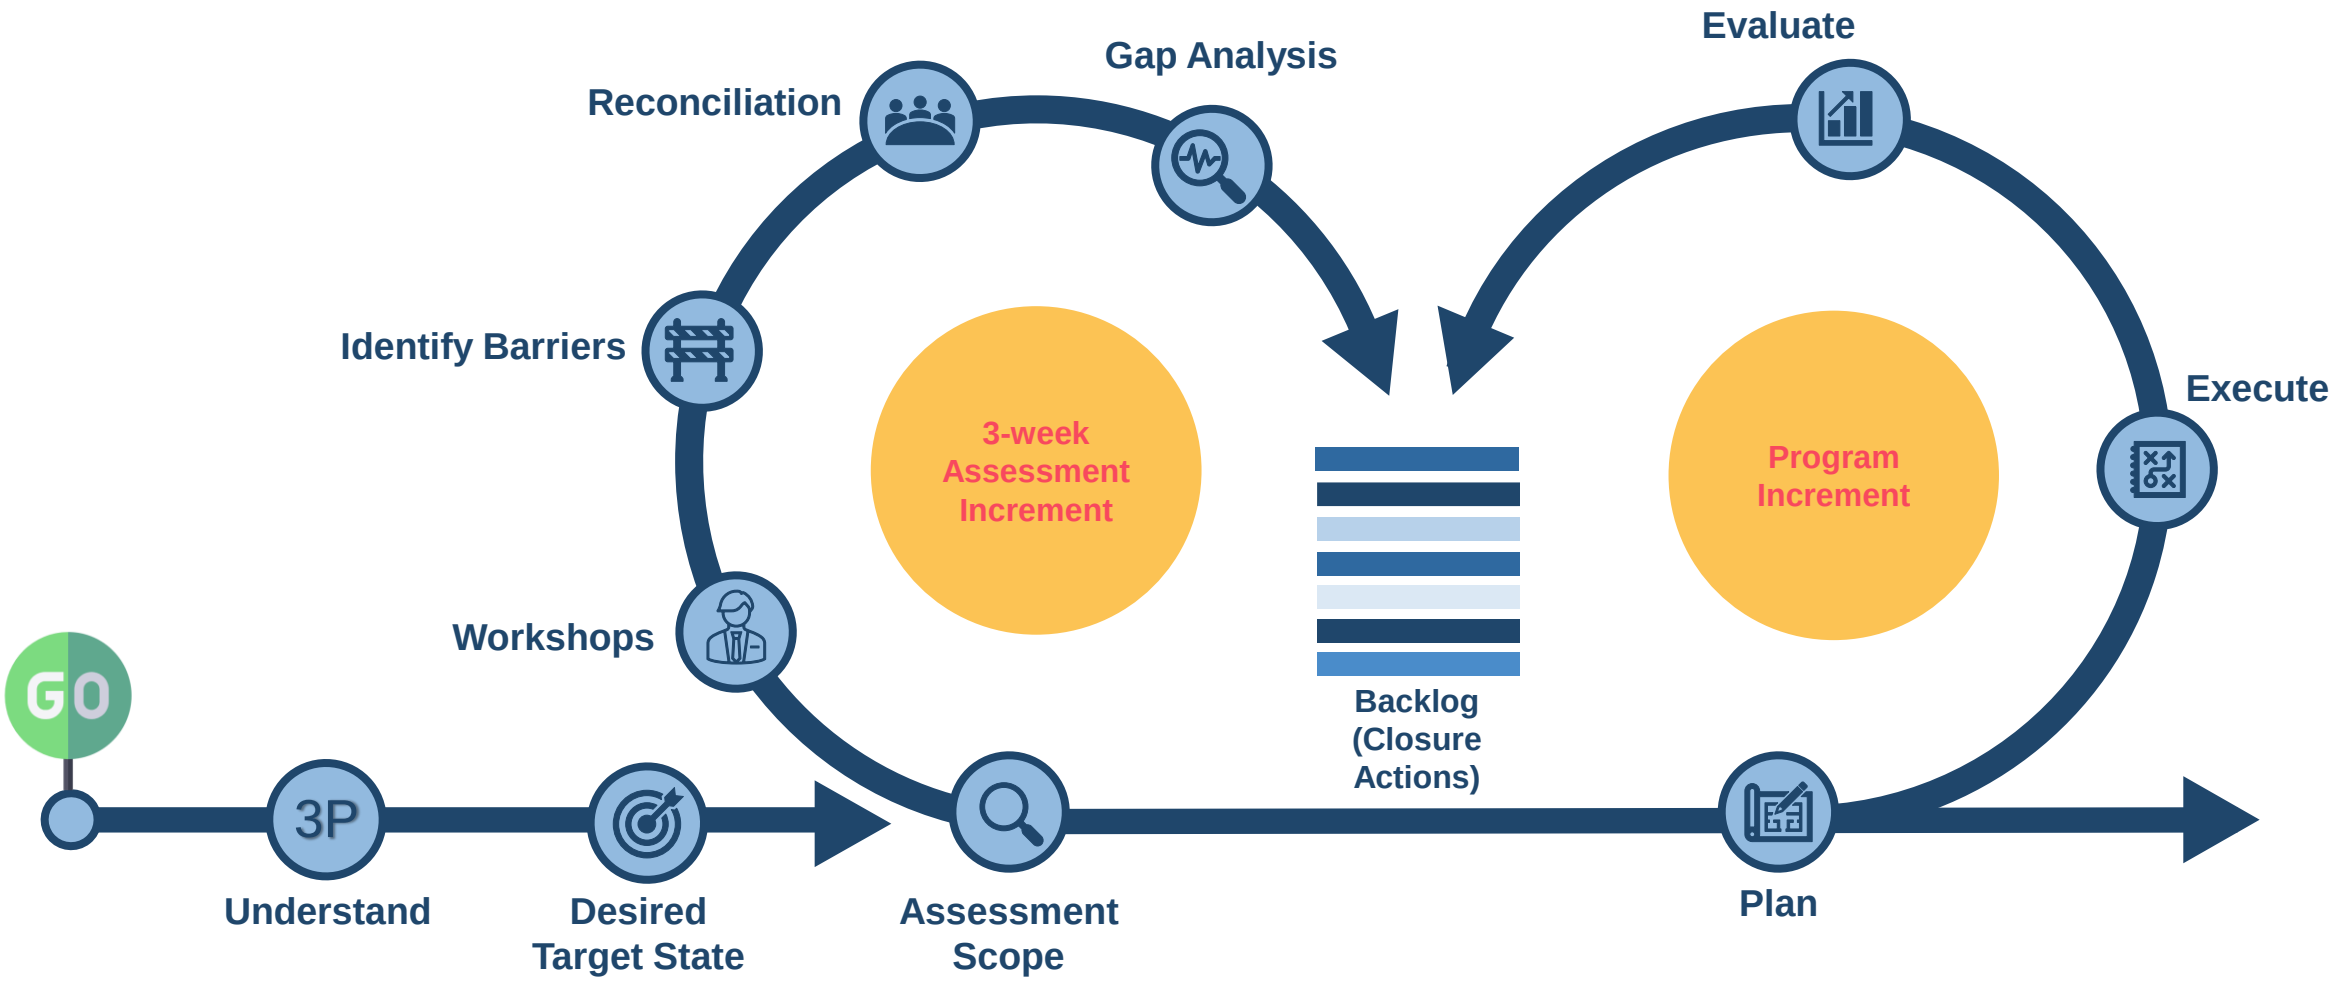
Continously improve

Multi-cloud strategy

Leverage intercloud operations

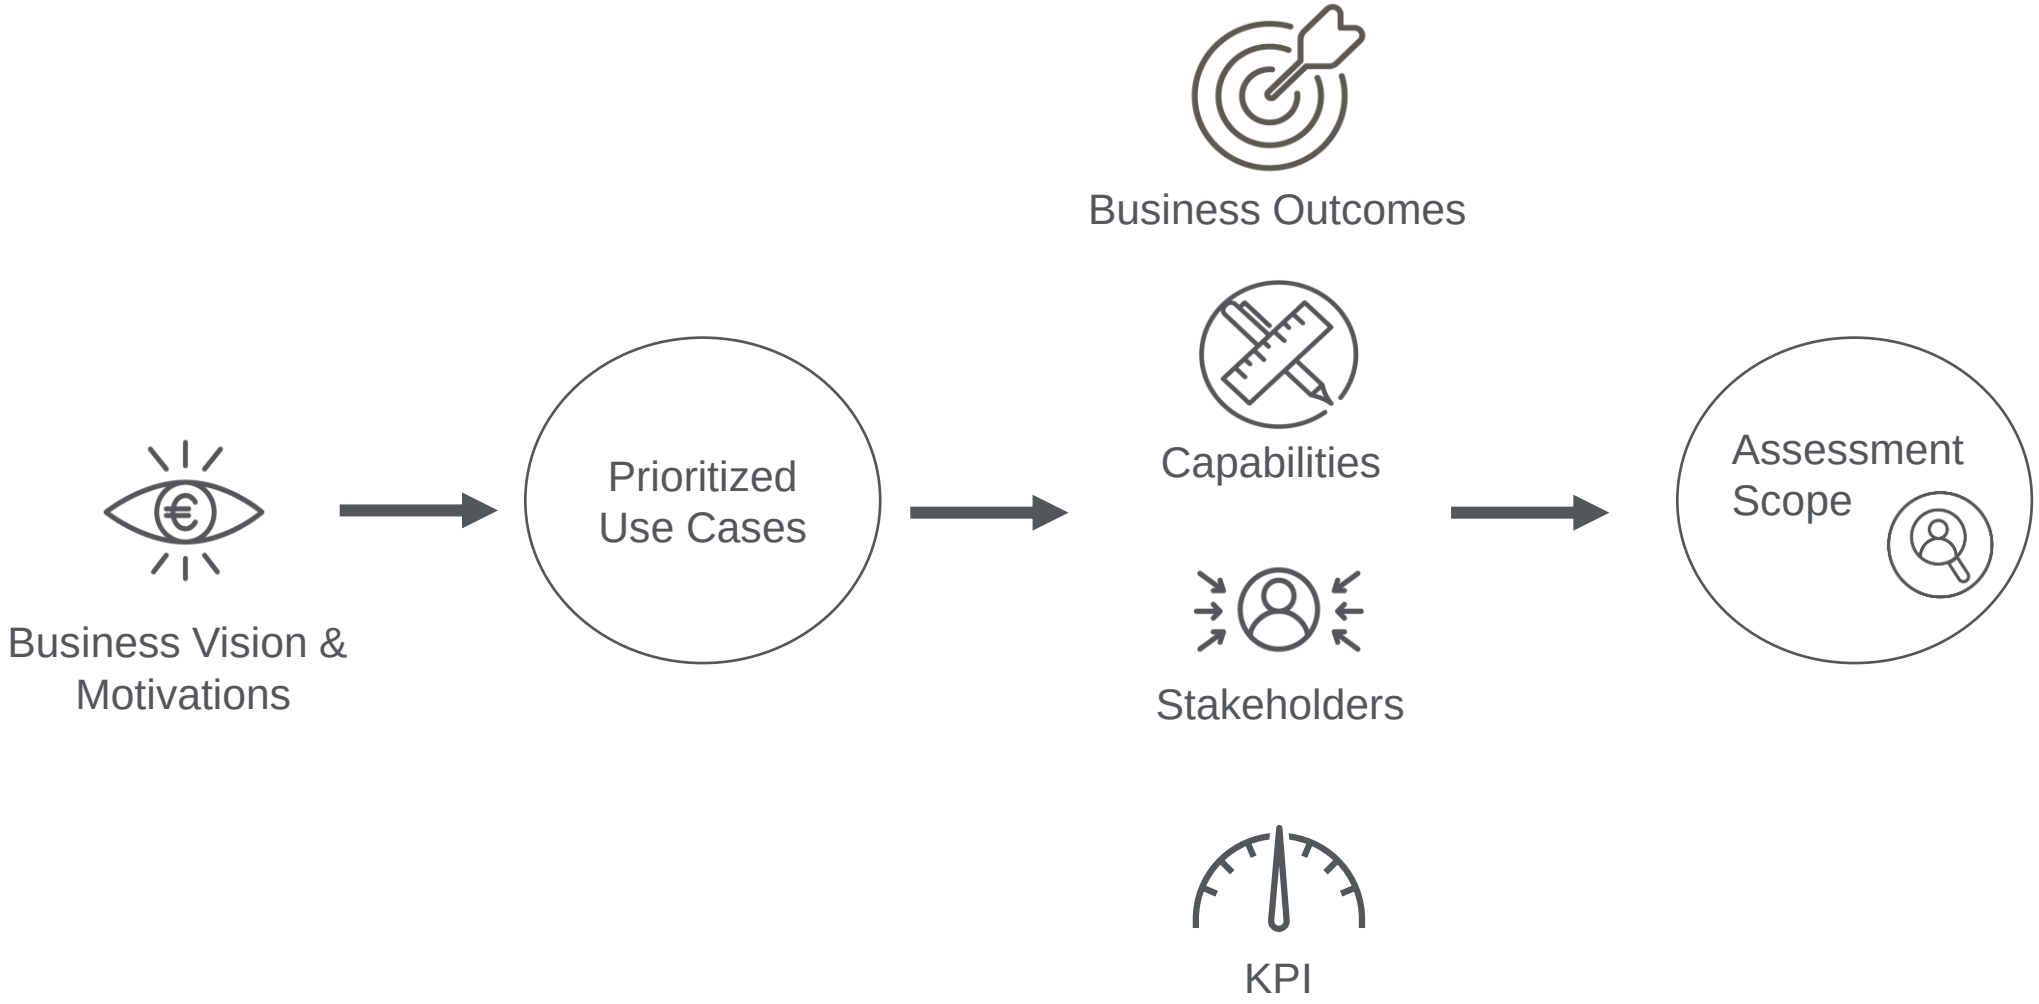
Navigation Increments

Strike balance between justification and time to impact

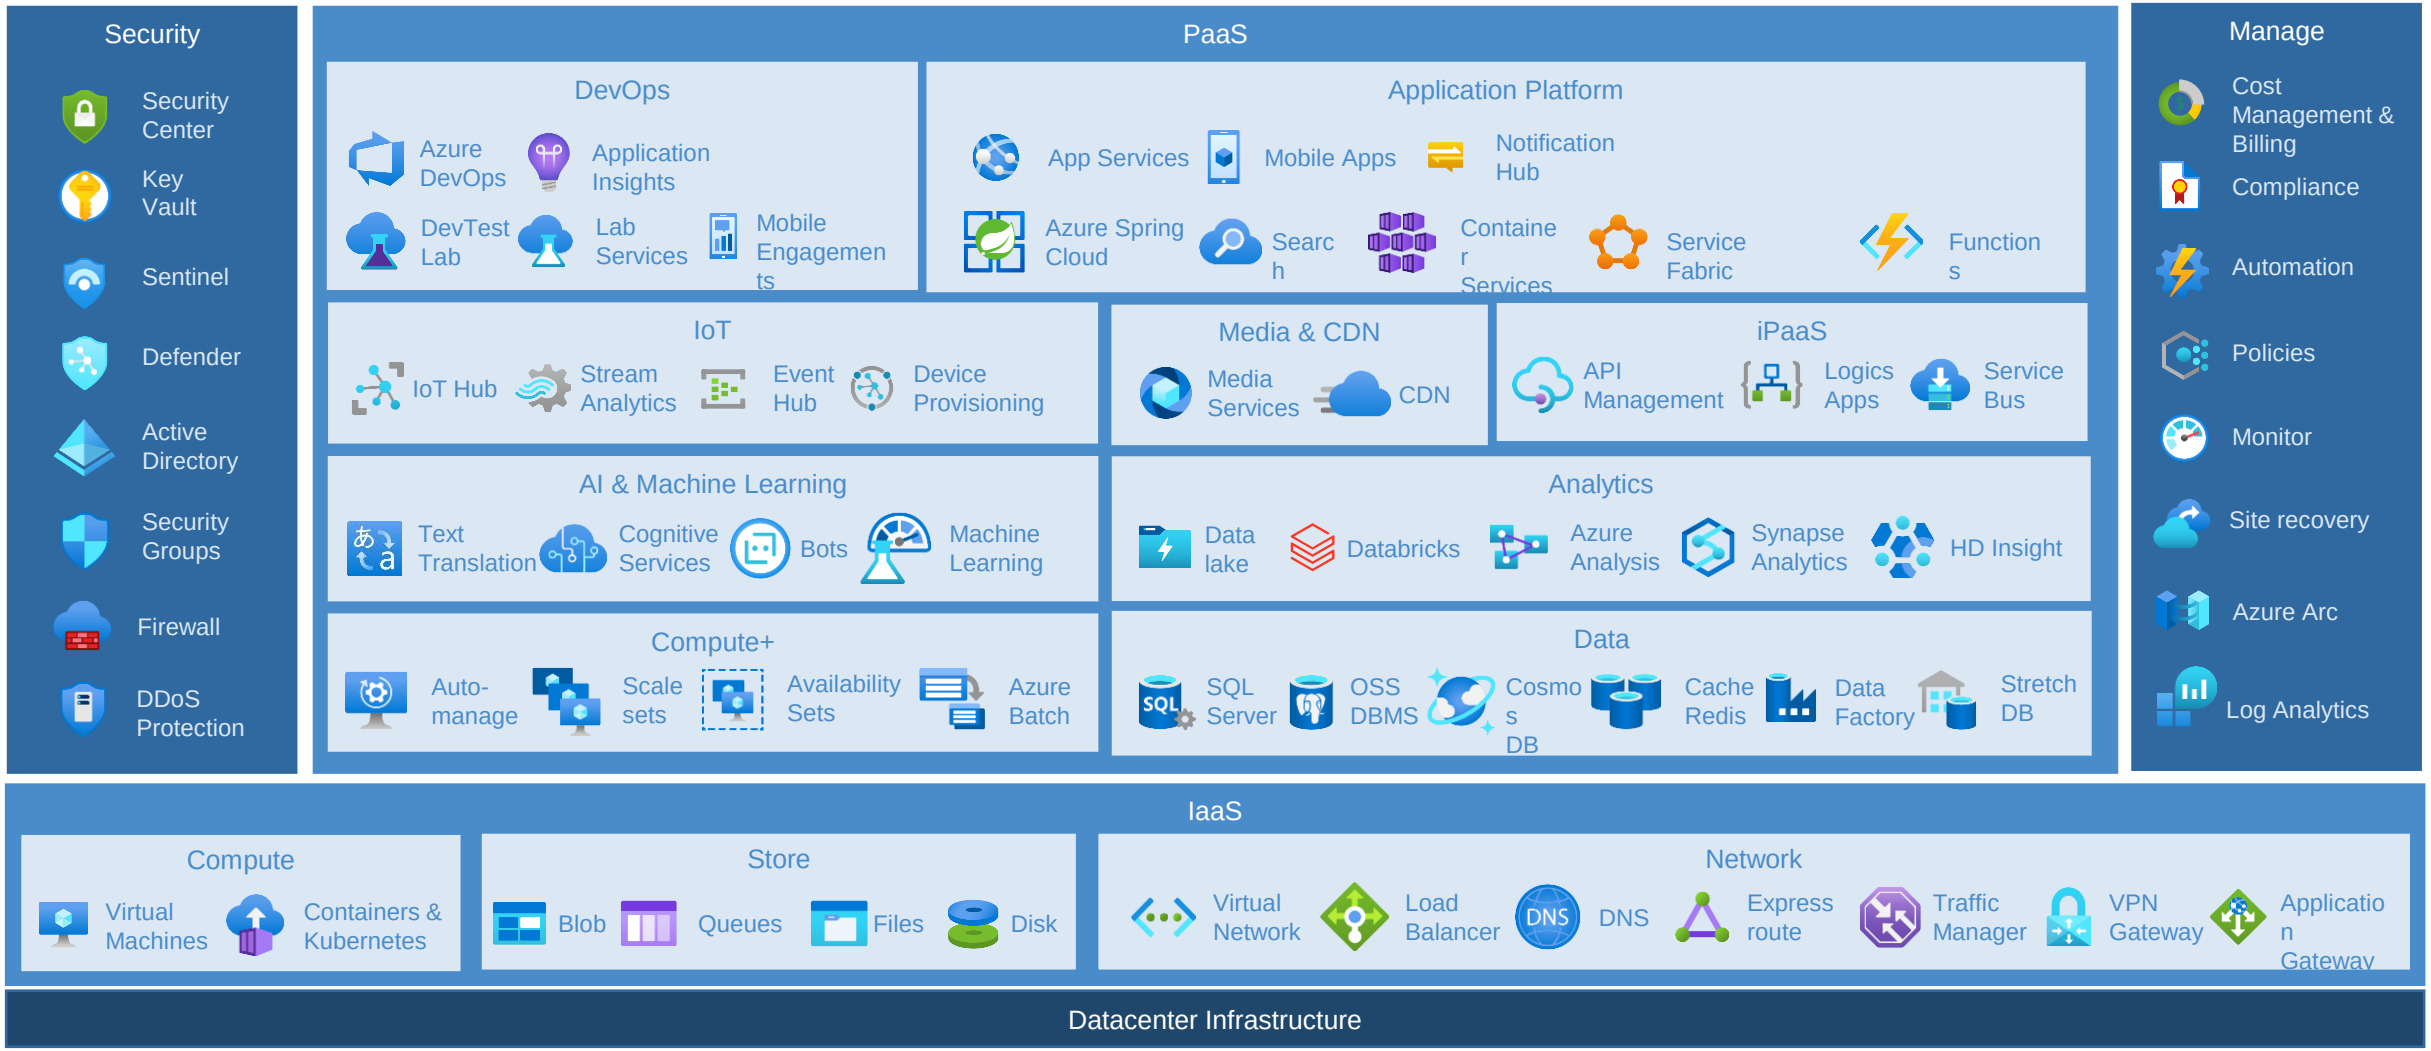


Strategic Workshop

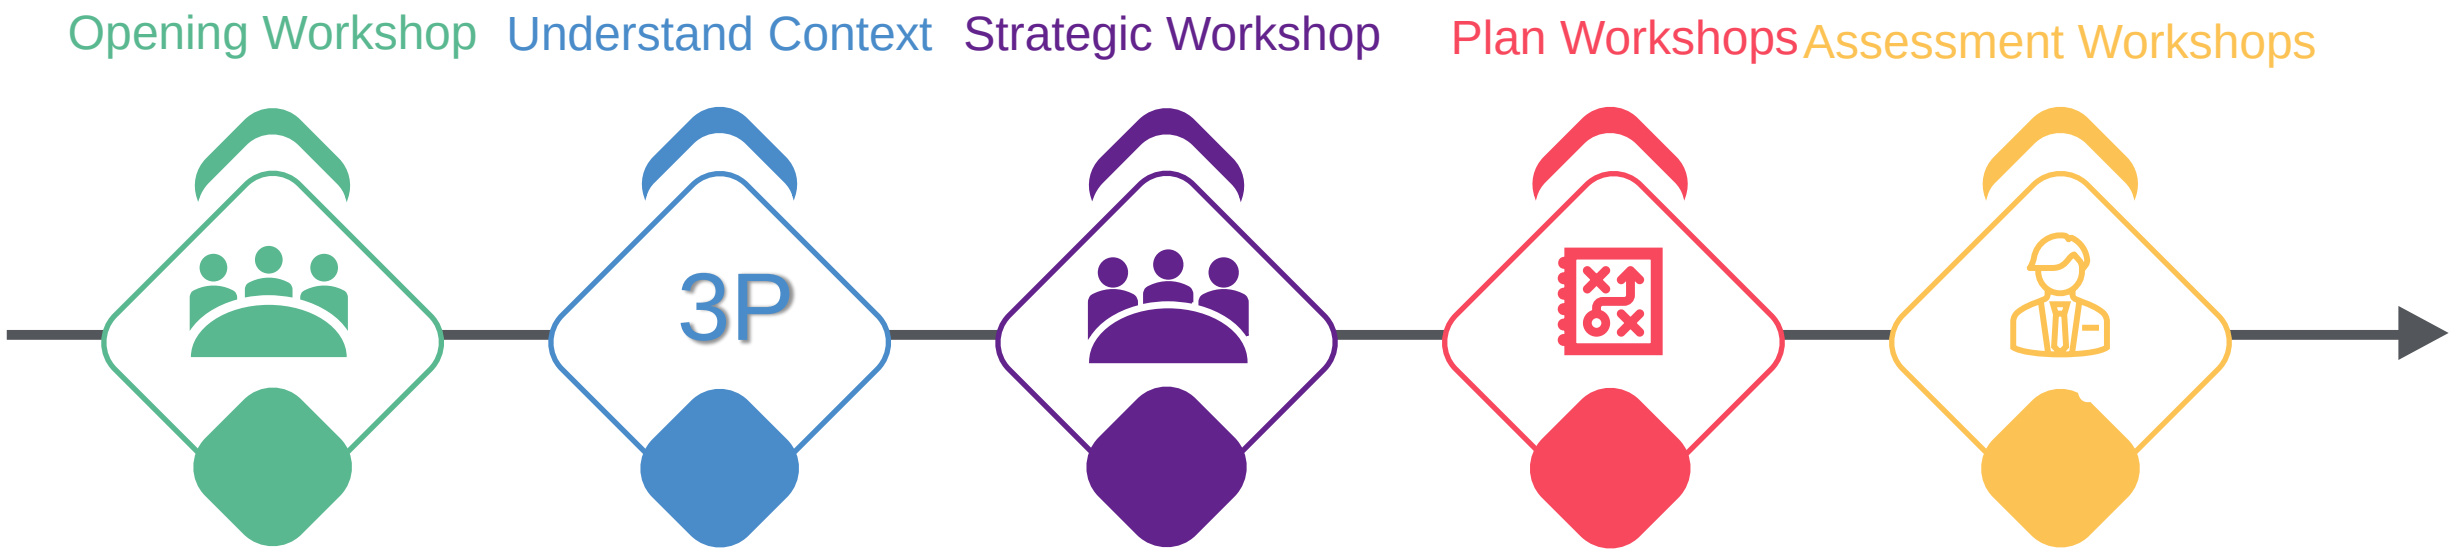
Desired Target State & Assessment Scope



Azure Cloud Services



3-week Assessment (1/2)



Introduce Methodology
Formalize Scope
Plan

Documentation Inspection
Workshops
Identify Desired Cloud Services

People, Processes, Platform

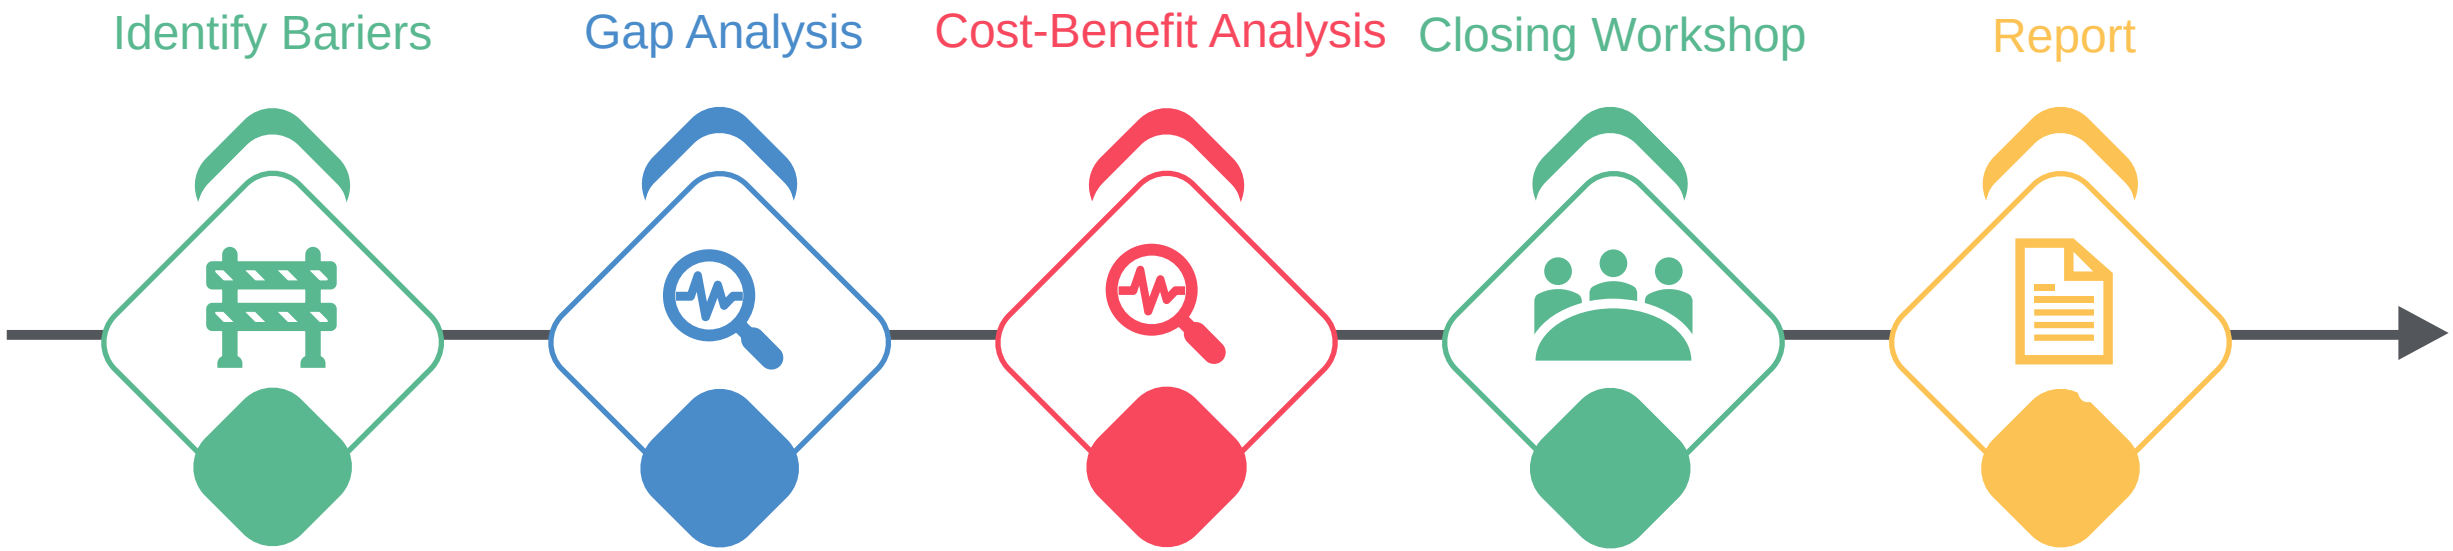
Motivations & Strategy

<u>Define Desired Target State</u>
Business Outcomes
KPIs
Capabilities
Stakeholders

Identify Capability Domains
Identify Stakeholders
Plan Interviews

Identify Current State

3-week Assessment (2/2)



Identify and rank potential barriers

Identify Gaps & Closure Actions

Tangible and intangible benefits

Upfront, recurring, termination & transformation costs

Reiterate project goals
Observations & Recommendations (top 5)
Gap closure plan
Desired target state – current state
