

Viva Connections

Modernise your business and facilitate communication that makes sense to everyone.

- **Connect within the organisation:** help your employees easily discover relevant communications and communities.
- **Foster a culture of inclusion** by allowing every employee to contribute ideas and share feedback.
- **Align your entire organisation** with your vision, mission and strategic priorities.

Our goal?

Give your employees a single point of access to the information by integrating your SharePoint intranet directly into Teams.

In concrete terms

Connect your intranet

with intelligent search and rich navigation to sites and applications.

Target your audience

to get the right news and information to the right people.

Encourage contact

Foster connections within the company through social conversations.

Improve engagement

Share compelling communications with intelligent video.

Involve your employees

Create a dynamic employee experience that is accessible and available on all devices.

Intranet integration in Teams.

The application is integrated into Teams in a few clicks for easy access.

Streamline access on the move.

Access your intranet dashboard easily from your Teams application (desktop and mobile).

Redefine the key information and issues around the intranet.

Support the business lines in defining a synthetic dashboard that has an impact on users (and data).
