# What is **our approach of digital transformation** in partnership with you?

The goal of **digital transformation** is to use technology to make your **organisation more productive**, your **employees more creative** and your **business more enchanting for customers** while **controlling costs** at the same time.

## Our competencies:

### The multidisciplinary holistic approach

#### Re-imagine & Co-design

What is your status quo? What is the right digital mix for your business?  
What is needed to achieve the desired business outcomes?

#### Enforce security & compliance

Rather than being a blocker, make security & compliance an enabler of your digital future by integrating security from the start.

#### Build & Migrate

Your new digital architecture requires a solid foundation and proven best practices to efficiently go from planning to successful migration

#### Adopt, Modernize & Innovate

Modernise your Apps and fully exploit cloud native capabilities to innovate your digital products faster than your competition.

#### Operate & Optimize

Manage your cloud estate to higher levels of performance and economies, while continuously leveraging cloud platform innovation.

- Firstline Workers

# A holistic approach of the 3 Microsoft Clouds

declined in 4 offers  
families

## GOVERNANCE

Define technology choices, roles, responsibilities and nomenclatures in different stages of your evolution to Microsoft platforms.

## ADOPTION

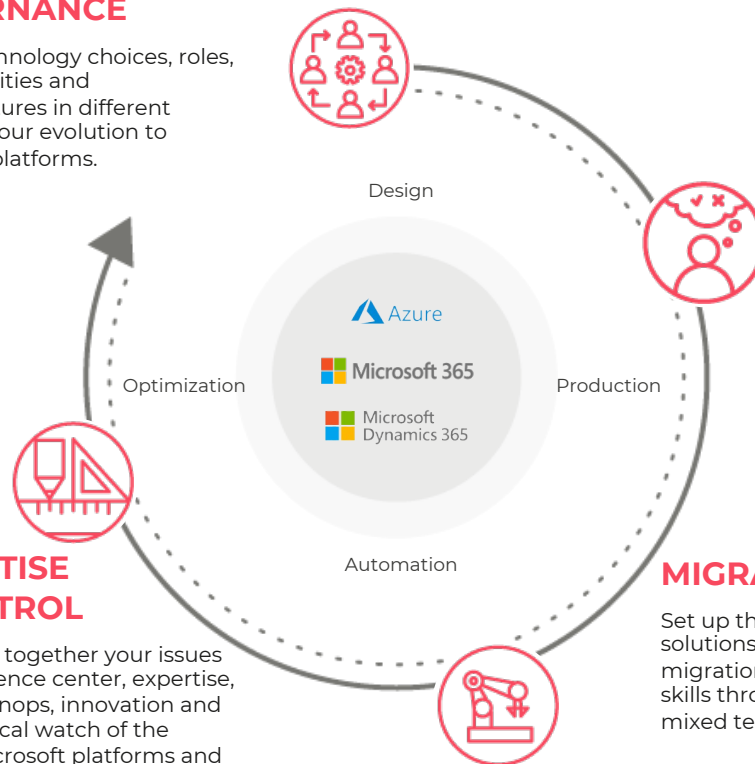

Acculturate the key players of your transformation to transmit and spread the Cloud culture at all levels of your organization.

## EXPERTISE & CONTROL

To address together your issues of competence center, expertise, security, Finops, innovation and technological watch of the various Microsoft platforms and their security tools.

## MIGRATION

Set up the target technical solutions and carry out the migrations by transferring skills through the creation of mixed teams.

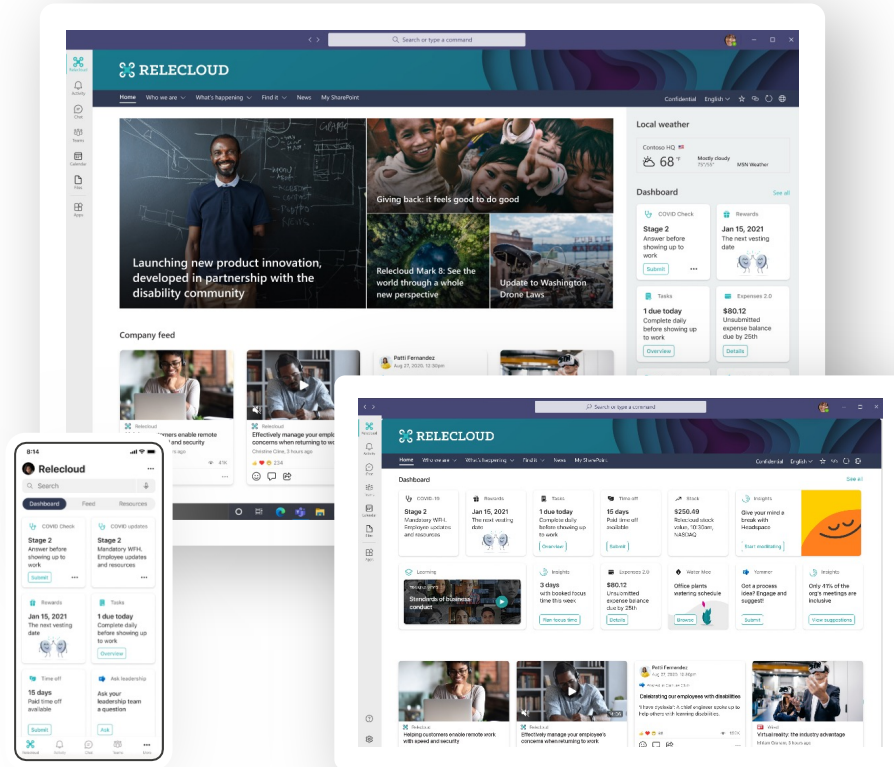

About **60%** of people  
say they are  
less connected to  
their teams since  
home-working.

# What is Viva Connections ?

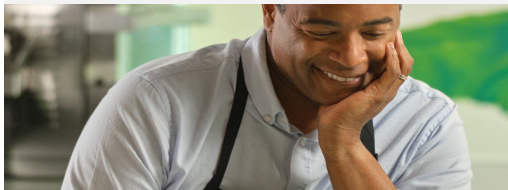

- Connect your intranet with intelligent search and rich navigation to sites and applications.
- Get news and information to the right people with audience targeting.
- Foster connections within the company through social conversations.
- Share engaging communications with intelligent video.
- Create a dynamic employee experience that is accessible and available on all devices.

Your SharePoint intranet directly integrated into Teams.

# Viva Connections, for all your needs

## Keep your employees connected

### Corporate Intranet

An employee-centric experience that makes it easy for employees to get engaged and informed.

### Company news

News and rich announcements to the right people, at the right time.

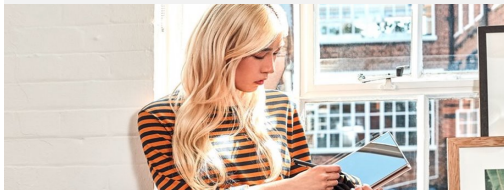

### Employee Dashboard

Provide employees with a dashboard of their critical applications and resources.

### Important Meetings

Host online meetings where managers and employees share around key topics.

## Make it easy for everyone to contribute

### Conversations and communities

Facilitate conversations within the company and create communities by function/affinity.

### Front-Line Worker Engagement

Provide them with the tools to stay informed, communicate, share ideas, and give feedback.

### Rewards and recognition

Encourage employee appreciation and recognition by deploying a rewards application in Teams.

## Unify and inspire your organization

### Leader Connection Site

Engage everyone by sharing management's vision, goals and priorities.

### Communication Sites

Provide employees with the tools, platform and preparation to communicate across the organization about a project or initiative.

### Onboarding experience for new employees

Provide new employees with a great onboarding experience, guiding them through a structured journey.

# Why migrate your intranet to **Viva Connections**?

## Addressing your issues:

- Teams is at the center of the collaboration. However, the implementation of an intranet and its link with Teams are generally decorrelated and disconnected.
- The sharing of information is thus segmented on the different bricks of the Office 365 environment.

Rationalizing access to data and information will allow users to access them simply from a common space: **Teams**.

## Take your constraints into account:

- Have a modern SharePoint Online site.
- Strong adoption of Teams and its uses.

**Creative tech for Better Change**

# Our vision

Give your employees a single point of access to information with **Viva Connections**.

## Integrating the intranet into Teams.

The application is integrated into Teams for easy access.

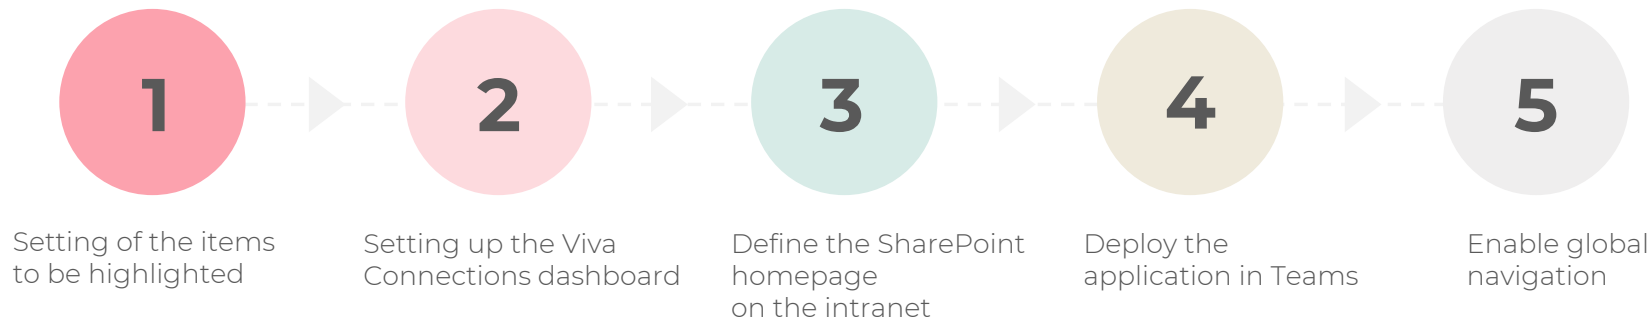

## Streamline mobile access.

Access your intranet dashboard easily from your Teams application (desktop and mobile)

## Redefine the key information and issues around the intranet.

Accompany the businesses in defining a synthetic dashboard that has an impact on users (and data).

## What are the steps to deploy Viva Connections?

**Creative tech for Better Change**

# Our project methodology

Within the framework of this offer, we propose to accompany you in the definition of a roadmap of deployment, to develop these uses and to accompany your users in the appropriation of the solution.

From 1 to 2 months

## DEFINE

Your vision of the intranet.  
Contents to be highlighted.  
Dashboards to be specified

## SET UP

Set up the dashboards

From 1 to 3 months

## DEPLOY

Deploy within Teams.

## ADOPT

Support the users.  
Define a guide for getting started with the solution.

# Workshops

Define your needs with **Viva Connections**

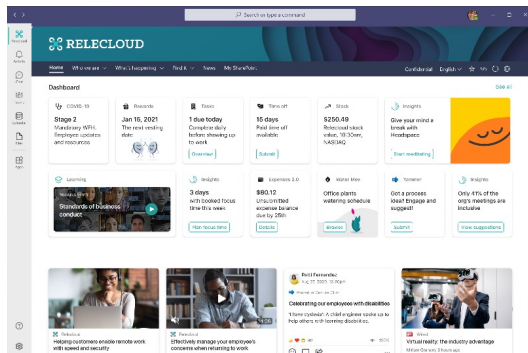

## CONTENT AND IMPLEMENTATION

### Objectives

Present us your contents and the associated visuals.

### Agenda

- Documentation
- News
- Others
- Etc.

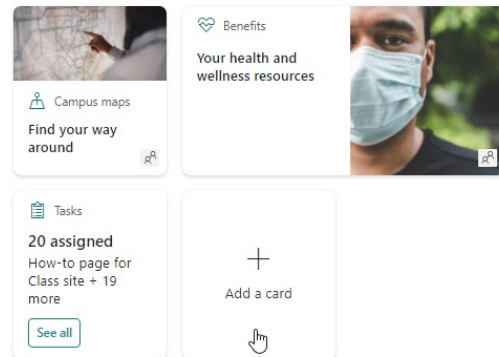

## DASHBOARD CREATION

### Objectives

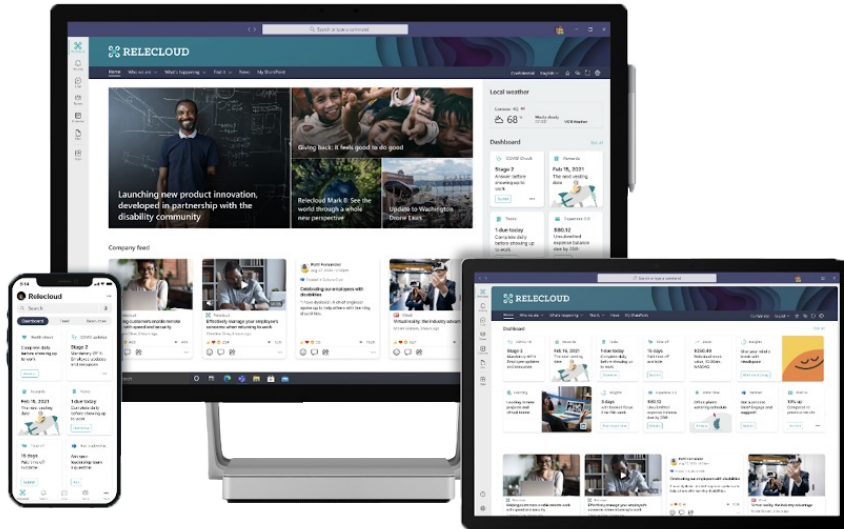

Define the dashboards and their contents

### Agenda

- Content of the dashboards
- Visualization of information

# Deliverables at your disposal

**Creative tech for Better Change**

- **Technical and Functional Specifications**
- **Viva Connections Deployment Methodology:**
  - Prerequisites
  - Administration Platforms
- **Communication and Training Kit:**
  - How to create and update the dashboard
  - How to access Viva Connections from a device

## Our commitment

# A practical vision based on our expertise
