Creative tech for Better Change
What is our approach of digital transformation in partnership with you?

The goal of digital transformation is to use technology to make your organisation more productive, your employees more creative and your business more enchanting for customers while controlling costs at the same time.

Data: With an agile and ubiquitous Data platform, you can drive data intelligence in all your business actions.

Employees: Create a collaborative work environment where collective intelligence drives creativity and innovation.

Your digital Future

Applications and digital products: Ensure that you can innovate at the pace of the fast changing market expectations.

Cybersecurity: Take a risk based approach, tailored to keep your organisation at the right level of security and compliance.

Our competencies:
The multidisciplinary holistic approach

Re-imagine & Co-design

What is your status quo? What is the right digital mix for your business?
What is needed to achieve the desired business outcomes?

Enforce security & compliance

Rather than being a blocker, make security & compliance an enabler of your digital future by integrating security from the start.

Build & Migrate

Your new digital architecture requires a solid foundation and proven best practices to efficiently go from planning to successful migration

Adopt, Modernize & Innovate

Modernise your Apps and fully exploit cloud native capabilities to innovate your digital products faster than your competition.

Operate & Optimize

Manage your cloud estate to higher levels of performance and economies, while continuously leveraging cloud platform innovation.

initiate — define — transform — perform

This framework can be duplicated for your projects on the 3 Microsoft clouds.

Our value propositions

Expertise across all Microsoft Clouds.

Speed up Cloud Innovation

Why deploy Viva Topics in your company?

YOUR CHALLENGES:

- Enable the user to quickly find the right information at the right time
- To perpetuate knowledge over time
- Reduce time wasted searching for information and recreating existing content

YOUR CONSTRAINTS:

- Ever-increasing volume of shared information
- The use of several tools leads to contextual changes, undermines productivity and creates frustration.
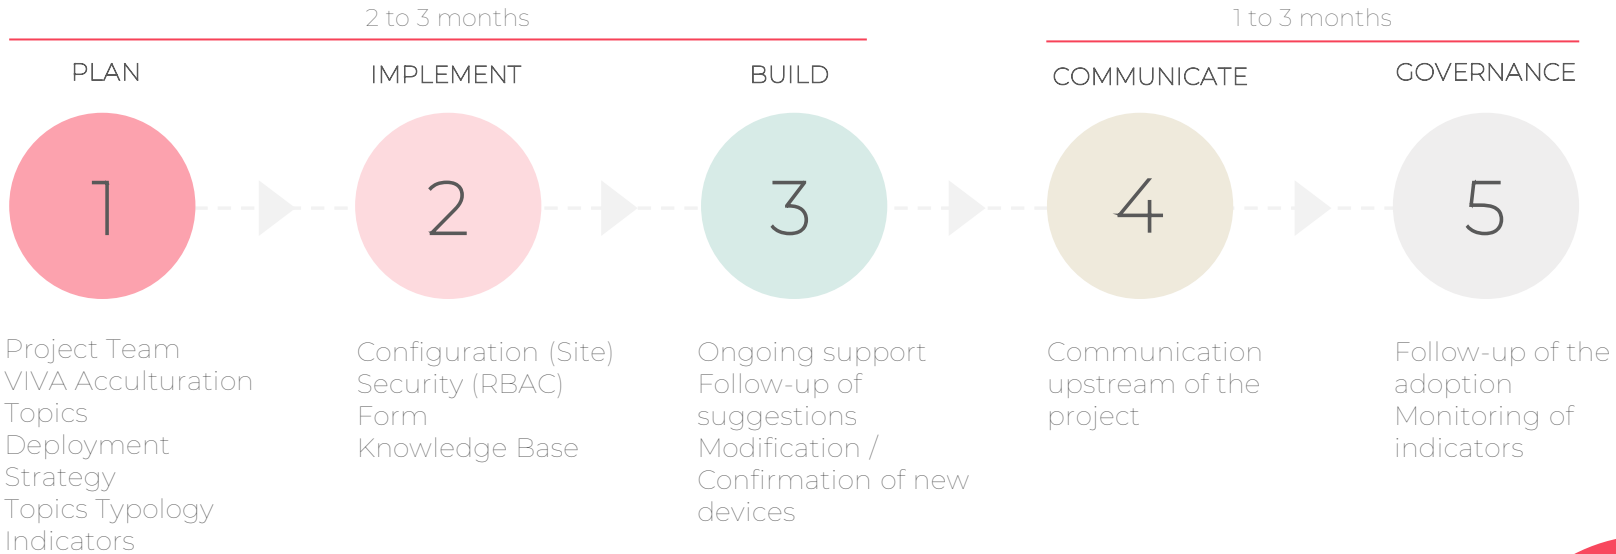

HOW TO RESPOND?

Deploy Viva Topics to identify, process and organize knowledge to make it more easily accessible and usable in the applications you use every day.

Our vision

"Getting the right knowledge to the right people at the right time by turning content into usable knowledge, organizing it into topic pages and making sure it's easy to access."

DISCOVERING KNOWLEDGE FROM RAW CONTENT.
Every organization generates a wealth of valuable information scattered in various data points and repositories. We support you in the process of identifying relevant topics and content expertise in your Office 365 environment.

CREATE BUSINESS-RELEVANT TOPICS.
Automatically or manually create topic pages and cards using relevant definitions, content, conversations and expertise. Categorize topics by cultivating expert knowledge and AI for relevance, refinement and curation of topic pages.

MAKE KNOWLEDGE EASILY ACCESSIBLE.
Discover the most important topics and view their records in any Microsoft 365 application, so knowledge is easily accessible.

Our commitment

A practical vision based on our expertise

TECHNICAL SOLUTION QUALITY
Devoteam assists the customer to accelerate the adoption and implementation of Microsoft Teams solutions.

PROJECT SUCCESS
An efficient delivery model that allows you to quickly define the best deployment scenarios and implement them quickly.

PROVEN METHODOLOGY
A proven methodology for large-scale projects guaranteeing a mastery of the issues, a high quality of delivery and the satisfaction of our customers.

EXPERTISE OF OUR CONSULTANTS
Teams of consultants specialized and certified in the implementation of Microsoft Teams solutions.

Thank you.
