PowerBI Robots

Your Power BI reports and dashboards delivered everywhere

Data Analysts often need to share Power BI reports and dashboards with users who don't use the platform, but still need access to data. PowerBI Robots gives them an automatic and efficient way to receive the key metrics they're looking for.

What is PowerBI Robots?

PowerBI Robots is a Robots Process Automation tool that captures screenshots of Power BI reports and dashboards and sends them to any number of recipients by email, to a SharePoint server, file system or the cloud, as either image or PDF files.

Why customers use PowerBI Robots

- Send Power BI reports and dashboards as PDFs by email
- Display Power BI data on a large screen
- Automate the generation of Power BI reports and dashboards

Problem: getting data from Power BI whenever, wherever

- Data sharing is restricted and not automated OOTB
- Takes a lot of time and optimization
- No workarounds to get Power BI to work on some platforms

Get your data anywhere

Solution: automate data dispatch from Power BI

- Automatically schedule and send data from Power BI
- Send reports and dashboards as images or PDFs
- Deliver data by email, to a SharePoint server, file system, or the cloud

Always get your data on time

And there's more:

- Send different data to different recipients from the same Power BI account
- Display your data on a smart TV
- Send your data to any device supporting a browser

Deliver your Power BI data anywhere
