LLMs Powering Our Solution

Feature Overview

Reviews

Adds precise redlines to contracts, right in Word, following your instructions

Drafting

Draft clauses that reference the style, substance, and terms of the document at hand

Assistant

Use plain language to query the document and receive instantaneous responses

Benchmark

Compare a document to a defined standard and ensure it meets your requirements

Reviews

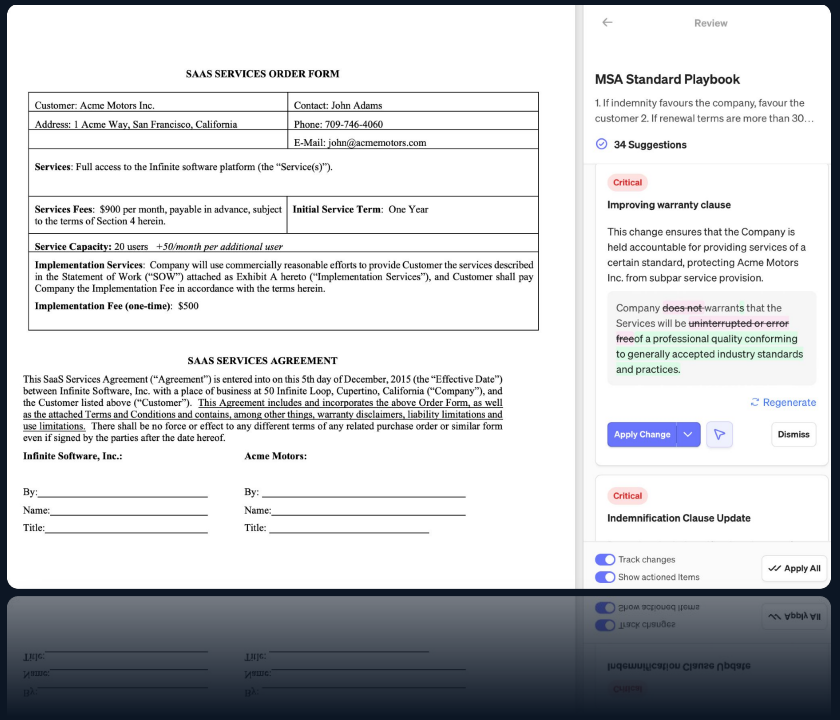
Redline contracts 10x faster with AI

Spellbook reviews your document, provides suggested edits and adds redlines right into your contract.

- ✔ User approves all edits
- ✔ Full document analysis in minutes
- ✔ Detect risks buried in your contracts
- ✔ Custom playbooks to adhere to your preferred terms

Three Review Types:

1. **General Scan:** Capture obvious risks and issues
2. **Negotiate:** Improve your represented party's position
3. **Custom:** Instruct Spellbook to abide by clear playbooks

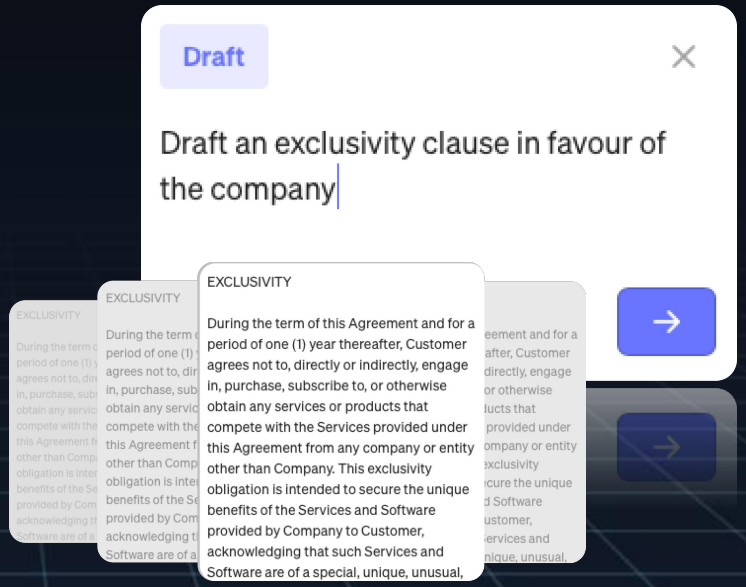


Drafting

Draft new language for any contract

Spellbook provides contextually relevant recommendations in seconds.

- ✔ Describe the language you're looking to create in
- ✔ Receive contextually accurate options – using your defined terms and more
- ✔ Add clause language right into the document



Quick Start Use Cases:

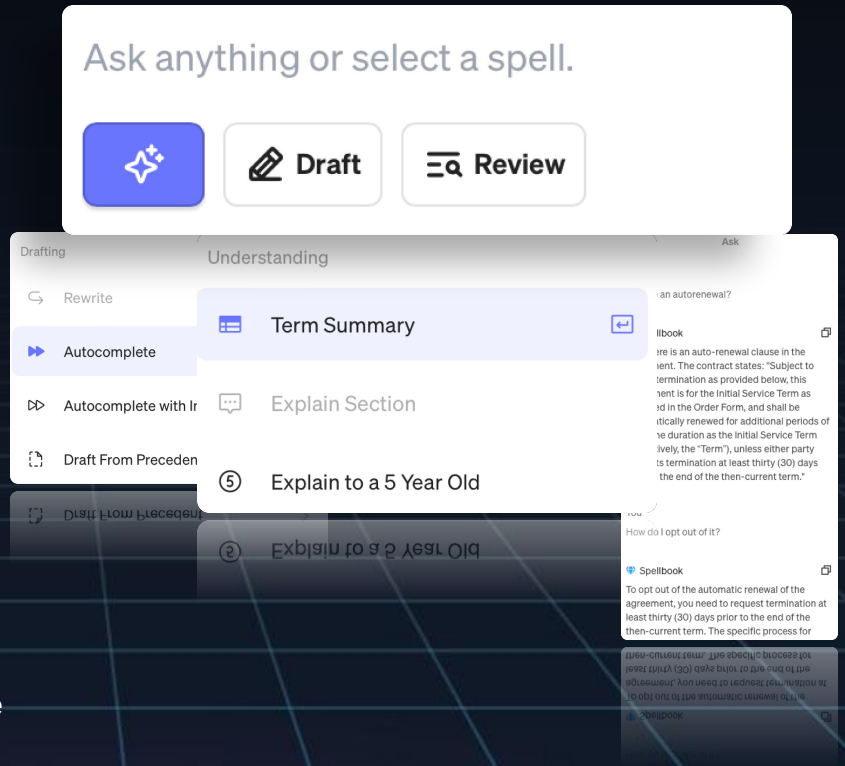
1. Draft a new clause from scratch
2. Draft a full document or new template
3. Draft new language using your Clause Library
4. Draft correspondence, pleadings, policies, and more

Assistant

Your trained AI legal advisor

Query, clarify risks and scenarios, summarize any legal document and streamline communications.

- ✔ Immediate content check and review
- ✔ Increase speed for discovery on documents
- ✔ Understand implications of global laws and statutes



Spells are pre-loaded into your account

Drafting	Understanding
Re-write	Term Summary
Autocomplete	Explain Section
Draft from precedent	Explain to a 5 year old

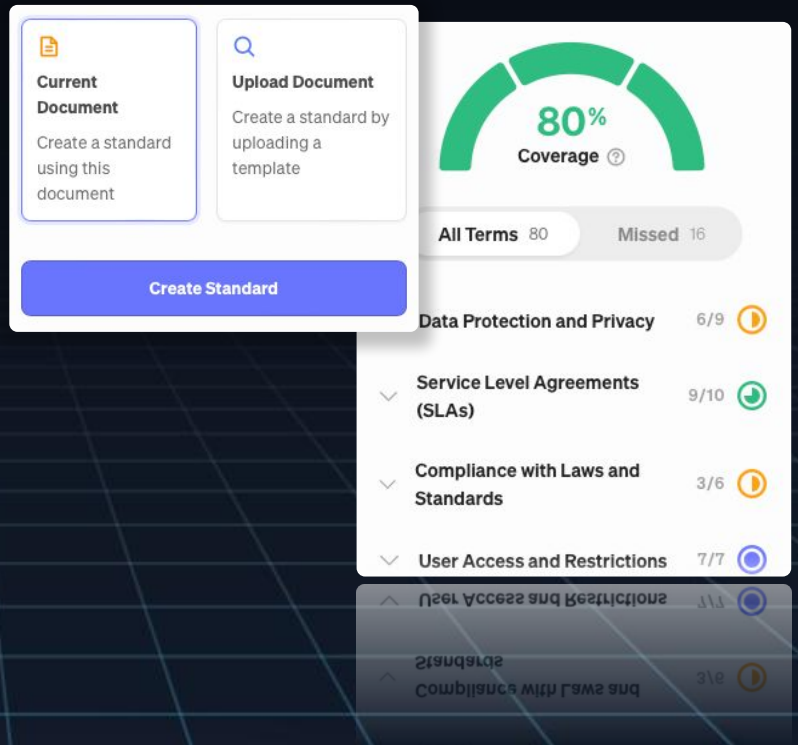
Plus, ask the Assistant any question and it will give you an answer with a reference in the document, where applicable

Benchmark

Ensure a contract is up to standard

Benchmarks compares a contract to your defined standard to make sure it has the required clauses to protect your party's interests.

- ✔ Immediately see a coverage score
- ✔ 2,300+ contract standards are provided out-of-the box
- ✔ Create your own standards from a precedent document or checklist
- ✔ Validate existing clauses
- ✔ Identify missing clauses
- ✔ Have Spellbook suggest fixes to get the contract to your required standard



Library

Your unique knowledge base

Library is setting the foundation for the next evolution of Spellbook.

Draft new language for your contracts using your preferred terms

- ✔ Upload precedent documents
- ✔ Mark folders as personal or share with your organization
- ✔ Search for a clause by name
- ✔ See how often you use that clause in Spellbook
- ✔ Tweak that clause as necessary for the contract at hand
