Communication with teachers, students and their families

Advantages for your school

For teachers

Additio App helps simplify class management, lesson planning and collaboration between colleagues during planning and assessing.

For administrators

Manage your school center in a centralized way. Specific functionalities for headmasters, tutors and head of of studies available, such as creation of customized reports or management of educational resources.

For students and their families

Give voice to your students and share unique moments with their parents. Get rid of unread messages in favor to private and real time communication. Get families involved into the learning process.

Powerful assessment tool with rubrics

Create, export and share rubrics. Enjoy a library with thousands of rubrics that can be used for peer and self-assessment.

☰ Additio App	Rubric		
	PROGRESS 4	ACCEPTABLE 3	SATISFACTORY 2
Content Is the content of the presentation adequate?	The topics have been covered deeply	All themes have been covered	Right but incomplete ideas
Structure Was the presentation structured?	The different sections have been planned to make a global presentation	Different explanations have been covered	Correct sequence but the sections appear isolated
Organization Has the team organized the work and the content well?	Proper voice tone and precise language. It has involved the public properly	Fluid. The public followed with high interest	Clear and easy to understand in general
Materials Did the materials used help?	Very interesting and attractive. They have been an excellent support	Appropriate, they have helped to understand concepts	Adequate, although they have not been able to use them

John Smith   Grade: 13/20

ALL DATA IS YOURS AND EXPORTABLE

We are compliant with FERPA and European GDPR regulations. More than 30 years in the education sector allow us to understand the importance of data protection.

WE HELP YOU WITH THE SET-UP AND PROVIDE SUPPORT AT ANY TIME

We work hard to make our products intuitive. But if you ever need training or support setting up, we are here to help. We also have +100 text and video tutorials available.

INTEGRATED WITH GOOGLE AND MICROSOFT

We have become a Google for Education's Global Technology Partner as best school management system. Import your groups, grades and tasks directly from Google Classroom and link your G Suite resources.

|	
+ de 800 million grades registered	**6 million** students and families
+ de 150 features	**+ 30 years** in the education sector

Trusted by education institutions worldwide

Public schools, private schools, language schools, high schools, universities…
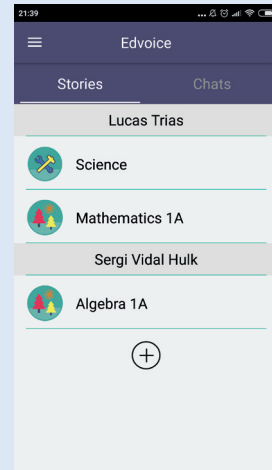

We simplify communication between school centers and families

- Communication monitored by the school and teachers
- Private and instant messaging
- Phone anonymity
- Send grades and attendance automatically
- Confirm attendance to events
- Send images, notices and files
- Unlimited messages with legal validity
- Super easy to use
- Automatic data import
- Families see the grades and skills' progress of their children

Students: The true protagonists!

I want to be the protagonist of my learning."

Families: The best allies!

"I'm more involved into my children's education."

Teachers: The engine of our tool!

"My academic management has vastly improved, it's surprising how easy teaching can be."
