DIFENDA

ACCELERATE YOUR JOURNEY

DIFENDA'S MICROSOFT SENTINEL PROFESSIONAL SECURITY SERVICES

THE JOURNEY STARTS HERE

Are you looking to gain greater visibility to generate deeper insights into your security environment with a cloud-first SIEM? With Difenda, Microsoft Sentinel design and implementation becomes an easy 5 step adventure!

Planning

As part of the pre-sales process, Difenda collaborates closely with you to understand both the technical and business requirements. By aligning these requirements, we clearly define the expected output for the engagement.

Customized Setup and Deployment

Difenda's experts will design, install, and configure Microsoft Sentinel based on the defined scope, ensuring you get the business outcomes you desire.

Quality Assurance and Performance Testing

After configuring the system, we take proactive measures to validate that all in-scope native log sources, associated analytic rules, and workbooks are functioning as designed.

Training And Knowledge Transfer

We provide collaborative virtual knowledge transfer and a technical overview workshop for your identified team members. Our aim is to ensure you have the necessary expertise to maximize the potential of Microsoft Sentinel.

Completed Sentinel Build Book

We will provide you with a comprehensive Build Book which will assist you in leveraging the newfound capabilities of your enhanced security solution.
