

# A search that brings it all together with AI & NLP-enhanced enterprise search engine where insights and opportunities are waiting to be discovered.

## Digital Dialogue's CUBIKA Search

We help enterprises in unlocking values from unstructured and structured data in enterprise with AI & NLP-enhanced enterprise search

*Modernize how enterprise works and accelerate insightful decision making with intelligent enterprise search engine.*

### WHAT WE OFFER

An intelligent enterprise search solution, enhanced by AI technologies such as Natural Language Processing (NLP), semantic understanding and machine learning to provide a cognitive search experience.

CUBIKA Search's holistic approach covers the entire data journey from capture, curate to consume, unifies all relevant parties from IT, data owner to business users in a platform which provides enterprise with:

1. Modernized big data platform for your enterprise
2. Holistic Intelligent data management tool
3. Tools for accelerated intelligent insights

CUBIKA Search integrates and indexes data and content across Microsoft products ecosystem seamlessly

The result is the modernized way you work by embracing data democratization within your enterprise and empowering employees in discovering data & insights they need with an intelligent and powerful search engine, an infinite possibilities at their fingertips.

**Digital Dialogue is Microsoft Thailand Partner of the Year for 3-consecutive year, including Solution Innovation Partner of the Year for data and AI.**

# Why Microsoft Azure?

## Be future-ready

Continuous innovation from Microsoft supports your development today, and your product visions for tomorrow. With 1,000+ new capabilities in the past year, you can build on the latest advancements in AI, blockchain, Kubernetes, containers, and databases to keep you ahead of the curve.

Our enterprise grade analytics solution outperforms the competition, costs less, and is fully compatible with your existing development, BI, and data-science tools.

## Operate hybrid seamlessly

On-premises, in the cloud, and at the edge—we'll meet you where you are. Integrate and manage your environments with tools and services designed for hybrid cloud.

Enhance security, simplify access, and set smart policies across your different environments with a single-identity platform trusted by 90% of enterprises globally.

## Build on your terms

You have choices. With a commitment to open source and support for all languages and frameworks, build and deploy how you want to. Take advantage of the full-featured, integrated development environments with built-in support Visual Studio and Visual Studio Code, the most popular IDEs trusted by 15M+ developers.

We embrace open source, drive innovation through collaboration, and contribute back to the community.

## Trust your cloud

Get security from the ground up, backed by a team of experts, and proactive compliance trusted by enterprises, governments, and startups.

With a \$1B+ investment in security R&D and 3,500 cybersecurity experts, security is foundational for Azure.

Microsoft Azure is an ever-expanding set of cloud computing services to help your organization meet its business challenges. With Azure, your business or organization has the freedom to build, manage, and deploy applications on a massive, global network using your preferred tools and frameworks.
