

Optimise Your Microsoft Security Spend with a Free Proof of Concept

Maximise Value. Reduce Costs. Strengthen Security.

Are you concerned about your Microsoft Security spend? Struggling to budget for a move to Microsoft's industry-leading Security Suite? You're not alone. Many IT and Security leaders find it difficult to accurately calculate the cost of security tools and data ingestion in Microsoft Sentinel..

At DigitalXRAID, we help businesses unlock the full potential of their Microsoft Security investment—without the unnecessary costs.

 Our expert engineering has saved customers thousands per month by optimising Microsoft Sentinel and Defender configurations. Now, we're offering a FREE Proof of Concept (PoC) worth £10,000 to help you do the same.

Real Results. Real Savings.

 One organisation cut their Microsoft Security spend by 96% after we optimised their Defender logs coming into Microsoft Sentinel.

 Another customer saw their monthly data ingestion drop from 7.5TB to 2.5TB—saving them £21,400 per month.

We can do the same for you!

DigitalXRAID is a Microsoft Security Solutions Partner with Threat Protection Specialization

We have achieved recognition as a Microsoft Security Solutions Partner with a specialisation in Threat Protection. This prestigious designation, awarded under the Microsoft AI Cloud Partner Program, highlights DigitalXRAID's expertise in delivering integrated Microsoft security solutions and its commitment to safeguarding organisations in an evolving threat landscape.

What's Included in the Free PoC?

✔ Microsoft Security Cost & Data Ingestion Assessment

- Gain a better understanding and full visibility of your Microsoft Security spend.
- Identify inefficiencies and hidden costs in your configuration.

✔ Defender & Sentinel Optimisation Review

- Ensure logs are feeding into Microsoft Sentinel correctly.
- Prevent unnecessary data duplication and excess ingestion costs.

✔ Customised Savings & Performance Report

- A tailored breakdown of where you can cut costs and optimise your setup.
- Clear, actionable recommendations to enhance security while reducing spend.

✔ Expert-Led Guidance from a Microsoft Security Solutions Partner

- Work with CREST & NCSC accredited cybersecurity experts.
- Receive strategic insights on how to maximise Microsoft's security tools.

Why DigitalXRAID?

◆ Microsoft Security Solutions Partner:

Recognised for expertise in managing and optimising Microsoft Security tools.
