# Dimdata Library Manager

For libraries and education

The cloud library system revitalizes learning centers and libraries with an all-in-one solution for managing physical books and e-books.

The screenshot displays the Dimdata Library Manager interface. On the left, a sidebar contains filters for Type (Library resources: 24,056; eBooks: 800; Websites: 206), Branch (Main Branch: 15,423; Chiang Mai campus: 8,021; Phuket campus: 612), Author, Subject, and Year. The main area shows a book record for "Active Learning in Higher Education : Student Engagement and Deeper Learning Outcomes" (2022, E 378.17 E059A). The record details include the Chiang Mai campus (On-shelf: 2) and the Main Branch (On-shelf: 2, Check-out: 1). A "View holdings" link is visible.

The bottom section shows a cataloging list with filters for Branch, Status, Category, Year, and Author. The list includes books such as "Google" (Virginia A. Scott, 2009), "Marvel: Avengers Campus..." (Fujikawa Jennifer, 2022), "Active Learning in Higher..." (Enomoto Kayoko, 2022), "The Politics and Policies of..." (Ann Rudinow Sætnan, 2019), "Fold-Out Solar System" (Smith Sam, 2018), "Marvel Black Panther..." (Narcisse Evan, 2022), "Ten Times Happier: How to..." (Owen O'Kane, 2020), and "Big Data: Principles and best..." (Nathan Marz, 2022).

On the right, a detailed record view for "Active Learning in Higher Education : Student Engagement and Deeper Learning Outcomes" is shown, including leader information and various call numbers.

# Dimdata Publisher

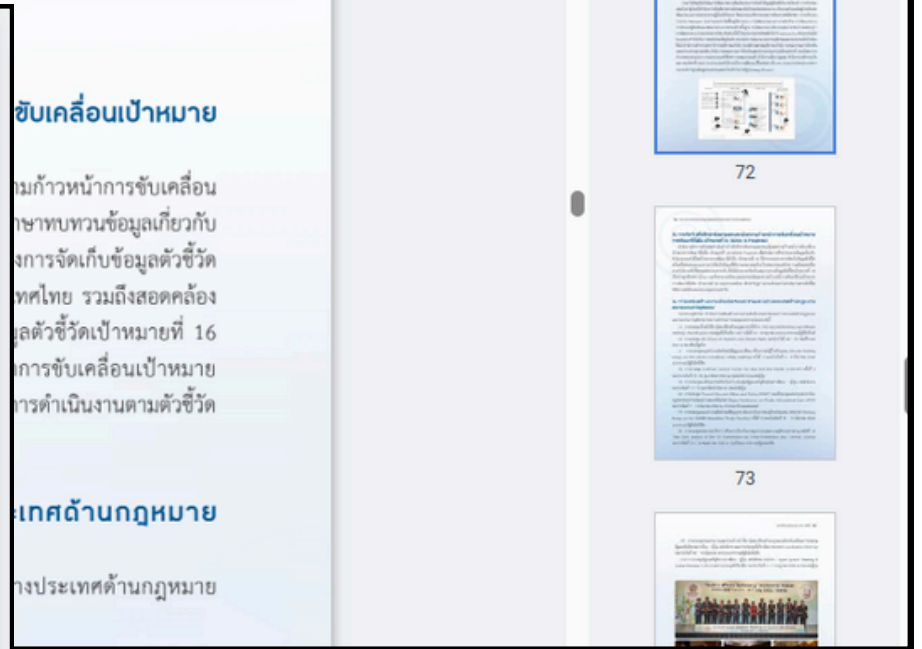

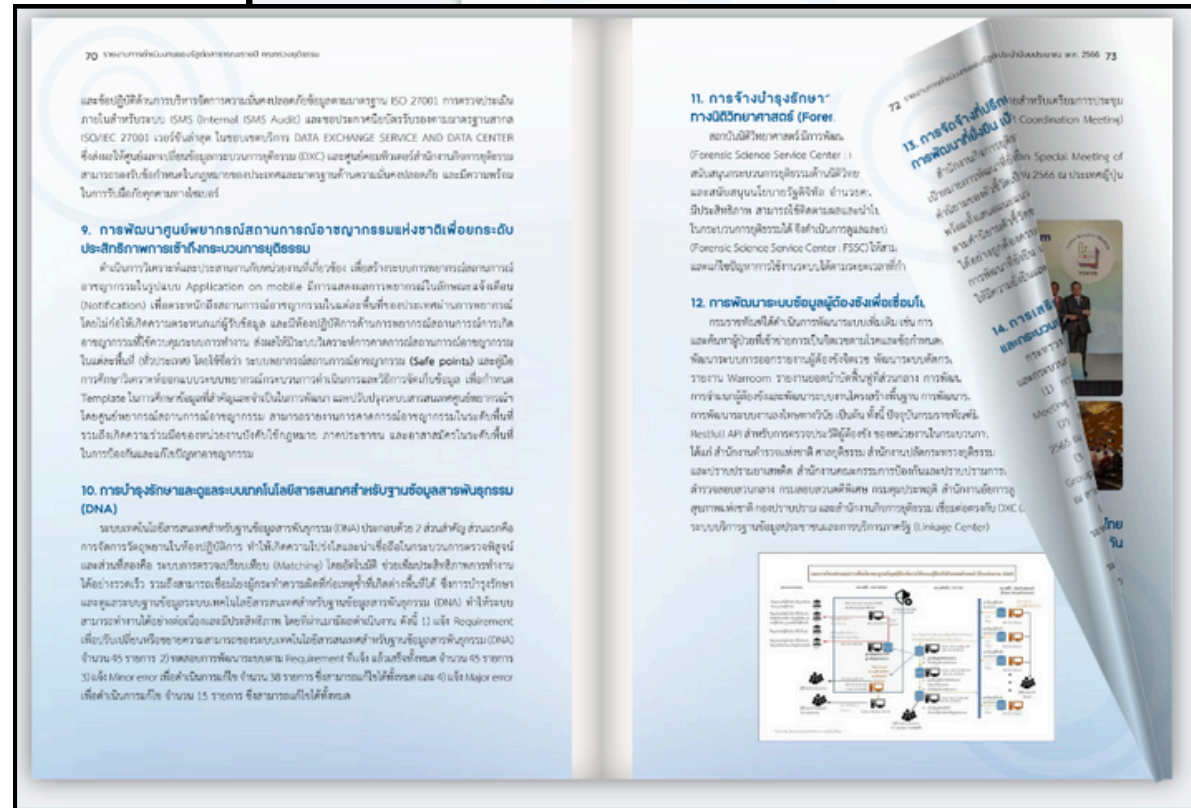

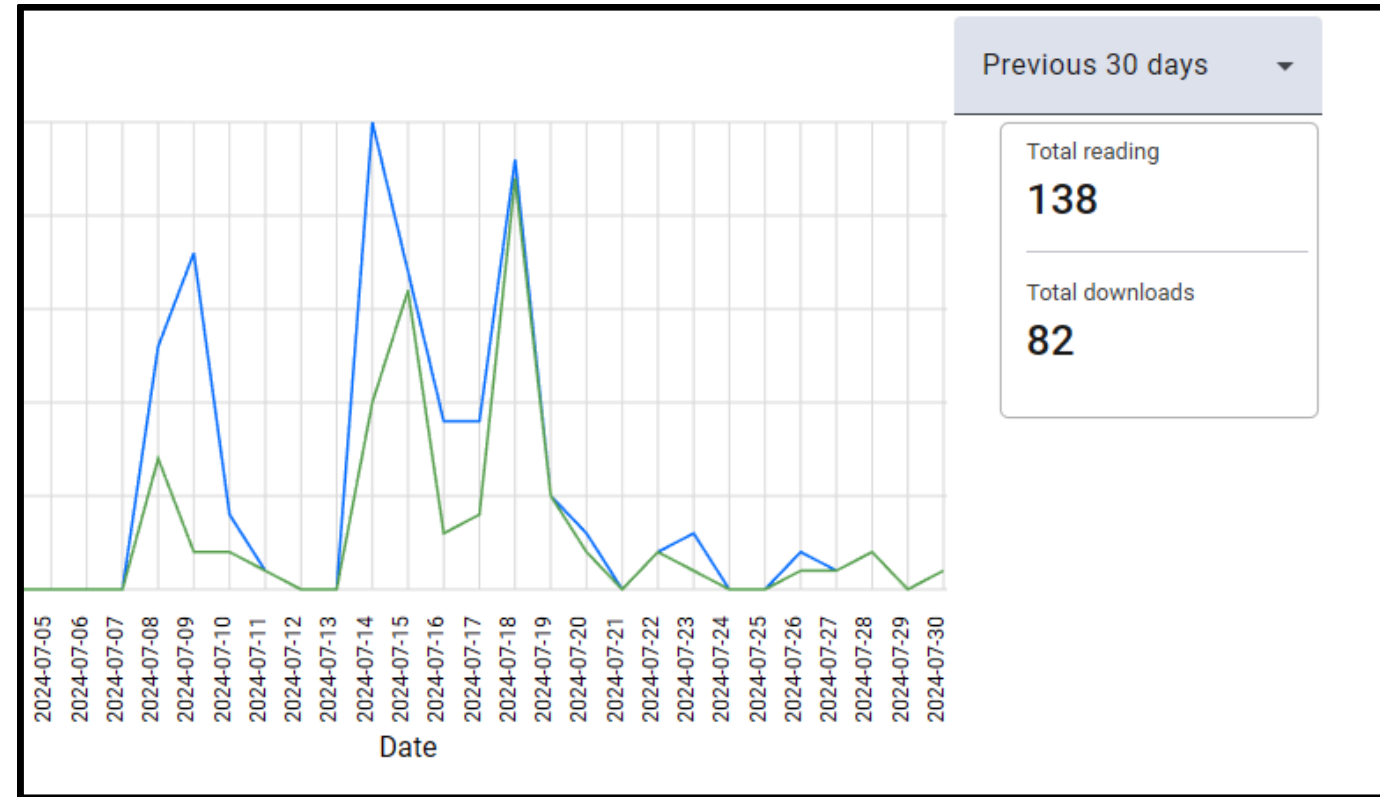

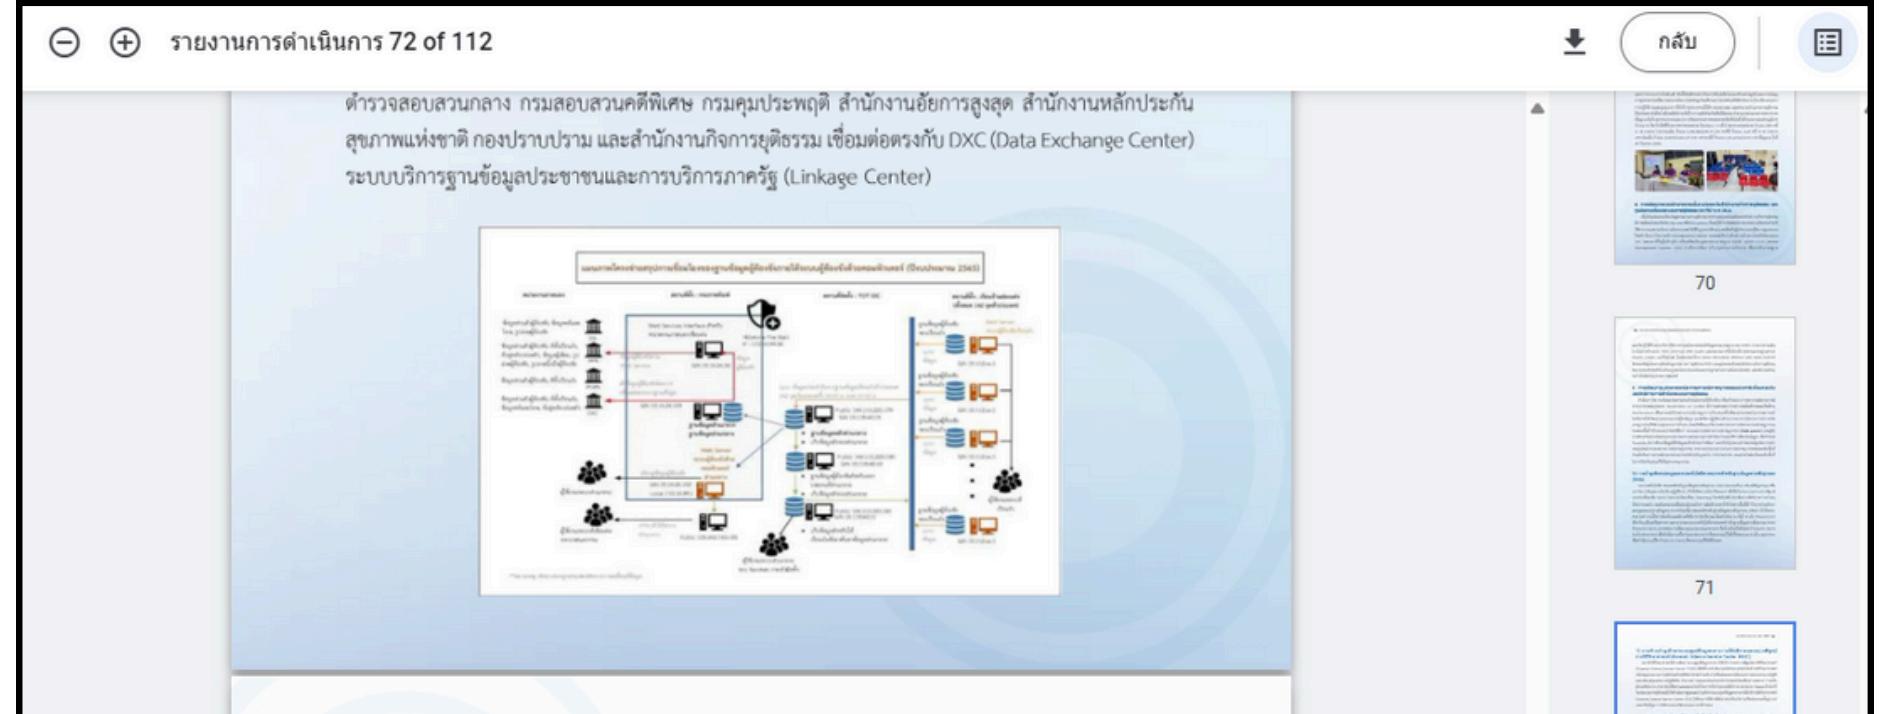

A digital content publishing system with efficient workflows for delivering diverse e-books, without worrying about bandwidth or performance.

Control reading permissions for members or the public.

Custom domain and white-label  
custom-domain.com/ebook2776

Transform regular PDFs into detailed insights on service usage and statistics.

Customize reading modes and save bookmarks to easily resume reading later.

# Dimdata CMS

A comprehensive website creation and management system with flexible tools for organizing, storing, searching, and publishing content. Enjoy customizable themes, use a custom domain, and benefit from built-in security, all without the need for self-hosting.

## FAST

Fast loading thanks to static site generation and CDN hosting.

## SECURE

Secure against attacks, with no need for regular security plugin updates.

## SEO

Improved SEO score, increased website traffic, and enhanced credibility.

**Content Creation:** Users can easily create and edit digital content through an intuitive interface. This content can include text, images, and other multimedia elements.

**Search System:** Integrated within the Dimdata Platform, this CMS features a built-in search engine for efficient retrieval of archived articles.

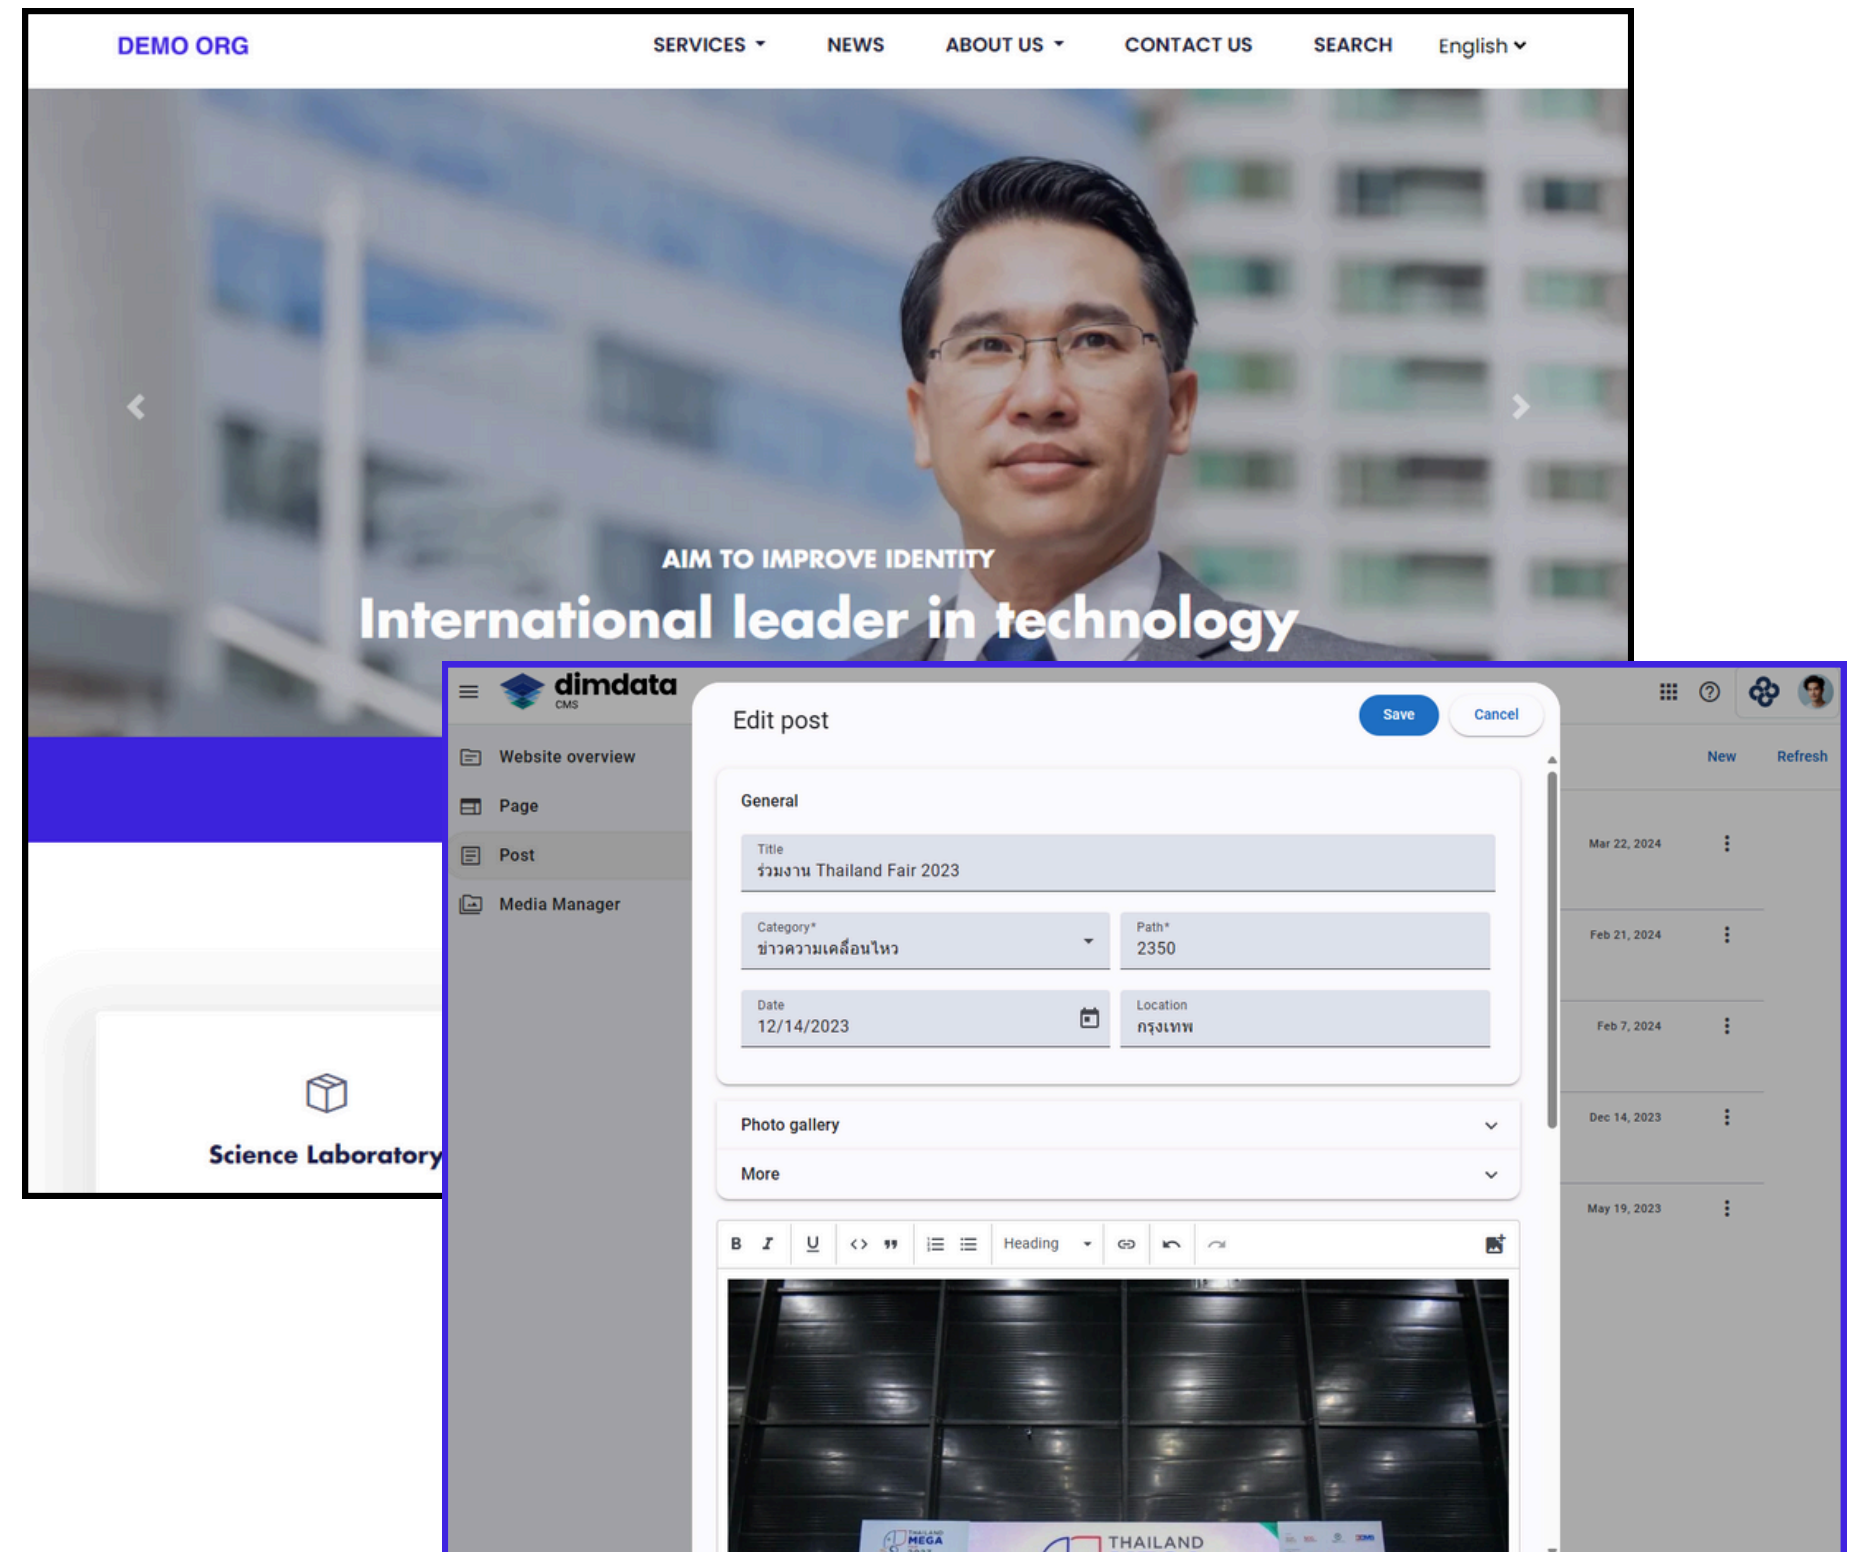

**User Permissions System:** Enables administrators to create and manage content with varying levels of access, promoting secure and efficient collaboration.

## Scalability and Performance:

Supports growing content and high traffic volumes without compromising performance.

## Cloud Storage:

Easily upload, share with team members, and integrate into your content.

# Averdoc

Document Trust platform for managing internal, external, and international documents.

## All-in-one system

Supports electronic signatures, document certification, e-Tax Invoices, e-Receipts, e-Transcripts, and more.

## Legally binding

Supports digital signatures using public key infrastructure (PKI), legally valid in almost every country.

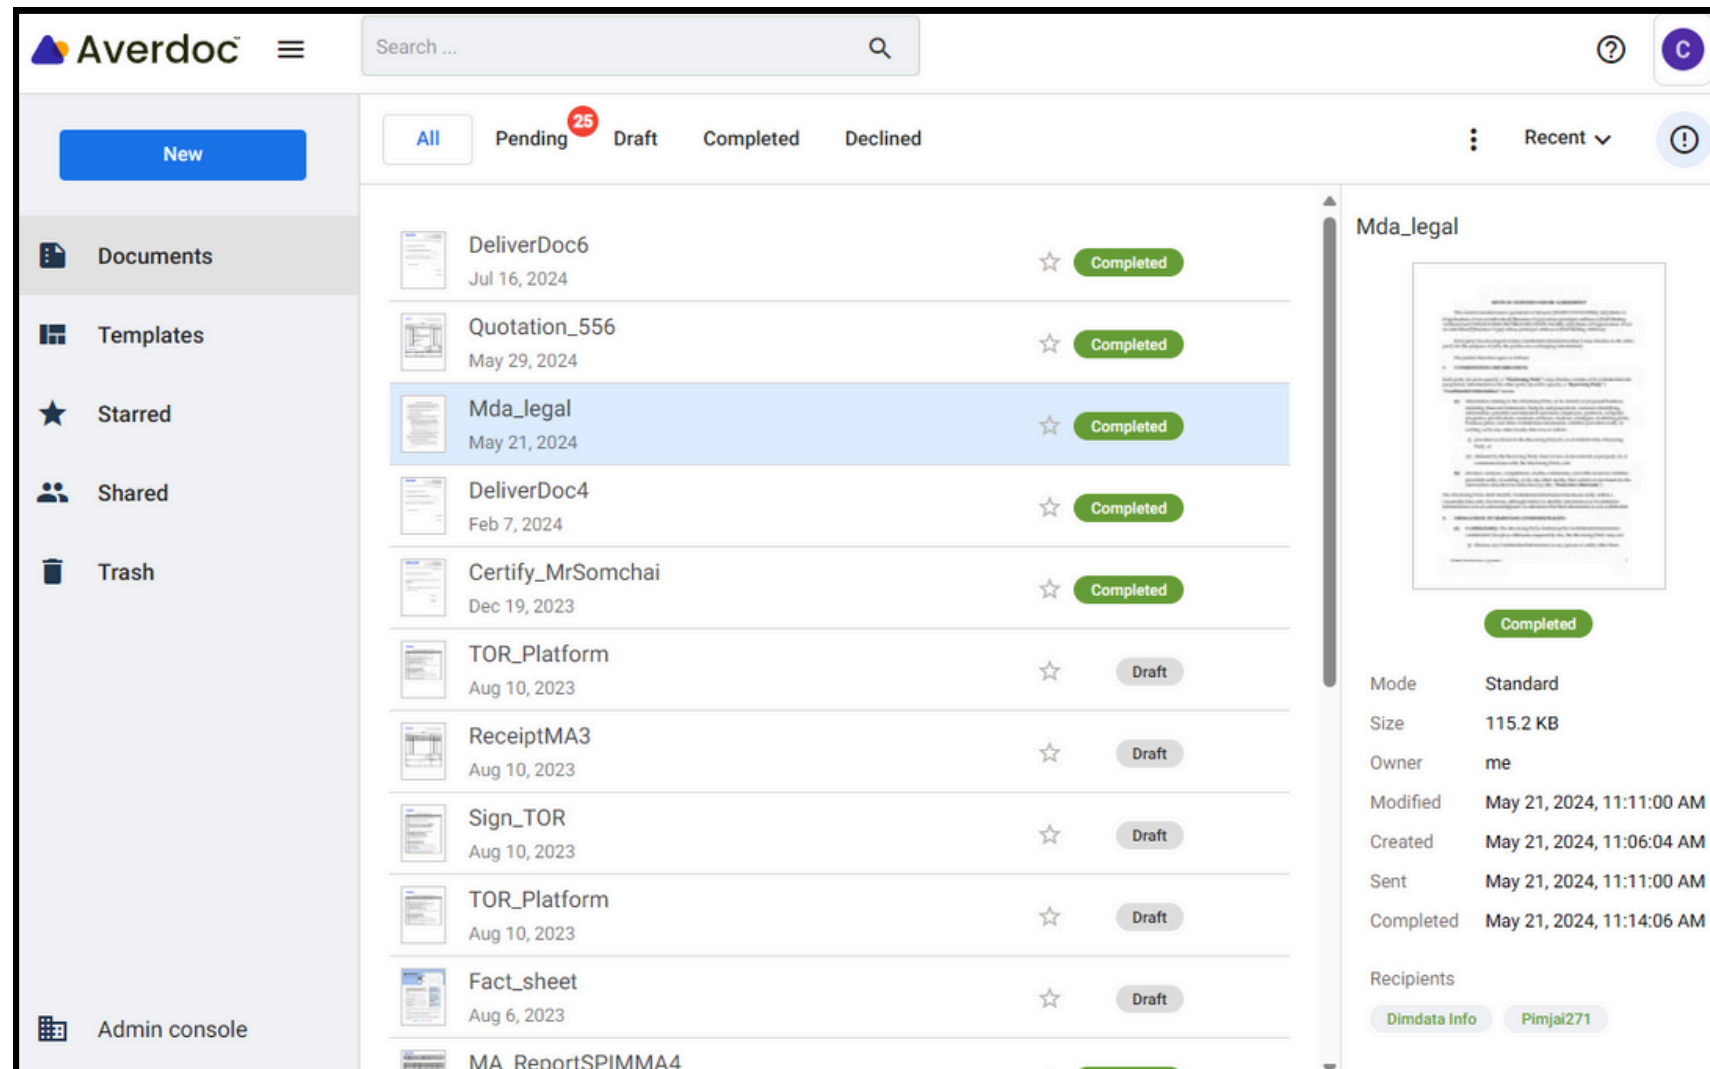

## New approach built on existing standards

Addresses all digital signature needs, including USB tokens, smart cards, and hybrid managed HSM or self-hosted solutions.

For all organizations

Accelerate your workflow with a paperless solution

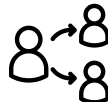

## Add trust to your documents—now simplified

Sign documents or approve with ease and security through any web browser, whether from your desk or mobile device, anytime, anywhere. Track every step with our comprehensive audit trail.

Easily define the signing order for sending documents to multiple recipients.

Share documents or templates with other teams and collaborate efficiently.

Send documents for signing to internal, external, and international parties all within a single system.

Automatic notifications for document status and reminders to signers.

Protects against document tampering and forgery.
