

Sales Offer: Upfront Investment Program for Power Platform Solutions

At Dimensional Strategies Inc. (DSI), we believe in building long-term, impactful partnerships with our clients. To demonstrate our commitment to your success, we offer an **Upfront Investment Program** where we invest in understanding your business, mapping your needs, and crafting a solution that delivers measurable ROI.

Program Overview

Phase 1: Business Process Mapping & Current State Assessment

We work closely with your stakeholders to map existing business processes, workflows, and challenges. This includes:

- **Discovery Workshops:** In-depth sessions to gain insights into your operations and pain points.
- **Business Process Mapping:** Documentation of existing workflows and their inefficiencies.
- **Process-Level Reporting Requirements:** Identification of key data and reporting needs.

Phase 2: Solution Feasibility & Roadmap Development

Using insights from the assessment, we build a **high-level solution plan** tailored to your needs:

- **Fit Analysis for Power Platform:** Exploring opportunities for process automation, and low-code solutions.
- **Gap Analysis:** What data and capabilities are missing to enable the desired outcomes?
- **Problem Definition:** Clearly identifying the problem(s) the solution aims to address.
- **ROI Estimation and Success Criteria:** Defining measurable goals to track the impact of the solution.

Phase 3: High-Level Pricing & Schedule

Based on the findings, we provide a transparent proposal that includes:

- **Solution Overview:** Detailed explanation of the proposed solution.
- **Implementation Plan:** High-level project schedule with key milestones.
- **Pricing Structure:** Clear and predictable pricing aligned to your business objectives.

Key Benefits

- **De-Risk Your Investment:** Our upfront investment ensures you gain a clear understanding of the potential value before committing.
- **Accelerated Decision-Making:** Gain a strategic roadmap that aligns with your business goals and timelines.

- **Tailored Insights:** Benefit from a solution designed specifically for your unique challenges and opportunities.
- **Expert Guidance:** Leverage our deep expertise in Microsoft Power Platform.

Eligibility

This program is available to organizations exploring modern application development and automation opportunities with DSI.

Deliverables

At the end of the study, you will receive:

1. A comprehensive report outlining your current state, challenges, and opportunities.
2. A tailored solution roadmap, including a high-level schedule and pricing.
3. Clear ROI projections and defined success criteria.

Next Steps

Take the first step toward transforming your business processes and applications. Contact us today to schedule your complimentary discovery session and explore how DSI can help you build future-ready solutions.
