

# Microsoft Dynamics 365 - Automated Regression Testing

Empowering Your Dynamics 365 Journey: From Vision to Lifelong Support with NTT DATA's Automated Regression Testing.

NTT DATA's Automated Regression Testing service helps organizations maintain the stability and reliability of their Dynamics 365 applications. This essential service ensures seamless operations and supports continuous improvement initiatives.

## Automated Regression Testing

Automated Testing acts as a continuous quality check, running pre-set test cases to ensure every feature works as intended, even as your software evolves. Our mission is to offer innovative solutions that allow you to focus on your core business while we handle the technical aspects of quality assurance.

With NTT DATA Inc's proven methodology and track record for Microsoft Dynamics 365 services, combined with Executive Automats' advanced automated test solution features, we help you speed up regression testing even in highly customized and integrated environments.

With Executive Automats for Dynamics 365, regression testing can be completed within a day or two, depending on the number of test cases. Once you've built your regression test suite, you can use it prior to any release to production to ensure the core solution remains unaffected by changes.

## NTT Data - Microsoft Joint Partnership

In 2020, Microsoft and NTT entered a groundbreaking Global Strategic Alliance Agreement set to span the next 7 years. This partnership places NTT Data at the forefront of access to cutting-edge Microsoft technologies, best practices, and significant investments into our resources and clients.

To further showcase the strength of this alliance, NTT has selected Microsoft Azure as its preferred public cloud platform. This choice is pivotal for modernizing client solutions in advanced analytics for cybersecurity threat intelligence and hybrid-IT management.

Moreover, Microsoft has recognized NTT Data as one of only eight "Networking for Azure Managed Services Providers" globally, underscoring our elite status and commitment to excellence.
