IT Security & Defense
**Support remote and
hybrid work**

**Prevent or reduce
the business impact of
a breach**

**Identify and protect
sensitive business data
and identities**

Stay ahead of
the cyber threat
wave with our
Zero Trust workshop

In today's ever-evolving digital landscape, protecting your business from cyberattacks is essential. A Zero Trust approach provides a desirable and necessary solution, but it must always be tailored to your organization's specific needs.

Your benefits:

Get an overview of your company's current IT architecture and determine your Zero Trust readiness

Get a compact overview of Microsoft's security solutions and a guide through the complex jungle of the IT security landscape

Receive decision templates to define the next steps for your organization and clarify which security components you need
