

PRATUS is a veteran-owned company dedicated to saving lives and protecting the environment through advanced decision-support technologies. Its namesake solution, PRATUS®, is a Software-as-a-Service platform and **Microsoft Premier Partner** that equips organizations with real-time insights and unified response capabilities.

PRATUS® FOR MODERNIZING READINESS EXERCISES

CURRENT STATE

Exercises rely on spreadsheets and whiteboards, with no real-time visibility to adapt to changing conditions. Manual, subjective after-action reports make readiness anecdotal instead of data-driven.

READINESS ACROSS DOMAINS

PRATUS unifies planning, execution, and analysis—replacing legacy tools with a modern platform for real-time visibility and data-driven readiness.

MILITARY & DEFENSE

Align METs, capture lessons, synchronize forces

OIL & GAS

Prepare for safety drills; analyze resilience trends

PUBLIC SAFETY

Coordinate multi-agency training; generate AARs

CRITICAL INDUSTRIES

Streamline continuity drills; track performance

BE READY FOR ANYTHING WITH PRATUS

From AI insights to Microsoft integration, PRATUS unites incident management into One Pane of Glass®.

Incident Management: Rapid incident activation for multi-agency coordination

Microsoft 365 Integration: Connect across organizations and securely share intelligence

PRATUS AI: Augment human judgement with real-time data and predictive analytics

SOLUTION

PRATUS centralizes planning, execution, and analysis. It delivers real-time visibility, automated reporting, and data-driven insights so leadership can confidently measure readiness and continually improve exercises.

PREPARE FOR TOMORROW, TODAY

DESIGN

Design Live, Virtual, and Constructive exercises that unite DoD, interagency, and partner participants.

- Build exercises with customizable templates
- Define objectives, participants, and injects
- Align Mission Essential Tasks with strategic priorities
- Accelerate planning with automated workflows

CONDUCT

Execute exercises with real-time visibility, enabling teams to adapt quickly and collaborate across locations.

- Collaborate across teams and partner organizations
- View and modify MSEL injects on the fly
- Track disruptions and update plans dynamically
- Share files securely via the Microsoft 365 integration

EVALUATE & ASSESS

Capture lessons learned and generate after-action reports, integrating with JLLIS for standardized insights.

- Capture lessons learned to improve readiness
- Measure performance metrics against objectives
- Generate after-action reports for leadership
- Standardize reporting to reduce delays and bias

ANALYZE

Turn exercise data into trends and recommendations to strengthen readiness and future planning.

- Identify trends and gaps from past exercises
- Deliver data-backed improvement insights
- Improve readiness through continuous feedback
- Gain actionable recommendations to boost readiness
