

PRATUS is a veteran-owned company dedicated to saving lives and protecting the environment through advanced decision-support technologies. Its namesake solution, PRATUS®, is a Software-as-a-Service platform and **Microsoft Premier Partner** that equips organizations with real-time insights and unified response capabilities.

PRATUS® TO UNIFY COORDINATION & RESPONSE

CURRENT STATE

Disaster response requires real-time situational awareness for effective coordination. Manual processes and mismatched software leave responders disconnected and challenged.

INCIDENT MANAGEMENT WORKSPACE

Situational Awareness

- Real-time situational awareness with AI insights
- Timely updates on weather, traffic, risks, and events
- Common Operating Picture for cross-sector alignment

Collaborative Incident Activation

- Rapid incident activation with secure collaboration
- Quick event queries via PRATUS Copilot Agent

Resource & Response Management

- Optimized resource allocation and tracking
- Customizable action plans and templates
- Lessons learned analysis for improved readiness

SOLUTION

PRATUS serves as a daily tool for monitoring and proactive planning. The platform quickly transforms into a unified crisis management solution, delivering real-time insights and cross-sector coordination.

PRATUS + MICROSOFT

- ✓ Connect organizations across .mil, .gov, and .com
- ✓ Share intelligence and insights securely in Teams
- ✓ Auto-sync rosters and invite external stakeholders
- ✓ Familiar interface for faster deployment and training

PRATUS AI

- ◆ Shrinks Incident Action Planning to 3 minutes
- ◆ Combines AI and data analytics for decision-making
- ◆ Synthesize data from 1,000+ authoritative sources
- ◆ Augment human judgement with AI insights

WHY PRATUS

- Closes disaster response gaps and empowers incident managers with real-time decision support
- Microsoft 365, Teams, and Copilot integration for secure, centralized collaboration
- Automated analysis, resource tracking, and reporting to reduce manual work and increase accuracy
- Designed for diverse response needs; scalable, secure, and compliant for multi-organization use
- Unified platform for cross-sector coordination, from daily readiness to crisis response
- Intuitive, easy-to-use interface with automated workflows, with no external consultants needed

TRAINING & EXERCISE WORKSPACE

- Plan exercises with templates & automation
- Act with live visibility & adjust as conditions change
- Capture lessons learned to improve response
- Deliver leadership-ready After-Action Reports

Cloud-Based: Hyper-scale cloud supports 100 to 100,000+ users

Interoperable: Ingests & operationalizes data from any source

Open Architecture: Retains data in formats such as JSON, GEOJSON, and CSV

Translation: PRATUS Copilot agent translates chats and reports into ~50 languages
