

CORPORATE PRESENTATION

Alex Bondarenko // Founder & Chairman // Discoperi Group

About Discoperi

Started in 2016 with an ambition to improve road safety

Built System Eye - a small plug-and-play device, which recognizes risky situation, alarms the driver and provides control over data monetization

Technologies may be used by various industries (ML/AI, data sharing, data validation, etc.)

Partners

Awards

System Eye is used for road objects recognition and drivers warnings

**Road management,
police, city safety
councilor,
emergency team -
everyone may
benefit from CITY
AI toolkit**

Video link: <https://www.youtube.com/watch?v=XsNTdNRAzT0>

**CITY AI may also
be applied for deep
database & open
sources
investigation - in
this case - for bike
demand prediction**
