Hybrid and Blended Learning Workshop

Come together for deeper learning

We're building learning experiences to help everyone thrive in this new world of hybrid and blended learning – accelerated by organizations' rapid move to the cloud. In the current environment, there is a greater need to deploy solutions and services that will bring students and faculty together in a virtual setting. Flexible and effective learning is here to stay: over **85% of faculty and educators believe that the pandemic accelerated the future of digital learning by a decade*,** and more than **70% are concerned about their ability to deliver engaging, high-value learning experiences. ***

With Microsoft Teams, you can provide a student-centered approach to hybrid and blended learning by combining in-person and digital learning that builds on successful practices from remote learning to create learner-centered, personalized, inclusive, accessible, and engaging experiences.

Hybrid Learning Workshop

The Diversified Hybrid and Blended Learning Workshop is a modular engagement to help define your teaching priorities and scenarios that drive hybrid learning. This workshop engagement is designed to showcase modern instruction through 'deep-dive planning' immersive experiences, use case design and deep dive planning resulting with actionable recommendations to deploy and adopt Microsoft Teams Hybrid Learning.

Assess
Gather information on current environment and teaching practices

Deep-Dive Planning
Showcase modern learning and classroom experiences

Build the plan
Build the strategy and roadmap for deployment and adoption

Workshop Deliverables:

- An evaluation of your current instruction methodologies and classrooms capabilities
- Deep Dive Immersion experience to showcase Microsoft Teams as your technology instruction enabling solution
- Direction on how to transform to modern classrooms across your entire institution
- Customized report with actionable recommendations to ensure your organization can meet seamlessly and share information securely in a modern collaboration and classroom environment

Select the modules discussed during the workshop:

Assess
- Pre-Engagement Kick-Off
- Instruction Methodologies and Classrooms Overview

Deep-Dive Planning
- Deep Dive Planning Kick-Off
- What's new in Teams Hybrid Learning and Classrooms
- Better Instruction with Teams
- Hosting Virtual Events with Teams
- Audio Conferencing with Teams
- Hybrid and Blended Learning

Build the Plan
- Build the Plan Kick-Off
- Classrooms and Device Strategy
- Network Readiness
- Adoption and Change Management
- Environment and Site Analysis
- Use Case and Scenario Discovery
- Reports and Recommendations

Optional modules include

Collaboration
- Learning Apps
- Audio Conferencing with Teams
- LMS Integration – Learning Management System

Virtual Events
- Live Events and Advanced Production
- Webinars
- Virtual Labs
- Break Out Rooms

Devices
- Microsoft Teams Classrooms
- Surface Hub
- Cloud Video Interop
- Personal Devices
- Teams Panels

Foundations
- What is Microsoft Teams
- Security and Compliance
- Governance and Lifecycle
- Upgrade to Microsoft Teams from Skype for Business
