

AI LOCATOR

Discover AI Readiness with Confidence

YOUR CLIENTS ARE ASKING FOR AI—ARE THEY READY TO ADOPT IT?

AI Locator evaluates your clients' AI readiness based on critical factors like business strategy, data architecture, and organizational alignment. As an MSP, partnering with Diversified Robotic enables you to provide actionable insights and guide your clients seamlessly from assessment to readiness.

WHY MSPS CHOOSE AI LOCATOR

Precision

Identify AI readiness gaps with data-driven evaluations.

Positioning

Establish yourself as a trusted AI advisor by simplifying the complexity of AI adoption for clients.

Profitability

Lay the groundwork for additional services such as workshops and readiness planning.

HOW IT WORKS

AI Locator delivers clear results based on leading indicators of AI readiness. You'll have the tools to:

- Explain the client's current state in terms of AI readiness.
- Present a roadmap to get them to a state of AI readiness.
- Open doors to meaningful conversations about their business objectives and AI potential.

“With our platform, you can confidently offer AI services to your clients without building your own expertise from scratch.”

Equip your clients with a clear, actionable path to AI adoption while strengthening your role as a forward-thinking, innovative MSP.
