

DO-Q-MENT: DOQdrive

DOQdrive
Digital Original Quality

DOQdrive paper less office solutions can help every company to transform its operations to the digital era with full compliance with legislations related to the handling of Original Documents

Challenges

Organizations and individuals obliged to retain paper based originals.
Inefficient paper based processes are in place.
Huge cost of archive handling and storage.
GDPR compliant data handling is a must.

Simplify and Digitalize paper based processes
Significant savings on document Archival and Storage

Ideal Solution

Hassle free mutual digital signature and Identification of Individuals in Digital Space.
Secure Cloud Archive of Digital Originals
Closed End to End processes support GDPR

No more paper based process and storage to keep legally original documents
Save cost on processes
Speed up and increase efficiency of processes

Desired Outcomes

Paper consumption and post related costs decreased dramatically.
No more "lost document".
Cost savings while operational efficiency increases.

Focus on value added processes instead of administration.
Real time data flow and automatic archiving of documents in digital original quality.
