Empower Processes and People with Power Automate

02 HOURS

Who Should Attend

Any **App User** in your organization

All Industries

01 Power Automate will perform certain actions, such as onboarding a new employee or creating tasks for a user to action.

02 Drop a pdf document in a SharePoint folder, Power Automate will then distribute this document to external parties and archive it.

03 Power Automate flow that runs every morning, extracts data from the above master spreadsheet and sends it to managers.

04 Power Automate flow can call an external API to retrieve information about the record and update the record with the relevant information.
