

# Empower Your Workforce to Automate Repetitive Tasks with the Latest Cloud and Desktop Flows Tools

01  
DAY

## Who Should Attend

Any **App User**  
in your organization

All  
Industries

- 01 **Introduction and demonstration** - Power Automate Cloud flows
- 02 **Lab** - Build a Power Automate Instant Cloud flow that will send an email to a manager once a file has been dropped in a SharePoint location
- 03 **Introduction and demonstration** - Power Automate Desktop flows (RPA)
- 04 **Lab** - Build a Power Automate Desktop Flow that will be executed by the initiating user, the RPA flow will then open a legacy app, run and save a report and email the info to a specific person.
- 05 **Identify and discuss** - Real world applications within the attendee's organisation and how to approach those developments.
