**Intervy**

# Intervy Enterprise: Chat with Your Documents

Intervy Enterprise reshapes the way your employees access and use the vast wealth of knowledge within your organization. Deployed securely under your control, as an AI-based data concierge, Intervy Enterprise allows your team to discover relevant information using natural language, irrespective of the specific location, or document where the information is stored. Say goodbye to information overload and inefficiency and welcome a new era of simplicity and productivity with Intervy Enterprise.

## 1. Instant, Intelligent Access to Organizational Knowledge

Say goodbye to laborious, time-consuming data searches. Intervy Enterprise equips your employees with an AI-powered virtual assistant that dives deep into your company's knowledge base, instantly fetching vital information on demand, exactly when it's needed.

## 2. Data, Privacy, and Security

Data privacy and security is an uncompromising aspect of Intervy Enterprise. Our solution adheres to Microsoft Azure's stringent data privacy standards and regulations, deploying directly onto your own infrastructure to ensure complete control and security. Key features include:

**Your Data Stays Within Your Environment:** By deploying on your infrastructure, your data never leaves your perimeter, providing you with peace of mind regarding data control.

**No Data Retention:** Intervy Enterprise does not store your company's queries or retrieve any personal data from the text you provide, ensuring there is no unnecessary data retention. Rest easy knowing your data is in secure hands with Intervy Enterprise. We're not just about efficient knowledge retrieval; we're about doing it the secure way.

## 3. A Bespoke Solution, Tailored for Your Business

We understand that every organization has its unique challenges and demands. That's why Intervy Enterprise offers you the flexibility to shape the platform to your precise needs and workflows. From integrating seamlessly with your existing systems to customizing the user interface and experience, Intervy Enterprise smoothly adapts to your business environment.

## Simplified Implementation, Profound Results

Intervy is revolutionizing the knowledge retrieval journey in organizations worldwide. With Intervy Enterprise, we're raising the bar, offering a data concierge service tailored to your organization's unique needs. Stepping into the Intervy world is a breeze. The journey could be as swift as a few hours to set up a new environment. However, we recommend starting with a Proof of Concept (POC) to get a hands-on experience with your documents in your environment. This POC paves the way for a custom production launch and support roadmap. You can choose to manage Intervy Enterprise entirely in-house or securely outsource it to us while it resides within your Azure tenant. Are you ready to redefine your data accessibility and empower your workforce? Get in touch today to explore how Intervy Enterprise can supercharge your business.
