

DriveLock Academy

Central training platform

OVERVIEW

Cloud-based training

To make it as easy as possible for you to get started, you will have access to a training environment hosted by us.

Use cases

Extensively described use cases for efficient use of the DriveLock Zero Trust Platform.

All training on-demand

Access to all online training, virtual labs and certifications, including "What's new" training for all new DriveLock releases.

e-Learning in HD-quality.

The same practical exercises as in our classroom training. Presented by our experienced trainers and recorded in HD-quality.

Handouts

All training documents in PDF format.

Over 40 hours of content

Currently, more than 40 hours of videos are available for individual training. In addition to this, the offer is also constantly being extended.

Target group

Technical contacts
Administrators
Consultants

Access

Available online 24x7
Web-based

SUMMARY

You have the opportunity to access our online training remotely, at any time and from anywhere, to deepen your DriveLock knowledge.

In SPVC (Self Paced Virtual Classroom) you have full access to course materials, multi-media modules with product demonstrations, hands-on activities, tests and a remote lab.
