

# Druva for Enterprise Workloads

Unified Protection for Data Center and Cloud-Native Environments

## Overview

Druva for Enterprise Workloads is a unified, SaaS-based data protection platform built to simplify and secure the management of enterprise workloads—whether on-premises, in the cloud, or across hybrid environments. By combining cloud-native scalability with data center-grade resilience, Druva delivers unmatched agility, security, and efficiency.

## Key Benefits

- **Single Platform for All Workloads** - Protect virtual machines, databases, file servers, and cloud-native workloads (Azure, AWS) with one unified solution.
- **Hybrid and Multi-Cloud Support** - Seamlessly manage and protect resources deployed in data centers, public cloud, or hybrid environments.
- **SaaS Simplicity and Scale** - Eliminate infrastructure overhead with a 100% SaaS model—no hardware, no software, no complexity.
- **Global Resilience and Compliance** - Meet regulatory requirements with built-in data immutability, access controls, and global data residency options.
- **Security Posture and Observability** - Gain actionable insights into configuration risks, policy compliance, and anomalies to harden your environment proactively.
- **Advanced Ransomware Recovery** - Rapidly detect, contain, and recover from ransomware attacks with automation, forensics, and curated restore points.

## Get Started Today

Explore how Druva for Enterprise Workloads can transform your data protection strategy.

## Supported Environments

- **Data Center:** VMware, Hyper-V, NAS, Microsoft SQL, Oracle, Windows/Linux
- **Cloud-Native:** AWS EC2, RDS, DynamoDB, EBS, Azure VMs, Azure SQL
- **Hybrid Deployments:** Seamless integration and visibility across on-prem and cloud

## Why Druva?

- 100% SaaS, no infrastructure to manage
- Built-in security, immutability, and compliance
- Lower TCO with consumption-based pricing
- Trusted by thousands of enterprise organizations
- Azure Marketplace licensing contribute towards your Microsoft Azure Consumption Commitment (MACC)
