

# Azure Assessment Services LaunchPad®

## Microsoft Azure

Microsoft Azure is a cloud computing service created for building, testing, deploying, and managing applications and services through Microsoft-managed data centers. It provides software as a service (SaaS), platform as a service (PaaS) and infrastructure as a service (IaaS) and supports many different programming languages, tools and frameworks, including both Microsoft-specific and third-party software and systems.

## Typical Scenarios

Typical organisational adoption scenarios:

**1.**

**New to the Cloud**

Should it be migrated and why?

**2.**

**In the Cloud**

You need help maintaining and supporting your cloud infrastructure.

**3.**

**Cloud Optimisation**

You have already moved to the cloud but want help to ensure you are getting the most out of your solution.

# Codec LaunchPad For Microsoft Azure

Codec LaunchPad for Azure will provide you with a blueprint for a comprehensive implementation and adoption strategy for Microsoft Azure that meets the needs of your business.

For each LaunchPad customer engagement, Codec provide a team which includes a dedicated senior Microsoft adoption technical specialist as well as a senior Business Analyst. Through a detailed planning session delivered through workshops, Codec will deliver the customer with a customised plan, unique to their own environment.

## What's covered in the Codec Azure Migration LaunchPad?

- 1. Assess:** what Platforms, Systems and Content you are currently using
- 2. Identify:** where your current issues and pain points are
- 3. Understand:** how your information currently flows, and how systems connect within your organisation
- 4. Users:** determine who uses the various platforms and systems and how we can make these platforms more agile and intuitive to drive efficiency across your business
- 5. Guidance:** expert guidance on how to manage Azure growth and governance for the future

## Our Approach

### Planning Workshop

Several workshops with our Cloud Architect and Software Architect. This will involve your key technology owners who will discuss the existing technology and understand current issues and pain points. This will be followed by a number of days to document the technical plan strategy. Ideally an initial workload would be defined as part of this to drive the design.

*Pricing: starts at €10,000 per engagement*

### Stakeholder Workshop

A one day workshop with our lead Business Analyst, Cloud Architect and Software Architect. This will involve your key business decision makers and will be followed by a number of days to document the business strategy guideline, costs for the services range between €2,500 and €5,000.

### Optional - Knowledge Transfer Workshops

One day workshops for the Cloud Platform and Software architecture topics. The quantity and length of these workshops can vary depending on the internal skillsets of the client delivery team.

## Why Codec?

Codec is a Full-Stack multi award-winning IT solutions consultancy founded in 1985 and headquartered in Dublin with offices in Cork, Galway, Belfast, London, Cologne and Warsaw. Employing 240+ staff, Codec is growing rapidly, expanding our team of industry-leading experts, while continuing to deliver on the promise of empowering businesses in the public and private sectors.
