Our Approach > Empowering your people to deliver value in Power BI

Learn

Power BI excellence covered in our core training modules

Our suite of training sessions are designed to enable anyone to succeed in Power BI. Our bespoke material and interactive demos are tailored for report consumers, self-serve analysts looking to explore, advanced developers looking to upskill their modelling and performance optimisation and governance capability.

Embed

Follow-up coaching to support development beyond the classroom

Learning in the classroom is great for covering concepts and functionality. The embedding phase enables people to apply learning within the context of their role – this is where things really begin to click. Our aftercare coaching sessions are designed to support your users beyond the initial modules and work through real-life examples to start driving business value.

Deliverables

- > Delivery of **5 training sessions** from our key training modules:
 - Power BI Consumer
 - Power BI Explorer
 - Advanced Modelling
 - Optimised Design
 - Power BI Governance
- > **5 post-training coaching sessions** aimed at helping your teams embed their learning on real-world data.

Our Experience

Organisations partnering with Dufrain have been able to accelerate the learning process for new teams and amplify the capabilities of existing teams.

Become More Data-Driven

Power BI training equips your teams with a greater ability to transform data into meaningful insights, allowing them to make more informed, data-driven decisions that drive business performance and deliver greater value to your organisation.

Real world experience from our Experts

Dufrain's expert trainers will bring concept to life for your organisation in a way traditional online modules can't. We augment core principles with first-hand experience from some of the UK's largest brands, empowering your people with industry experience they won't find online.

Accelerate your Power BI Maturity

As your teams learn the concepts of Governance and Optimisation, they will also gain a better understanding of why it is important to create and design content in accordance with best practices while keeping costs low and avoiding platform restructures in the future.

Next steps... Your journey starts here
