Employee Experience for Microsoft Viva Workshops

In today's world, employees want more flexible remote work options and meaningful in-person collaboration. Empowering people to thrive in a more flexible work world requires rethinking everything, from how you empower managers, to how you create culture, to how you reimagine the employee experience.

Key workshop deliverables

- **A prioritized list of business scenarios** that can be addressed by deploying Microsoft Viva

- **Recommended preparation in terms of skills and best practices**

- **A roadmap** outlining potential workstreams and dependencies with clear next steps

- **An adoption framework**

Two workshops to cover your unique needs

DXC Technology can help you discover how Microsoft Viva, an integrated platform built on top of Microsoft Teams, will help your people to be their best so they can thrive in the new reality.

Your employees are challenged with a growing imbalance between work and life, increased burnout, and decreased well-being, and your teams and organization face diminishing social capital. There is an urgent need to digitally reimagine the employee experience.

These workshops consist of a three-phase engagement that provides an overview of the **Art of the Possible**, complemented by deeper dives into the specific Viva modules.

Microsoft Viva Topics, Connections or Learning

Discover Microsoft Viva Topics, Connections or Learning via a deep dive into two of these three applications designed to improve the employee experience. Viva Topics automatically organizes content and expertise across your organization, making it easy for people to find information and put knowledge to work. Viva Connections provides a personalized destination to discover relevant news, conversations and the tools needed to succeed. Viva Learning is a hub within Microsoft Teams that aggregates learning in one place and provides AI-powered recommendations that make learning a natural part of the workday.

Microsoft Viva Insights

Discover Microsoft Viva Insights and how it helps individuals, managers and leaders gain personalized insights and actionable recommendations that help everyone in the organization thrive.

The workshop provides an in-depth exploration of personal, manager and leader insights with privacy controls and data analysis capabilities to:

- Understand the impact of work patterns on productivity and well-being

- Provide privacy-protected insights and actionable recommendations

- Address complex challenges with advanced tools and capabilities

Employee Experience for Microsoft Viva Workshop employee support tools

An employee experience platform is a digital platform that helps organizations create a thriving culture with engaged employees and inspiring leaders.

- **Well-being and engagement.** Physical, mental, financial nudges, feedback and sentiment

- **Growth and development.** Learning and coaching, onboarding, life-cycle moments, and talent mobility

- **Purpose and alignment.** Mission, goals and outcomes, achievements and recognition

- **Culture and communications.** News, events, company resources, communities

- **Knowledge and expertise.** People and experts, documents and content
