Redefining where and how people work

As enterprises rapidly adapt to new business needs, DXC Modern Workplace helps them evolve, with speed and agility. A modern workplace drives a next-level employee experience across all workplace services including devices, collaboration platforms, support services and workplace asset management platforms.

DXC's single point of entry to all workplace services helps employees easily find, understand and engage with IT from anywhere. This empowers employees to work efficiently and collaborate effectively. In addition, leveraging millions of data insights, we deliver a personalized experience that drives engagement, productivity and ultimately, business performance.

30–35%
lower workplace operating cost

90%
reduction in service request fulfillment time

Success stories

- Implemented a **remote-capable environment** for **DreamWorks Animation** to improve business continuity and support a collaborative workplace.

- Anticipating a surge in service desk calls from employees now working from home, DXC delivered **a chatbot in 30 hours, reducing call volume by 12% on Day 1** for a leading health technology company.

- Digitally transformed and integrated one of the world's largest brewing companies without disrupting day-to-day operations. **Molson Coors** succeeded, and **expects to save $35 million in 3 years**.

- A **global pharmaceutical company** discovered that its service desk provider was unable to support employees after a work-from-home order was issued. DXC stood up a new, fully functional, cloud-based contact center in **just 48 hours**.
