DXC Managed Endpoint Thread Detection and Response

Enhancing the Endpoint protection of Windows 10 with Windows Defender For Endpoint from Microsoft

DXC Managed Endpoint Threat Detection and Response (METDR) gives your organization everything it needs to successfully battle today's invaders. Fuelled by best-in-class technology and trusted DXC Technology security experts with unparalleled knowledge of global threats, you gain a powerful threat detection and response solution — with options for every need.

We help solve your complex security challenges

- Guard against emerging threats with fast, flexible, fully managed solutions
- Improve incident response and hunting efficiency by 40%
- Detect advanced threats that evade traditional security defenses
- Augment human threat analysis in real time
- Remotely detect, contain and control compromised endpoints in hours — not days — without business interruptions

What we offer

Rapid threat detection
DXC delivers actionable intelligence that provides organizations with quick visibility to internal and external threats, which minimizes time from detection to resolution.

Global visibility
With 24/7 monitoring from 10 SOCs across the globe, DXC has worldwide exposure to the evolving threat landscape for rapid identification of threats.

Market-recognized MSS leader
Industry analyst firms such as Ovum, IDC Research, NelsonHall and Everest Group have recognized DXC as a global leader in managed security services.

Proven experience
DXC has a proven track record of driving results for diverse global organizations in demanding, complex environments.

Worldwide delivery
For over 50 years, DXC has delivered end-to-end managed security services to nearly every industry across the globe. Our global insight and threat intelligence is unparalleled.

About DXC Technology
