DXWAND

## Revolutionizing Procurement with DXwand's ORXTRA

Procurement Processes

Can be incredibly time-consuming, creating bottlenecks that delay key decisions and increase operational costs. Consider the staggering amount of time and resources spent on just one RFP cycle:

RFP Content Generation
Up to
450 hours

Bidder Questions Management
Up to
600 hours

Scoring and Shortlisting
Up to
720 hours

Negotiation and Finalization
Up to
800 hours

The Solution | ORXTRA's Procurement Automation

With **ORXTRA**, companies can slash the time and effort spent on procurement by leveraging cutting-edge **AI** technology to automate key tasks:

DXwand's **GenAI-Powered** Procurement Process

RFP Generator
Augment the process of RFPs generation and generates comprehensive RFPs, **Saving up to 90% of the time typically required.**

Automated Bidder Question Management
Collect, categorize, and respond to bidder inquiries seamlessly, **Reducing response times by 80%**

Automated Scoring
Evaluate and score proposals using AI-powered analytics, **Cutting down the evaluation process by 85%**

Backend Systems Integration
Sync seamlessly with your **procurement systems**, such as: **ARIBA** or **COUPA**, to trigger the RFP process, update responses, and monitor bidder evaluations in real-time.

Client Benefits | Maximize Efficiency & Minimize Cost

DXwand's **ORXTRA**, not only saves hundreds of hours but also ensures greater accuracy, consistency, and speed. Here's how it benefits telecom clients:

Faster Time-to-Contract
By accelerating the entire procurement cycle, companies can close deals faster, giving them a competitive edge and boost their growth.

Time Savings
With up to an **80% reduction** in manual tasks, procurement teams can focus on strategic decisions rather than administrative tasks.

Improved Accuracy
AI-driven scoring and document management reduce human error and deliver precise evaluations.

Seamless Integration
ORXTRA integrates effortlessly with existing ERP systems, minimizing disruption and enhancing real-time data updates.

Why DXwand's ORXTRA Stands Out

Unlike generic automation solutions, DXwand's **ORXTRA** offers a tailored, scalable platform designed for procurement. It includes:

1 **A unique Experimentation and Optimization pipeline**
with data curation, multi-LLM support, and live monitoring that dramatically increases accuracy while also optimizing operational costs.

2 **Advanced digital agent builder**
with agent autonomous workflows for flexible, no-code customization.

3 An intuitive **Generation Panel** for visualizing RFP generation and evaluation in real-time dashboards, making insights actionable immediately.

4 Proprietary **AI engine** for handling both structured and unstructured data, ensuring accurate evaluation and response.

With **ORXTRA**, procurement teams can **Do more in less time,** with greater insight, efficiency, and confidence. Make smarter, faster decisions with DXwand's next-generation AI.
