Business Central Enhanced - 4 Week Implementation

Dynamics 365 Business Central is an all-in-one ERP business management solution that helps you connect your financials, sales, service, and operations to streamline business processes, improve customer interactions, and make better decisions.

Some clients require more efforts from their implementation Partner than others based on the modules that are needed to be implemented and the knowledge of the client.

Our Enhanced package is perfect for organizations with an experienced bookkeeper or CFO/Controller that has experience in the past and only needs us to complete the initial setup with minimal guidance.
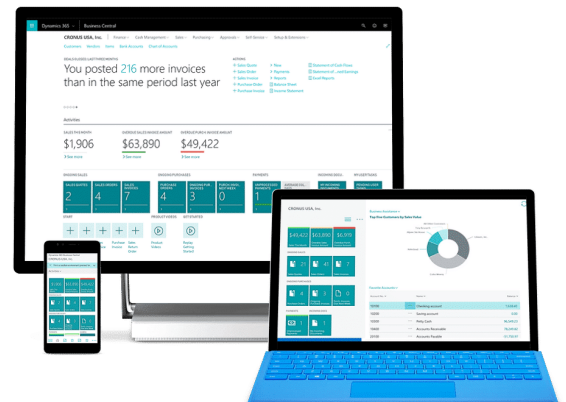

We will get the basic tenant configured for you and provide coaching sessions to keep your project aligned and assist you when you hit situations that may be harder for you to do yourself. Tools like the on-line documentation, wizards and videos will make it a bit easier for you to do this.

Remember that we can always be available for you if needed at an ad-hoc support fee in addition to the package.

Estimated One Time Fee: $8,000

What do I get?

- Simplified Discovery Session
- Turn on and Provision Dynamics 365 Business Central.
- Assign licensing and security roles for up to the first 10 users of Dynamics 365 Business Central
- Set up and configure the Microsoft Dynamics App for Outlook, if applicable, for up to 10 users (limited to one email account per user)
- Initial Configuration of Power BI with initial Dashboard
- Create one production company database with minimal configuration
- Review the system wizards with the client to follow
- Walk through the setup of relevant modules, if applicable
- Introductory training on data import process, system navigation, general processing
- Go-Live review and have a brief next step conversation

Assumptions

- Exchange Online or Exchange Server required for Outlook integration
- Dynamic Consulting must be the digital partner of record and the Cloud Solution Provider with Microsoft for licensing up to 10 users (additional scope required for more users)
- Customer will perform all master record data imports (Customers, Vendors, etc.) and configure most settings (e.g. Chart of Accounts, Tax Schedules, Payment Terms, Dimensions, Attributes, etc.)
- Excludes intercompany, consolidated financials, multicurrency, EFT, ACH, bank reconciliation, custom code and reporting
- Business Central Essentials Modules included only in this package
- This offer does not include other items such as system analysis, fit/gap process, system modifications or integrations but is available if requested for an additional fee
- 40 hours of total consulting hours including project management time is included
