

Dynamicweb PIM

General introduction to Dynamicweb 9.12

Workshop agenda

1. Process and delivery methodology
2. PIM introduction
3. Clarifications and alignment of PIM related matters
4. Wrap up and next step

Workshop facilitator (s)

Your name

PIM consultant

Dynamicweb Software A/S

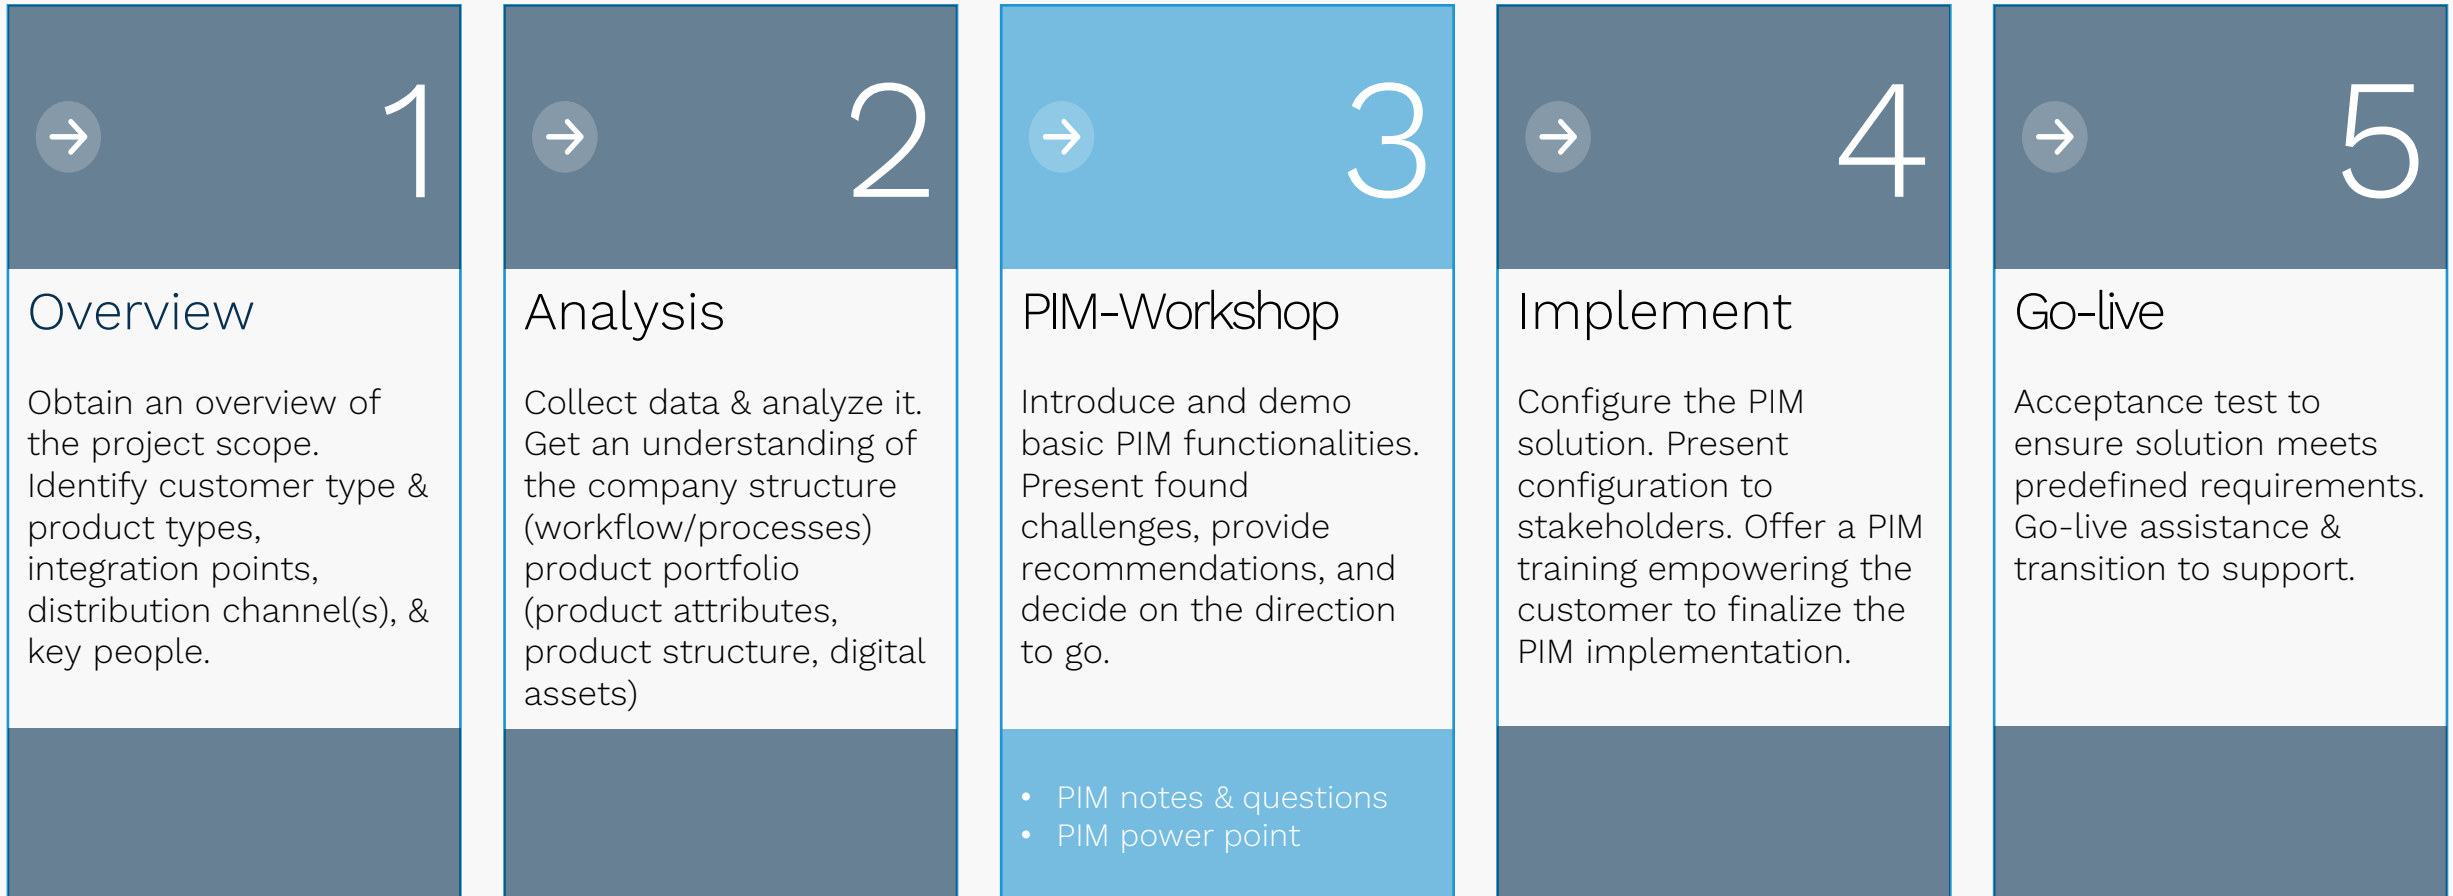

Workshop agenda

1. Process and delivery methodology

PIM Implementation Process

PIM Implementation Process

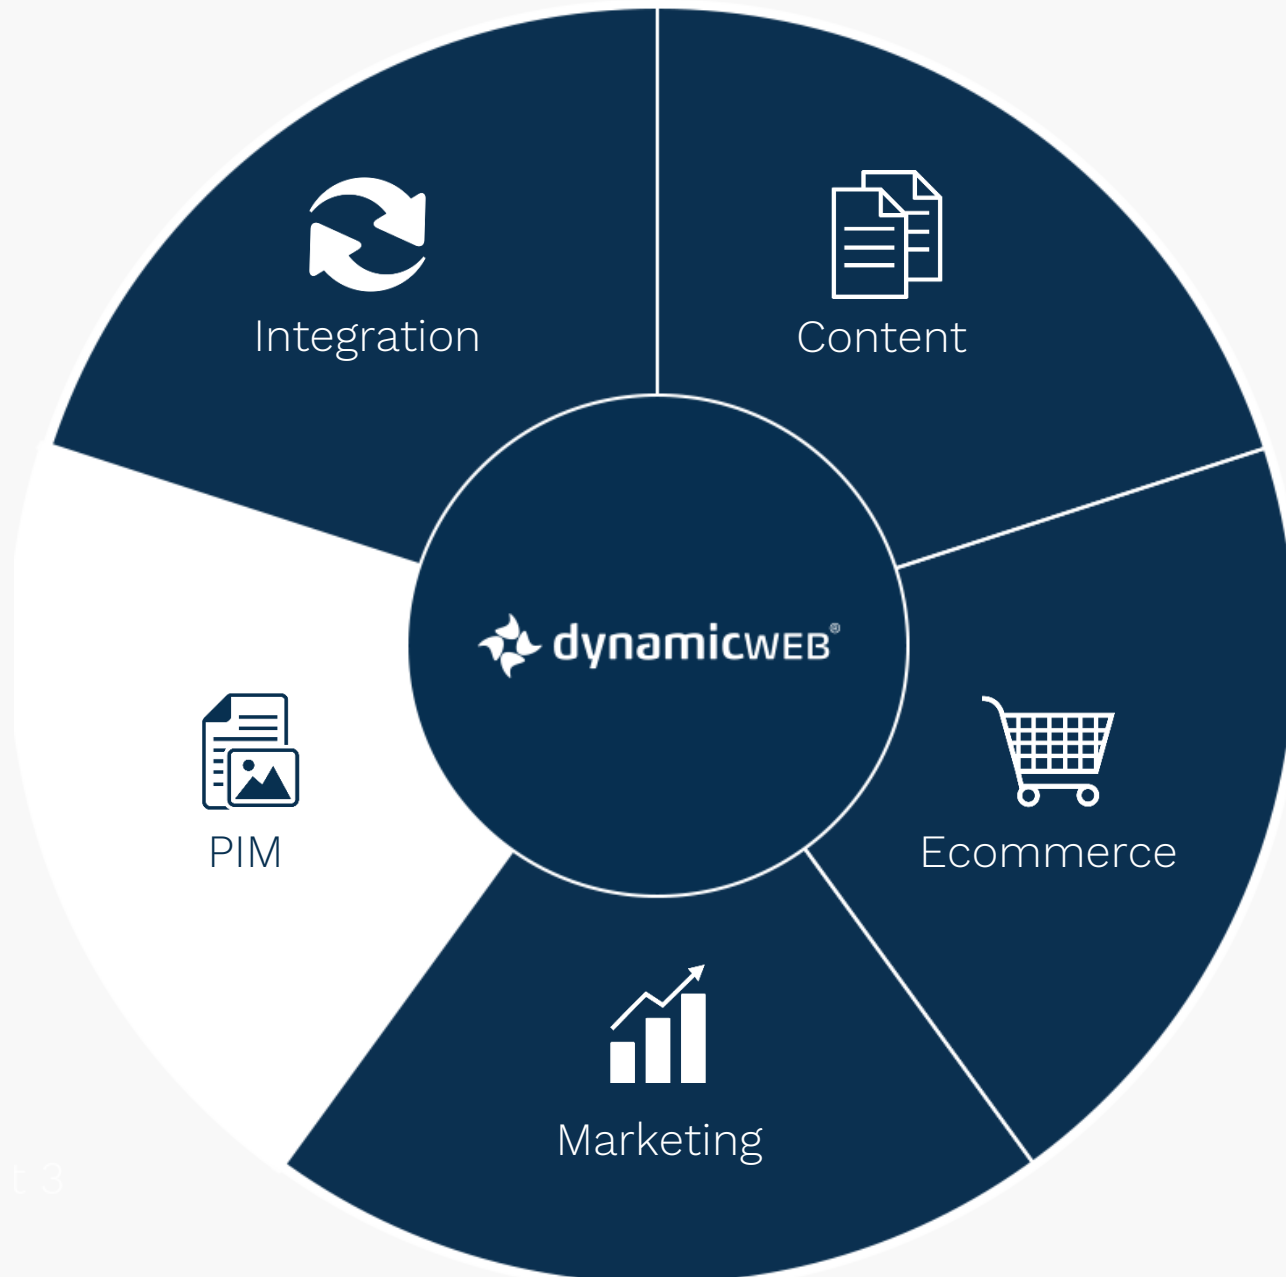

Workshop agenda

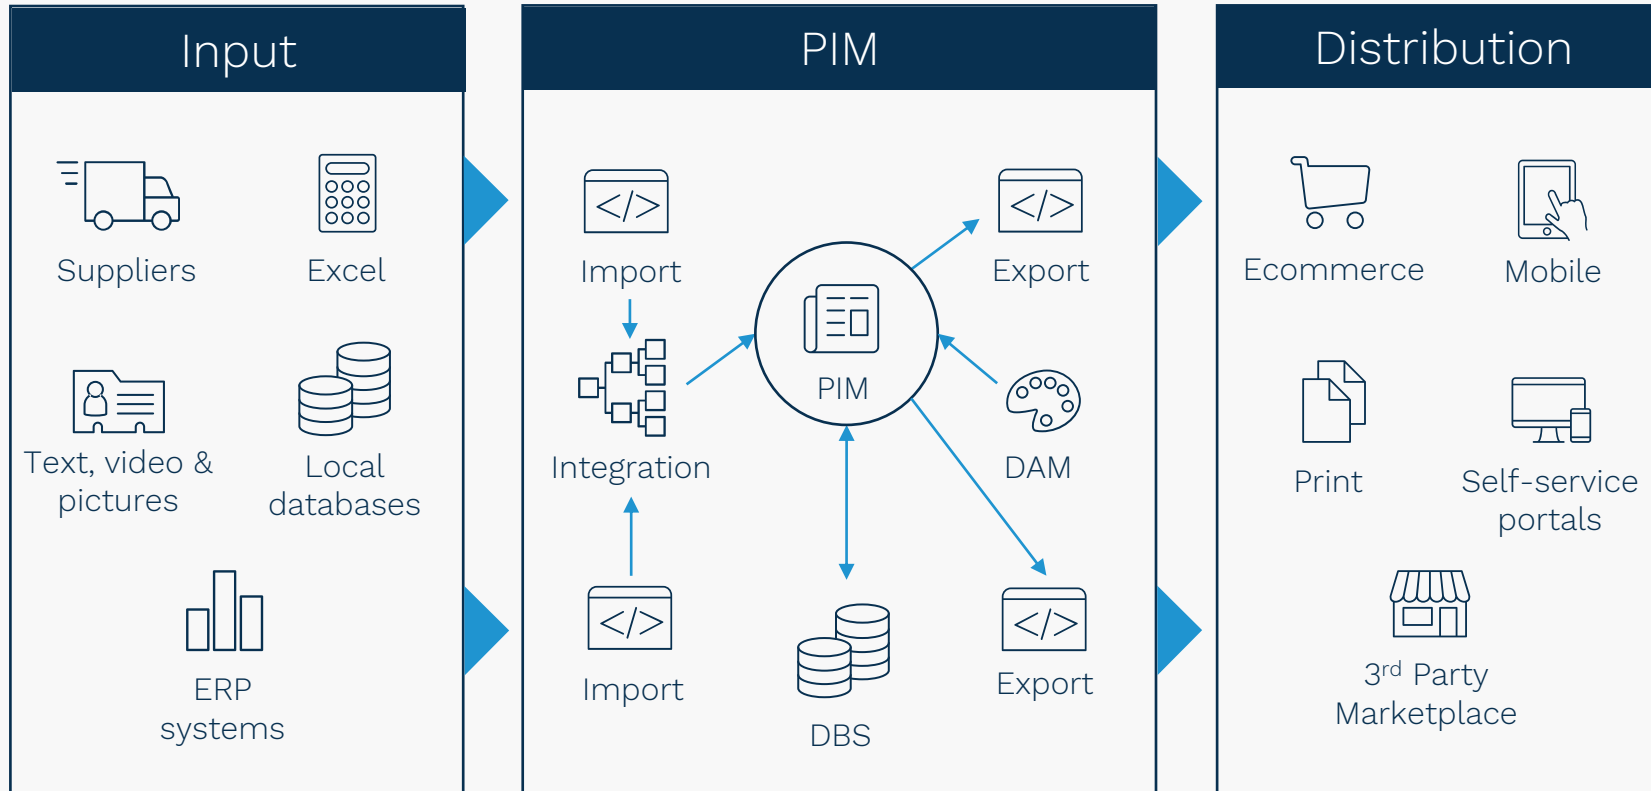

2. PIM introduction

What is PIM?

- **PIM** Product information management
- **Product data** maintained and stored in one Central place (Fully web based)
- **Obtain control** with the all in one platform

Manage product content & assets

- **Input**

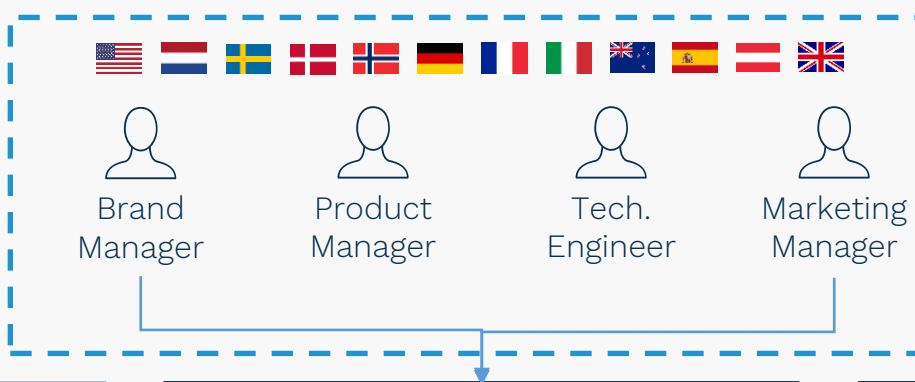

- what goes in to Dynamic Web PIM

- **PIM**

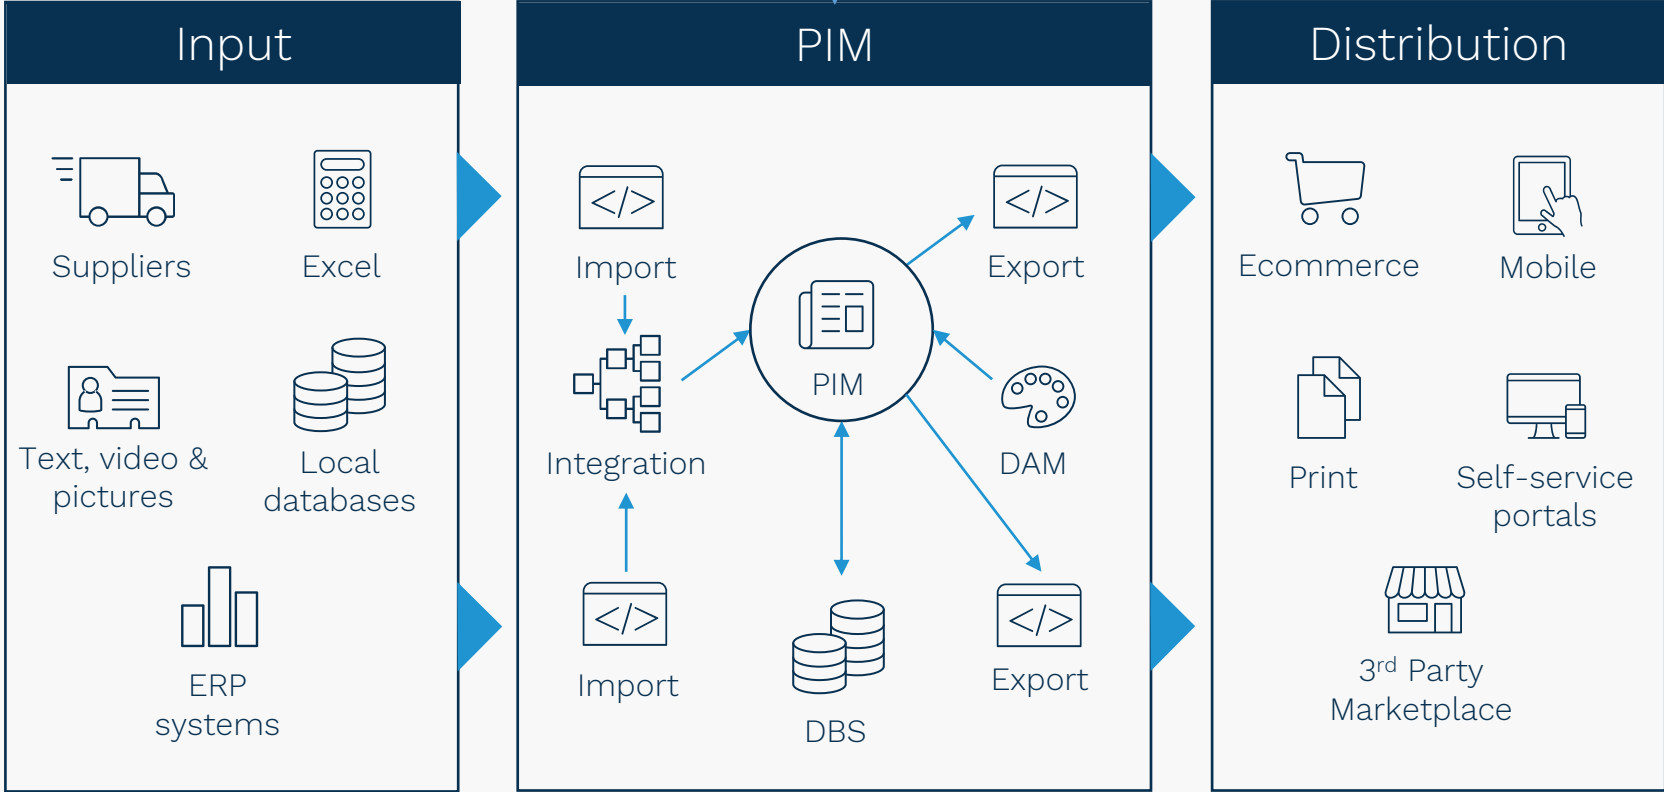

- **Efficient Enrichment process** in an easy, logical and structured way, various enrichment tools
- **Product overview and flexibility** with queries, structure and workflow states, Dashboard widgets, permissions

- **Distribution**

- Where should the product data in PIM go?
- Possible to have multiple channel destinations in various formats (Json, XML, CSV)

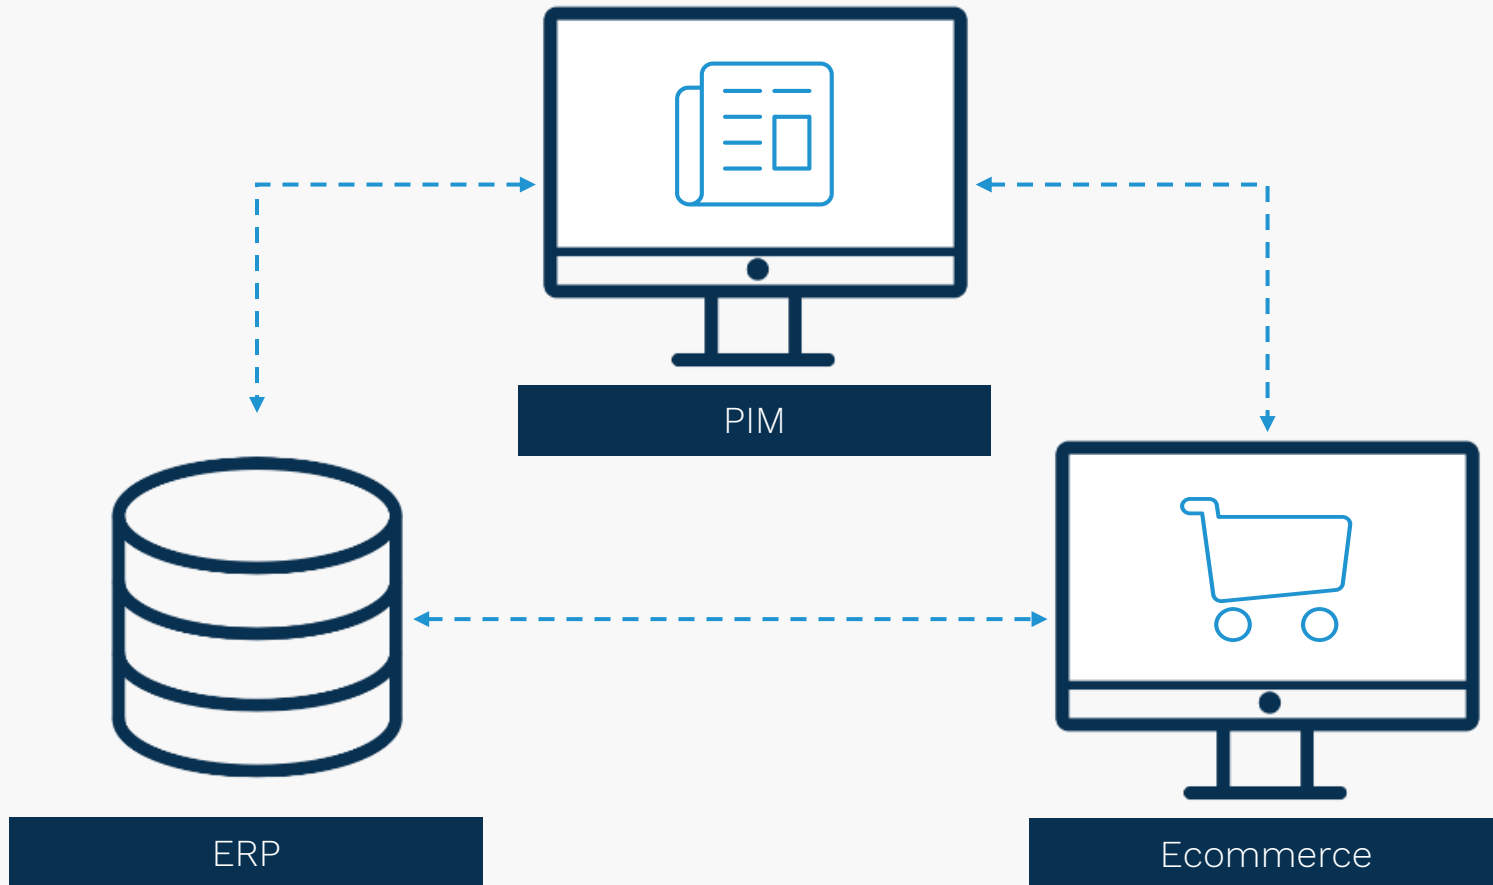

Involved parties

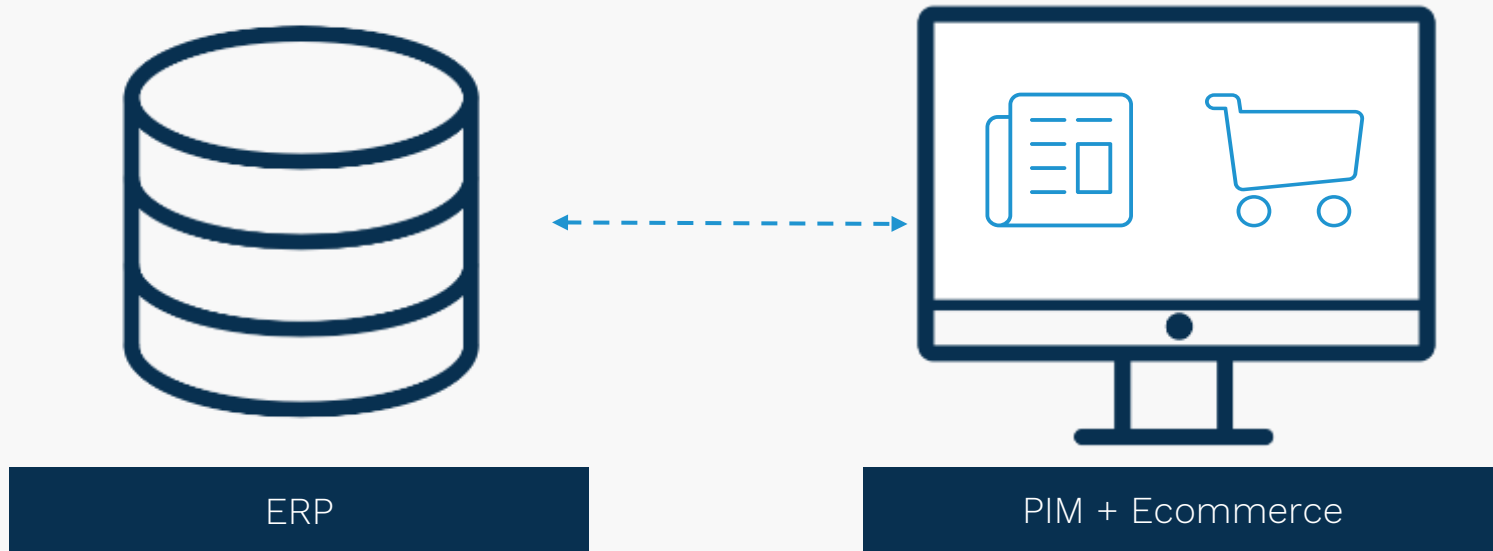

- **PIM stakeholders**
 - Who will be involved in the PIM project
- **Roles and responsibilities**
 - Brand manager
 - Product manager
 - Technical engineer
 - Marketing manager
- **Crucial roles**
 - Contact person?
 - Decision maker?

Typical PIM setup

- 3 separate applications and integrations between ERP, PIM and Ecommerce
- Means multiple systems that require separate handling and expertise, and typically more technical experience

Inexpensive implementation

- One digital platform = no integration work
- Easier to implement = cheaper
- Open framework for integration to external sources
- Standard Integration framework to Dynamics AX, NAV and D365

Dynamicweb PIM benefits

- Centralize in one platform
- Efficient data management
- Eliminate data errors on front page
- Flexibility – customized overview
- Multiple channels
- Only one ERP integration

Overview & management

- General interface
- Dashboard overview
- User permissions

General interface & overview

• Modules

- Home
- Content
- Files
- Users
- Ecommerce
- PIM
- Marketing
- Apps
- Monitoring

The dashboard displays a search bar at the top left and a user profile 'System administrator (soj) Angel' at the top right. A left sidebar contains navigation menus for 'Dashboard', 'Favorites', 'My Queries', 'Date-Time queries', 'Users', 'Ecommerce', 'Marketing', 'Apps', 'Demo', and 'PIM'. The main content area is divided into several sections:

- Newly arrived products:** A table with columns for Product Number, Product Name, Created, and Updated. It lists items like 'GT Transeo 1.0 Comfort Bike 23' and 'Bicycle kit 1'.
- Translated last 14 days:** A table with columns for Product Number, Product Name, Language ID, and TranslateTime. It lists items like 'UC Davis Aggies Lady' and 'GTR Pro Rival Road Bike'.
- Content validation with failure:** A table with columns for Product Number, Product Name, Brand, and Updated. It lists items like '10099' and '10151'.
- Summary Cards:**
 - Translation: 37 (Wait for translation)
 - Content validation: 20 (Missing on products)
 - Marketing: 8 (Ready for marketing)
 - Total products / SKU's: 390 (Products)
 - Product change: 94 (Change last 14 days)
 - Newly arrived: 10 (Products last 30 days)

An 'EDIT WORKSPACE' button is visible at the bottom of the main content area. A configuration window is overlaid on the right side, showing settings for a notification alert:

- Title:** All None active
- Subject:** All inactive
- To:** soj-pimEditor
- Query:** All Inactive
- Rule:** *Send_if_query_contains_result (selected), *Send_if_query_contains_more_than (25 items), *Always_send
- Template:** EmailNotificationTemplate.html (2 Kb)
- Max number of items:** 25
- *Placeholder_1:** Number
- *Placeholder_2:** Name
- *Placeholder_3:** Short description
- *Placeholder_4:** Long description
- *Placeholder_5:** Price

Dashboard & notification alert

- Dashboard provides the user with chosen overview.
- High flexibility
- Dashboard setup are configurable for each specific user.
- Use colors to signal actions.
- Customized notification alert

Bulk edit multiple update

- Select the language(s) the update should affect
- Select/deselect variants
- Select relevant attribute(s)
- Very useful tool:
 - Minimize enrichment & maintenance time
 - Can be used for pictures

Offline enrichment

- Export products, support both Multiple products or Single product
- Export Product information to Excel sheet, to make external Enrichment
- Possible to export an XML file to In-design and automatically enrich a catalogue if set up properly

The screenshot displays the dynamicWEB software interface, which is used for product data management and enrichment. The interface is divided into several key sections:

- Product Management:** Located at the top left, it includes options for 'Export to Excel', 'Export to XML', and 'Export to CSV'. It also shows a list of products with columns for Name, Price, and other attributes.
- Export to Excel:** A central panel that allows users to configure the export process. It includes sections for 'Languages' (with options for English, Deutsch, and French) and 'Fields' (with options for Name, Brand, Weight, etc.).
- Product Data Table:** A large table in the center showing product details for 'MongOOSE Tyax Comp Disc'. The table has columns for Product ID, Name, Price, and various technical specifications. It also includes a 'Description' column with text in multiple languages.
- Product Description:** A section on the right side of the table that provides a detailed description of the product, including its features and benefits. This section is also available in multiple languages.
- Product Images:** A section at the bottom of the interface that displays images of the product, such as the bicycle frame and components.

Version overview

The screenshot shows a PIM system interface. The main window displays product details for 'SCATTANTE CFR COMP (2018) #1' in a draft state. A 'Versions' modal window is open, showing a table of 6 versions with columns for Version, Modified, Published, and Compare. The background shows a navigation menu with categories like Bikes, Components, and Accessories.

Mountain Bikes - Mongoose Ritual Street #2

MONGOOSE RITUAL STR. Updated 28 aug 2018 10:23 Updated 28 aug 2018 10:19 Updated 28 aug 2018 10:20 Updated 28 aug 2018 10:20

GENERAL

Active Show in product list Workflow state: Ready for Marketing Name: Mongoose Ritual Street #2 Number: 10096s Teaser text: If you want baptism by air, here's your ride. Not only does this bike clear big jumps with ease, its tough, chromoly frame feels ne... Description: Heavy-duty chromoly frame provides extra strength for jumps at the park. RST Space Jump offers 100mm of plush suspension for those hard hits. Heat treated tubular chromoly 3-piece cranks guarantee a stiff and durable ride. Critical washers let you convert this single speed ride to an 8.9 speed bike. Kraftig chromolyramme gir ekstra styrke til spring i parken. RST Space Jump tilbyder 100mm plys suspension for de hårde hits. Varmbehandlede tubulære chromoly 3-delte vinger giver en stiv og holdbar kørstel. Kvalitetsskiver gør dig i stand til denne single speed ride til en 8.9 speed cykel. Heavy-Duty Chromoly-Rahmen bietet zusätzliche Stärke für Sprünge im Park. RST Space Jump bietet 100mm Plüschfederung für diese harten Schläge. Hitzebehandelte, tubuläre Chromoly-3-teilige Kurbeln garantieren ein steifes und langlebiges Fahrgefühl. Mit hochwertigen Unterlegscheiben können Sie diese Einzelgeschwindigkeit zum ein Fahrrad mit 8.9 Geschwindigkeit umrüsten. Le cadre chromoly robuste offre une solidité supplémentaire pour les sauts au parc. Le Space Jump offre 100 mm de suspension en peluche pour des coups durs. Les manivelles tubulaires chromoly à 3 tubes sont thermiquement traitées pour garantir une conduite rigide et durable. Les rondelles critiques vous permettent de convertir ce vélo en vitesse unique en vélo 8.9 vitesse.

Product Variant enrichment

- Product variants:
 - Complex variants
 - Product information is different across variants.
 - Two levels:
 - Main & variant level
 - Level dependencies are controlled by the field settings.

The screenshot displays a product management interface for 'Mongoose Tyax Comp #3' across four languages: English, Danish, German, and French. The interface is divided into two main sections: 'Product main level' (top) and 'Product variant level' (bottom).

Product main level (top): This section shows the product's general information, including its name, number, and description. The 'Description' field is highlighted with a blue dashed border. The description is localized for each language, showing the product's features and benefits in English, Danish, German, and French.

Product variant level (bottom): This section shows the product's equipment and specifications for each language. The 'Equipment' section is highlighted with an orange dashed border. It lists various components such as Crankset, Deck, Fork, Frame, Gear, Light, Lock, Monitor, and Wheel, along with their respective specifications and options for each language.

Field types on products

Product fields

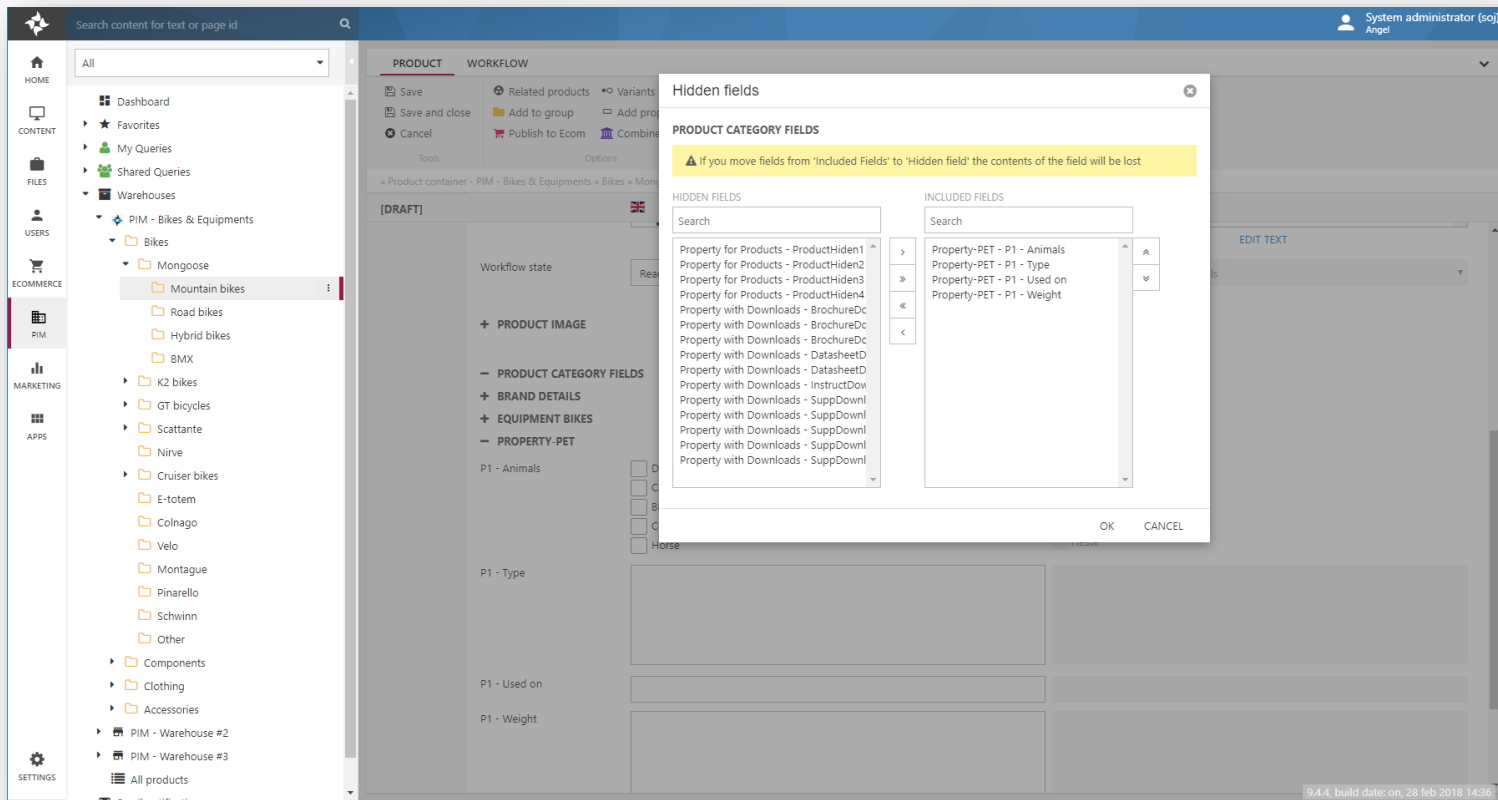

- Product fields are visible on all products regardless of the group structure

The screenshot displays the PIM system interface. A 'Hidden fields' dialog box is open, showing a warning: "If you move fields from 'Included Fields' to 'Hidden field' the contents of the field will be lost". The dialog contains two lists: 'HIDDEN FIELDS' and 'INCLUDED FIELDS'. The 'INCLUDED FIELDS' list includes 'Property-PET - P1 - Animals', 'Property-PET - P1 - Type', 'Property-PET - P1 - Used on', and 'Property-PET - P1 - Weight'. The background shows a product configuration page for 'Mountain bikes' with sections for 'PRODUCT IMAGE', 'PRODUCT CATEGORY FIELDS', 'BRAND DETAILS', 'EQUIPMENT BIKES', and 'PROPERTY-PET'.

Reference fields

- Reference fields are attributes that are not relevant for all products, but instead have relevance for one or more groups of products. High flexibility.

The screenshot displays a PIM system interface. On the left is a navigation tree with categories like 'Dashboard', 'Favorites', 'My Queries', 'Shared Queries', 'Warehouses', 'PIM - Bikes & Equipments', 'E-commerce', 'Marketing', and 'Apps'. The main area shows a product detail view for 'Mongoose Canaan Comp WF #4' in a 'DRAFT' state. The product details include sections for 'PRODUCT IMAGE', 'PRODUCT CATEGORY FIELDS', 'BRAND DETAILS', 'EQUIPMENT BIKES', and 'PROPERTY-PET'. Under 'PROPERTY-PET', there are two columns of checkboxes for animal types: 'Dog', 'Cat', 'Birds', 'Cow', 'Horse' and 'Hund', 'Kat', 'Fugle', 'Ko', 'Heste'. A 'Hidden fields' dialog box is open, showing a list of fields to be moved from 'Included Fields' to 'Hidden Fields'. The dialog includes a warning: 'If you move fields from 'Included Fields' to 'Hidden field' the contents of the field will be lost'. The dialog lists fields such as 'Property for Products - ProductHidden1' through 'Property with Downloads - SuppDownl'.

Category fields

- Product category fields are category specific meaning that they are only visible to the products placed in the given category of products.
- If a given field is used in two product categories, it should be a reference field, not a category field.

Property fields

- Use “Product Properties” to add attributes to Products
- Property fields are independent of the group structure and product type.
- Can be useful when retrieving data from other systems

The screenshot displays the DynamicWeb PIM system interface. On the left is a navigation sidebar with categories like HOME, CONTENT, FILES, USERS, ECOMMERCE, PIM, MARKETING, and APPS. The main area shows a product configuration page for 'Mongoose Canaan Comp WF #4'. A 'Hidden fields' dialog box is open, showing a list of 'PRODUCT CATEGORY FIELDS' that can be moved between 'HIDDEN FIELDS' and 'INCLUDED FIELDS'. The main product configuration page includes sections for 'PRODUCT IMAGE', 'PRODUCT CATEGORY FIELDS', 'BRAND DETAILS', 'EQUIPMENT BIKES', and 'PROPERTY-PET'. Under 'PROPERTY-PET', there are checkboxes for 'Animals' with sub-options: Dog, Cat, Birds, Cow, Horse, Hund, Kat, Fugle, Ko, and Heste. The 'Dog' and 'Cat' checkboxes are checked. Below these are input fields for 'P1 - Type', 'P1 - Used on', and 'P1 - Weight'.

dynamicWEB Frontpage Digital assets Products

Welcome to digital warehouse

Get your materials

You can collect and download images and text materials from Products - and Digital Assets area.

"Products area" contains all product text information and product images.

"Digital assets area" contains corporate material like images of building, employees and logos.

© 2017 Dynamicweb

- Dedicated Website, giving users access to download Product texts and Digital assets
- Download feature, with build-in image-convert/down-sampling, with embedded ICC-profile
- Extract Product text-content in various format (XML,JSON,CSV)

Collect & download Multiple products

The screenshot displays the dynamicWEB interface for a product catalog. The main content area shows a list of mountain bikes under the heading "Mountain bikes: 6". Each product card includes a "Sale!" badge, a product image, the product name, a small ID number, and a short description. The products listed are:

- GT Peace Single Speed (10016)
- Mongoose Canaan Comp (10017)
- Colnago 98DX (20002)
- E-totem WS20 (20003)

On the right side, the "PRODUCT DATA" panel shows a list of selected products with checkboxes:

- Mongoose Canaan Comp 10017
- GT Peace Single Speed 10016
- Mongoose Teocall Comp Freeride 10124
- Mongoose Tyax Comp Disc 10001
- Mongoose Sabrosa Ocho Commut... 10110

Below the product data panel, the "EXPORT" section is visible, featuring a "Language" dropdown menu set to "English" and an "Export format" dropdown menu set to "Csv". A "Submit" button is located at the bottom of the export section.

- Collect multiple products to the Download panel
- Select language and the “Export format”, you want the content to be downloaded in

Automatically structuring

- Product structured by attributes
- Navigation more flexible and dynamic
- Customized workflow overview

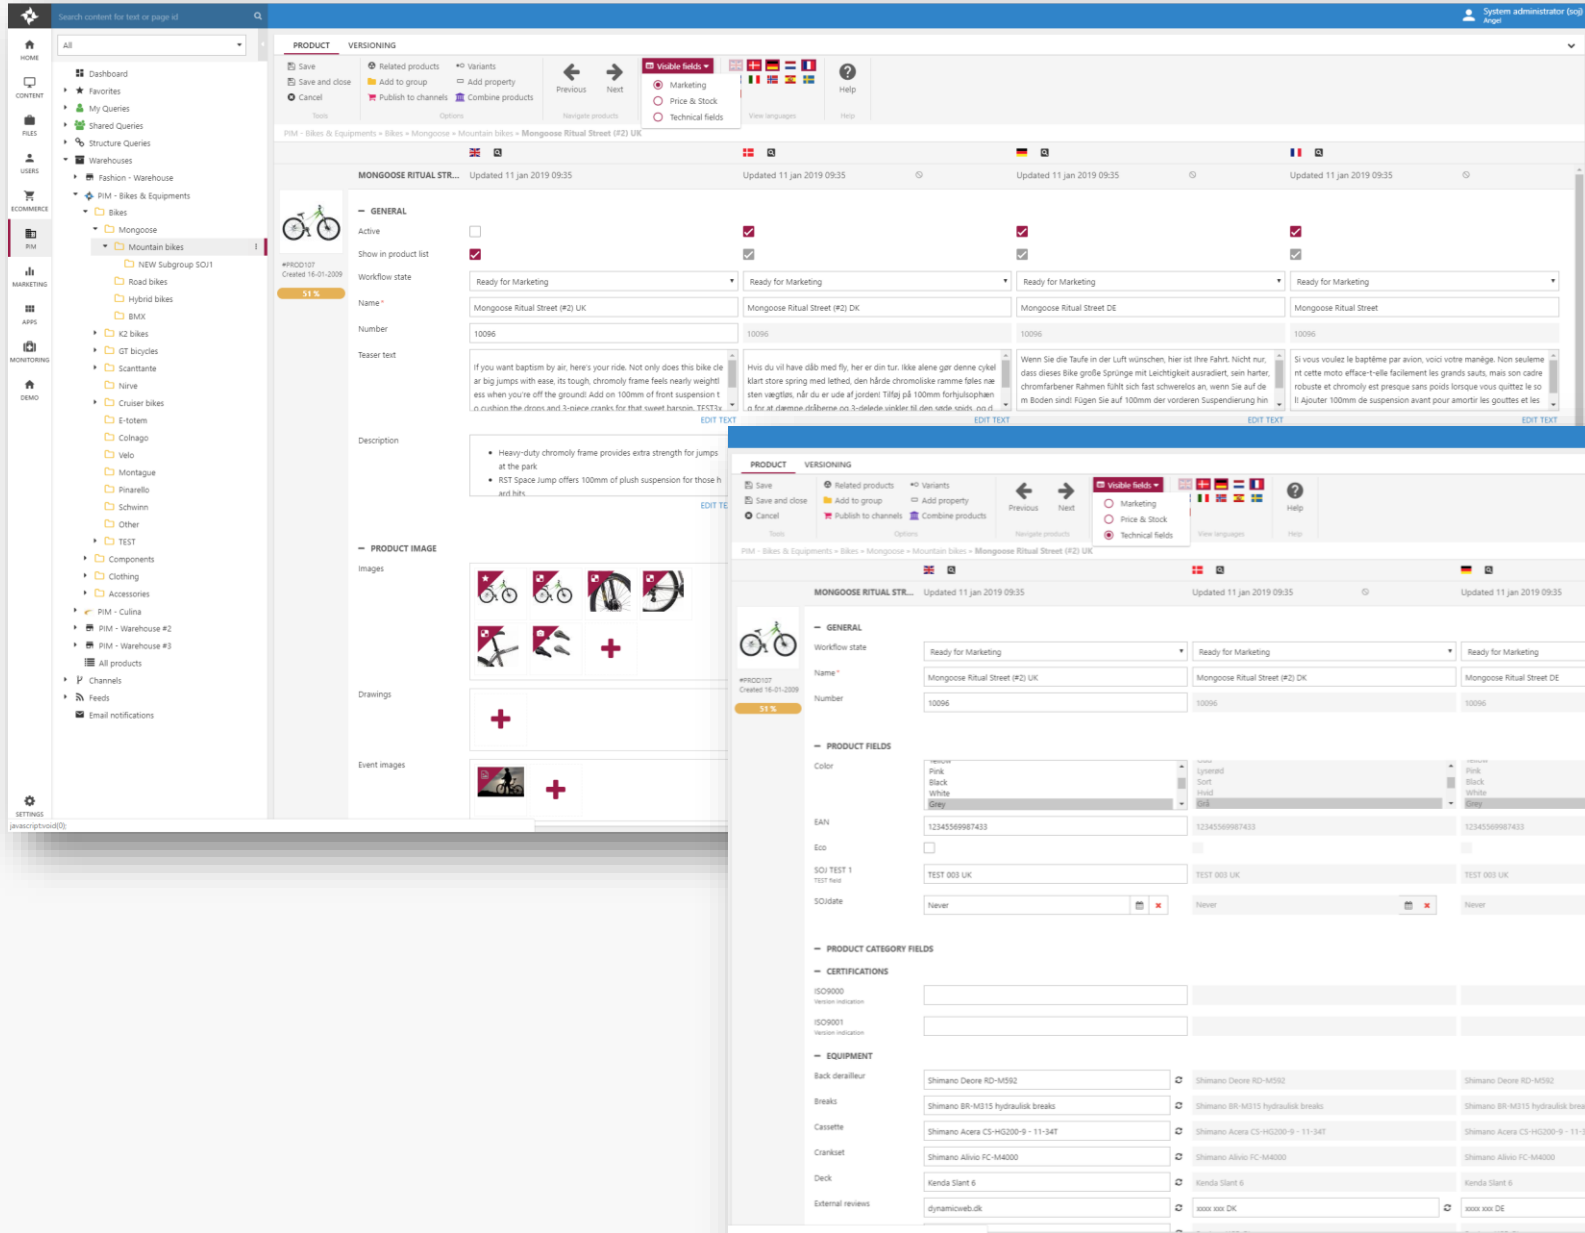

The screenshot displays a PIM (Product Information Management) system interface. On the left is a navigation sidebar with categories like HOME, CONTENT, FILES, USERS, ECOMMERCE, PIM, MARKETING, APPS, MONITORING, and DEMO. The main area shows a 'PRODUCTS' list with search and filter options. A modal window titled 'Edit Dynamic Structure' is open, showing settings for a query named 'Bikes'. The settings include a 'Name' field with the value 'Equipment GearSystem / Brand' and a 'Query' dropdown set to 'Bikes'. Below this, there are four levels of structure configuration, each with 'Source' and 'Sorting' dropdowns. Level 1 has 'Shifter_structure' as the source and 'Ascending' as the sorting. Level 2 has 'Brand_Facet' as the source and 'Ascending' as the sorting. Levels 3 and 4 both have 'None' as the source and 'Ascending' as the sorting.

Automatically structuring

- Queries result can be split up automatically, be presented in a logical structured way
- Useful to get overview, based on product attributes

Visible fields group selectable

- Visible fields in selectable Display-Groups
- User friendly switch between content

Visible fields selectable groups

- Visible fields selectable by logical attribute-grouping
- User friendly for switching between different Product content
- Accessible from ProductEdit area and Queries definitions
- Can be used for grouping of attributes in the front-end.

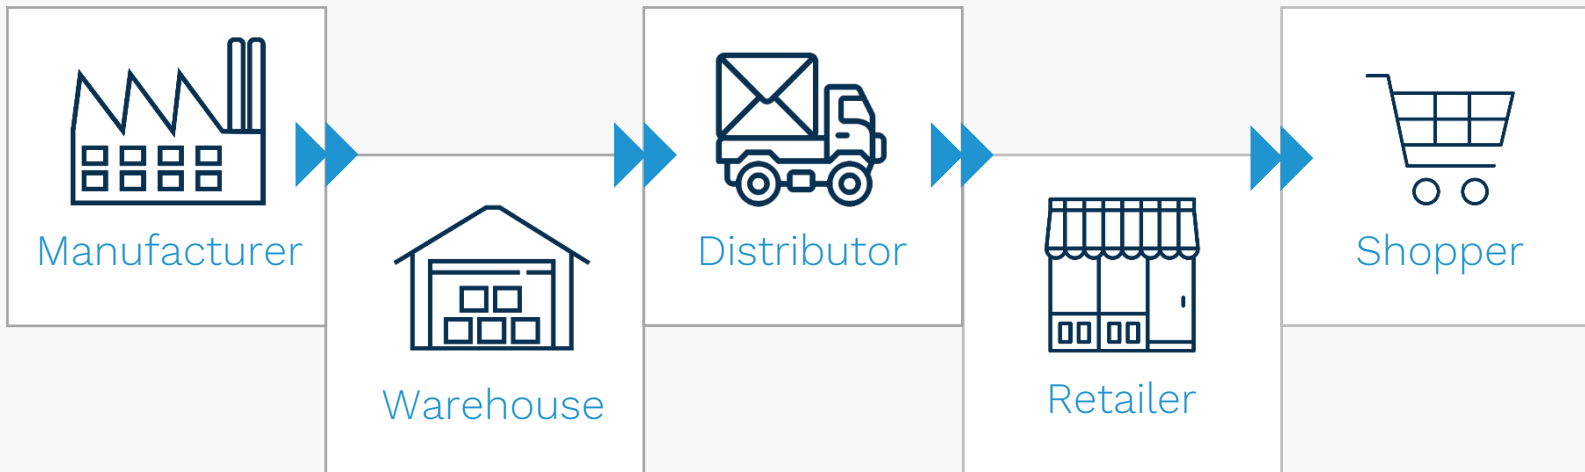

Workshop agenda

Warehouse Group Structure

Enrich optimized group structure

Warehouse Group structure ...

- Group products into groups and optimize the enrichment process.
- PIM structure is not required to be identical to the front-end structure.
- DEMO PIM
 - Visualize current structure and suggestions for future structure in the backend.

Product workflow

The screenshot displays the DynamicWeb PIM system interface. The top navigation bar includes a search field, user information (System administrator (soj) Angel), and a language selector. The left sidebar contains a navigation menu with categories like HOME, CONTENT, FILES, USERS, ECOMMERCE, PIM, MARKETING, APPS, DEMO, and SETTINGS. The main content area is titled 'PRODUCT WORKFLOW' and shows a breadcrumb trail: 'Product container - Workflow » WF1 - Ready for Technical detail (Bikes) » GTW Legato 2.0 Lady'. Below this, there are two columns for workflow configuration. The left column is for 'GTW LEGATO 2.0 LADY' (Updated 15 Jan 2018 11:01) and the right column is for 'GTW Legato 2.0 Lady TEST' (Updated 15 Jan 2018 11:01). The 'GENERAL' section includes fields for Name, Number, and Workflow state. The 'PRODUCT FIELDS' and 'EQUIPMENT' sections list various components like Back derailleur, Breaks, Cassette, Crankset, Deck, Fork, Frame, and Front derailleur, each with input fields for specific values.

Workflow

- Use workflows to ensure a consistent flow of maintaining products
- Workflows can be defined to match your needs
- Different workflows for different groups of products can be made
- Possible to setup email notifications on each workflow level.

Your Workflow setup

- How is your current and future enrichment process?
- Will the future enrichment process be different from the one have today?

Pre-questions:

Workflow/Enrichment process	ANSWER
Go through the cycle, from product birth in ERP to it being published to customers.	
Does the workflow differ depending on product groups?	
Other relevant information?	

Languages

Language(s)

- Default language?
- Future internationalization plans?

Pre-questions:

Languages	ANSWER
Which languages should the solution support?	
Default language	

Product images extended control

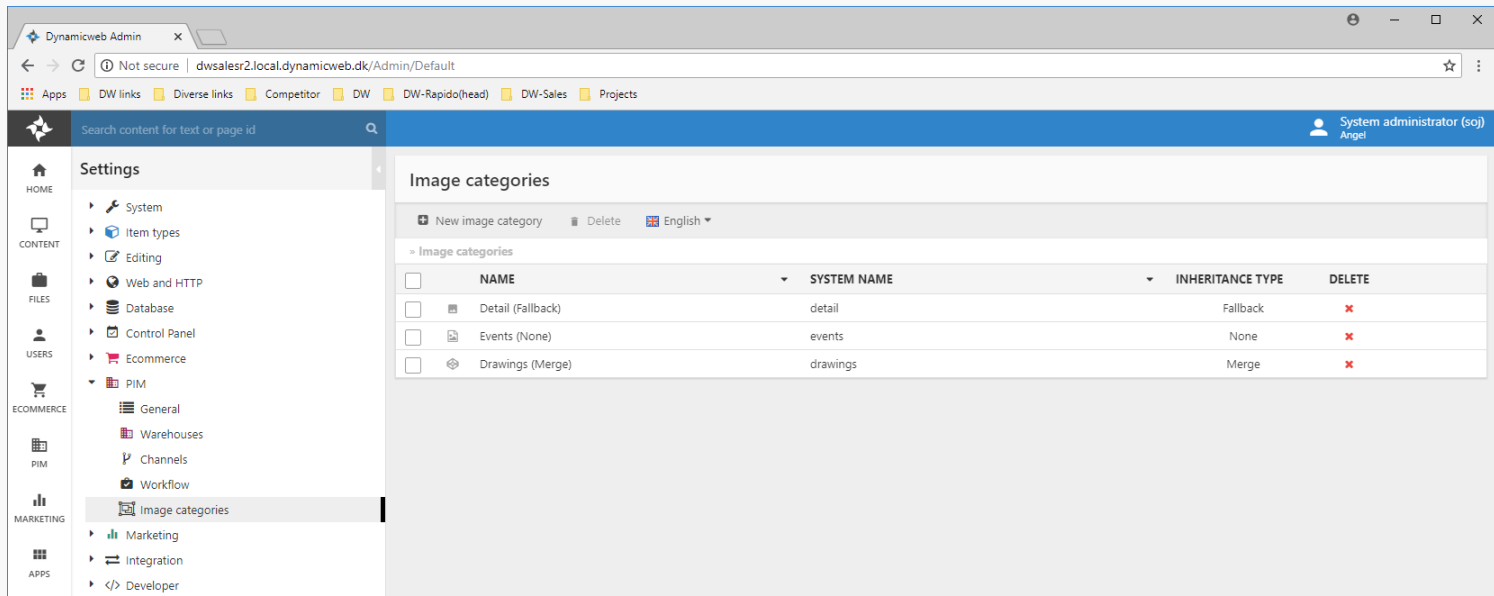

The screenshot displays the DynamicWeb Admin interface. At the top, a browser window shows the URL `dwsalesr2.local.dynamicweb.dk/Admin/Default`. The main navigation menu on the left includes sections for HOME, CONTENT, FILES, USERS, ECOMMERCE, and MARKETING. The 'Settings' section is expanded, showing 'Image categories' as the active area. The 'Edit image category' form is open, showing the following details:

- Name: Drawings (Merge)
- System name: drawings
- Inheritance Type: Merge (Images in this category will be inherited and merged with other images with the category that have been added to products lower in the hierarchy)
- Icon:

Below the settings, a grid of product variants is shown. The top variant is 'MONGOOSE TYAX COMP ...' (Updated 29 aug 2018 11:07). The bottom variant is 'BLUE' (Updated 29 aug 2018 11:06). Each variant has a 'GENERAL' tab and a 'PRODUCT IMAGE' section. The 'PRODUCT IMAGE' section contains a grid of image slots with '+' icons for adding images. The 'Drawings (Merge)' category is visible in the variant grid, showing that images are inherited from the main product and merged with variant-specific images.

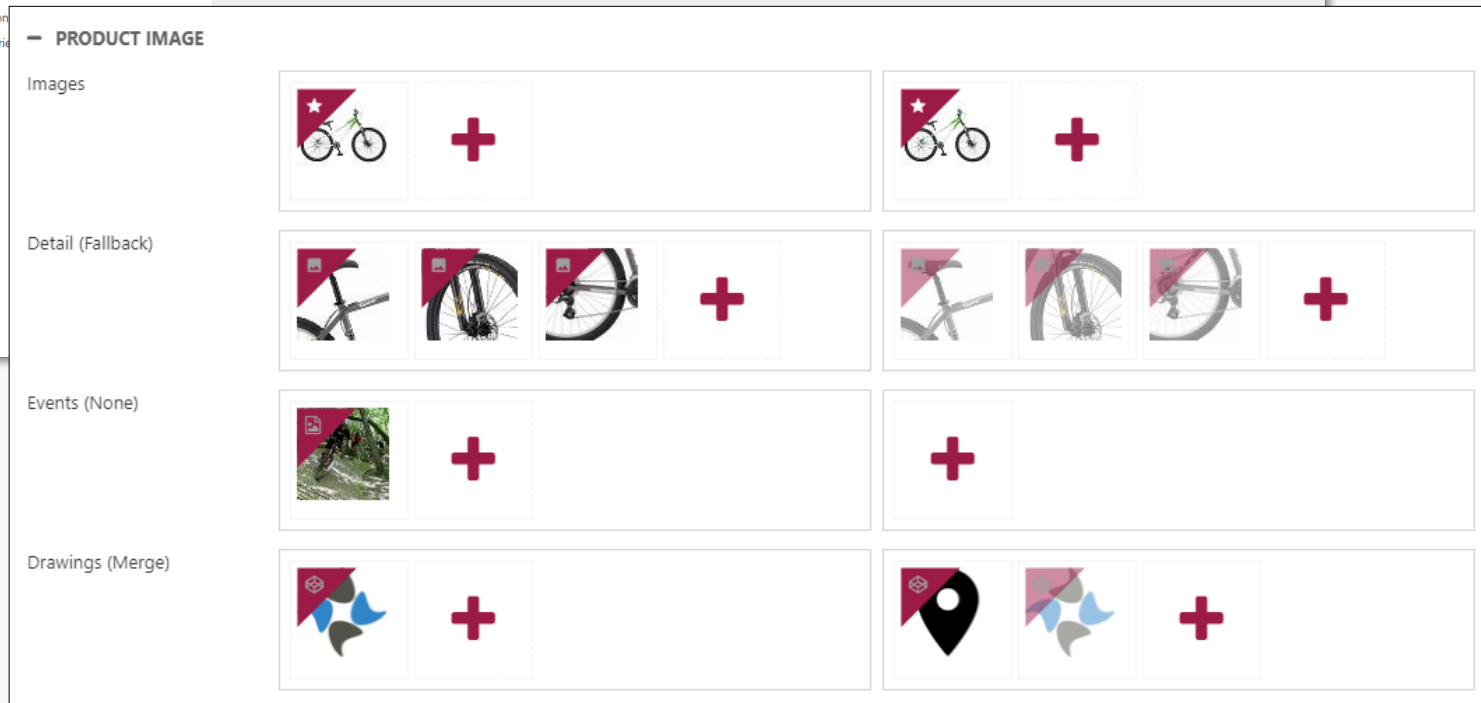

Inheritance rule product images

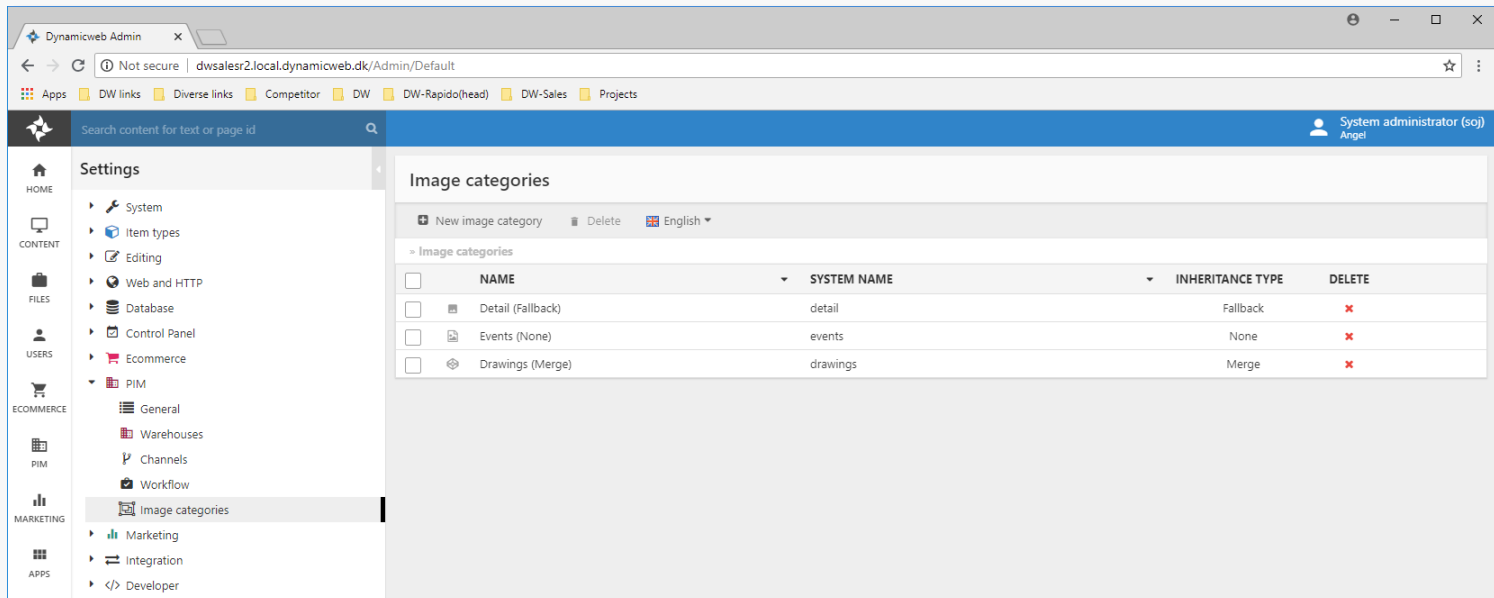

- Set Default image on the main Product and inherit the image to variants. Putting an image on the variant will overwrite the main product default image.

Categorized product images

- Categorizing of Detail images, gives a better overview
- Individual inheritance rules defined on Image categories

Automated Product images

- Image pattern?
- Proper naming of image files

Data from your ERP System

Pre-question:

Integration/ERP	ANSWER
Describe your IT-landscape and the IT-systems that shall integrate with the new solution?	
Who is your ERP contact person?	
Which data sources is part of the project integration scope?	
Products often require additional information when presented online compared to the information in an ERP-system. In what system (ERP, Dynamicweb, other) do you plan to work with product-enrichments?
