Meetings and Meeting Rooms Workshop

Showcase modern meetings experiences and build a plan to deploy and adopt Microsoft Teams Meetings and Meeting Rooms.

Do More with Microsoft Teams

Today, organizations rely on teamwork with employees working on twice as many teams as they did just five years ago, and information workers spending **50% more time collaborating** with co-workers, outside contractors, suppliers and customers. To succeed, you need collaboration and communication tools that empower your workforce to be more agile, efficient, secure so they can stay connected.

The way we work has evolved and meeting needs have changed with employees being more mobile and working remotely. In fact, 56% of meetings have at least one remote attendee and 38% of remote attendees join via mobile. Microsoft Teams delivers a unique end-to-end meeting experience that brings back the human element of face-to-face interaction while helping people stay focused before, during and after the meeting.

Meetings and Meeting Rooms Workshop
