

Modern Workspace Management (MWM)

**All-in-One Workspace Management—
Streamlined Operations, Security, and
Productivity**

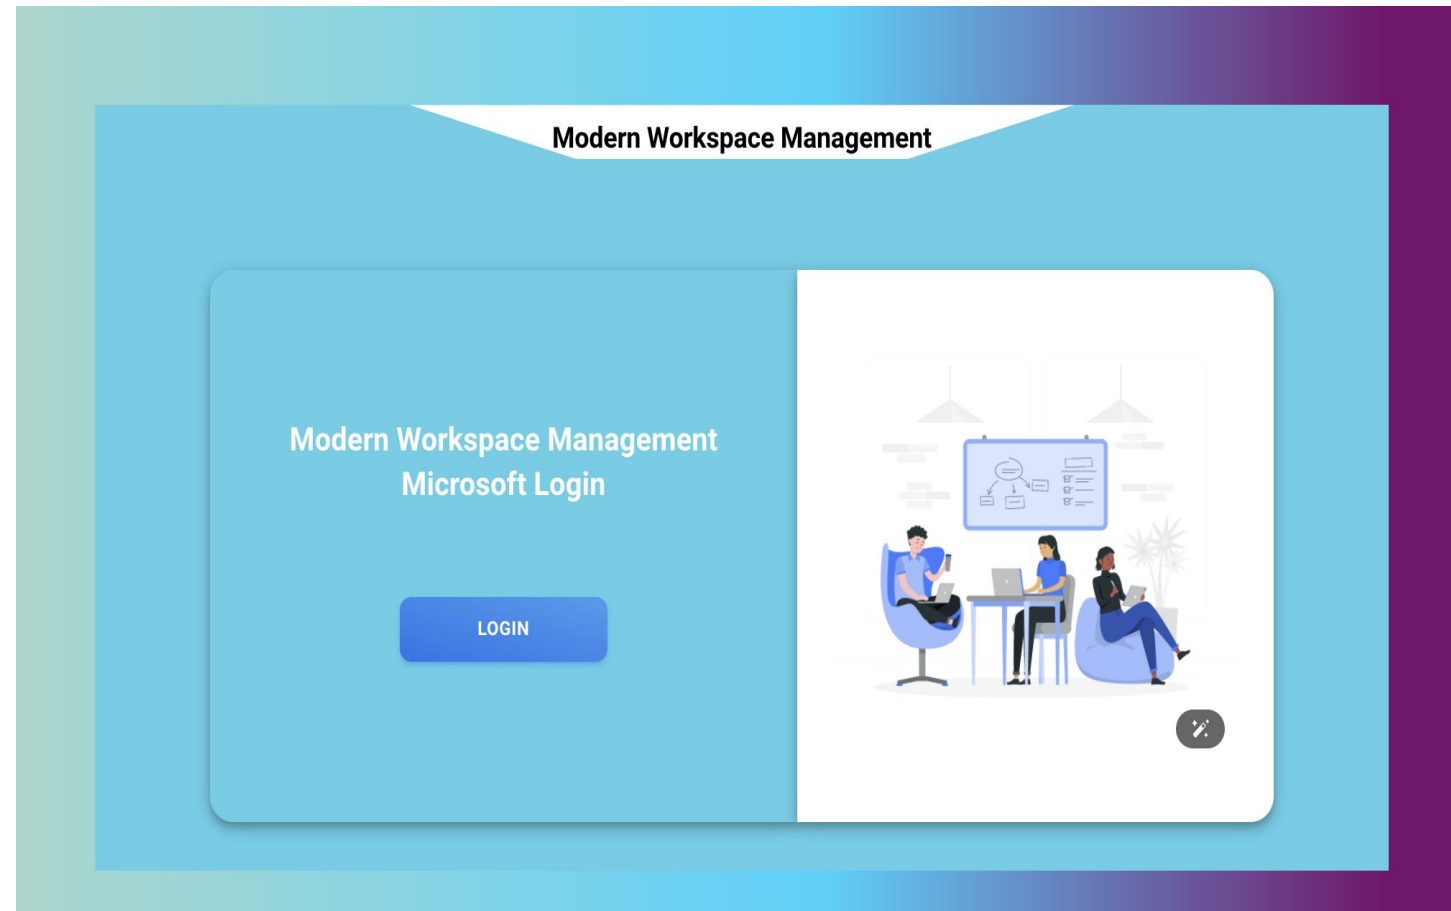

Agenda

Showcase the Modern Workspace Management Solution.

Demonstrate centralized provisioning and Intune integration

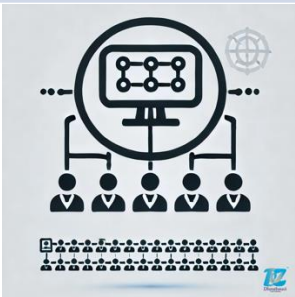

Highlight user-friendly management and security compliance features

Workspace Challenges & Our Solutions

<i>Challenges</i>	<i>DZ Solutions</i>	<i>Business Benefits / Value Propositions</i>
Managing User Workspaces and Devices	Centralized portal for managing workspaces and devices, ensuring seamless control and streamlined operations.	Enhanced control and smooth operations with reduced management overhead.
Ensuring Security and Compliance	Integration with Intune and Microsoft Entra for secure access, policy enforcement, and regulatory compliance.	Enterprise-grade security and compliance with reduced risks.
Supporting Users Efficiently	Automated updates, Intune policies, and pre-configured workspaces reduce manual setup and troubleshooting.	Time savings and improved user productivity with reduced onboarding efforts.
Simplifying Admin Workload	Automated provisioning, lifecycle management, and device management reduce repetitive tasks.	Reduced admin overhead and more focus on strategic initiatives.
Scaling Workspaces Easily	Scalable infrastructure for rapid provisioning or decommissioning of workspaces to match business demands.	Agility to adapt to business growth or remote work needs without disruptions.

Centralized portal

Security and Compliance

Self Service

Efficient Automation

User Perspective: Key Features

- Connect to workspace.
- Simplified Backup and restore management
- Manage workspaces – disable auto schedule temporarily

User Workspace Management
Manage resources efficiently with these tools

The interface displays four feature cards arranged in a 2x2 grid:

- Manage Workspace**: Represented by a purple window icon.
- Auto Scheduling**: Represented by a green calendar icon.
- Backup Management**: Represented by a blue cloud and upload icon.
- Workstation Update**: Represented by a blue refresh/clock icon.

At the bottom center, there is a black button with white text that reads **CONNECT WORKSPACE**.

Admin Perspective: Key Features

- Centralized provisioning and decommissioning
- Simplified Backup and restore management
- Manage workspaces – updates tag / schedule for start-stop / Back UP
Manage Intune device polices.

Reports	Basic Azure Recommendations	Data-driven recommendations Cost and utilization report	AI-based insights Cost and utilization reports Right-sizing recommendations Identity, Security and Network reports
Monitoring	Virtual Machine Metrics Health Alerts	Virtual Machine Metrics Health Alerts AVD Infrastructure Metrics User and application-level Metrics	Virtual Machine Metrics Health Alerts AVD Infrastructure Metrics and Alerts User and application-level Metrics Identity Metrics and Alerts Security Metrics and Alerts Network Metrics and Alerts
Tracking	Virtual desktop log in log off	Virtual desktop log in log off Device compliance and conditional access	Third part tool

The Pricing includes monthly Microsoft 365 premium licenses and Cloud Virtual machine cost + Support

Comprehensive Advantages of Our Solution

- **Simplified Management:** Centralized portal reduces complexity and streamlines operations.
- **Enhanced Security & Compliance:** Intune integration, policy enforcement, and built-in tools ensure data protection and regulatory compliance.
- **Cost Efficiency:**
 - Reduces admin overhead with automation.
 - Optimized resource use and subscription-based pricing lower operational costs.
- **Improved Productivity:** User-friendly tools and seamless setup minimize downtime and enhance employee focus.
- **Scalability & Flexibility:** Scalable infrastructure adapts easily to business growth and remote work needs.
- **Risk Mitigation:** Automated updates and centralized monitoring reduce hardware failures and operational risks.
- **Future-Ready:** Modern solution evolves with your business, ensuring long-term value.

Competitive Differentiators

- Microsoft Ecosystem Integration: Full compatibility with Azure and Microsoft tools.
- Cost-Saving Automation: Unique auto start/stop scheduling features.
- White-Glove Services: Personalized onboarding and migration assistance.
- Scalable Solution: Tailored offerings for SMBs and enterprises.
