

DESIGNED FOR BETTER EXPERIENCES

Simplify, enhance, and accelerate your Dynamics 365 applications with our no-code page builder and professional services.

BUILT FOR DYNAMICS 365. TRUSTED BY TEAMS WHO NEED RESULTS.

EasePage brings modern UI/UX to Dynamics 365. Build dashboards, data grids, and forms visually - without developers or code. From faster configuration to smarter analytics, EasePage helps organizations deliver intuitive, data-driven experiences inside Microsoft's trusted ecosystem.

No-Code Page Builder

Drag, drop, and design pages visually inside Dynamics 365.

Advanced Data Grids

Sort, filter, and edit data inline with ease.

Custom Dashboards & Charts

Turn raw data into clear visual insights.

Smart Form Designer

Build dynamic forms with field-level rules and validation.

In-App User Guidance

Add tooltips, walkthroughs, and onboarding prompts.

PCF Controls Library

Extend capabilities with reusable Power Apps components.

AI Layout Assistant

Get layout and design suggestions automatically.
