

AI QuickStart Engagement with Eastwall

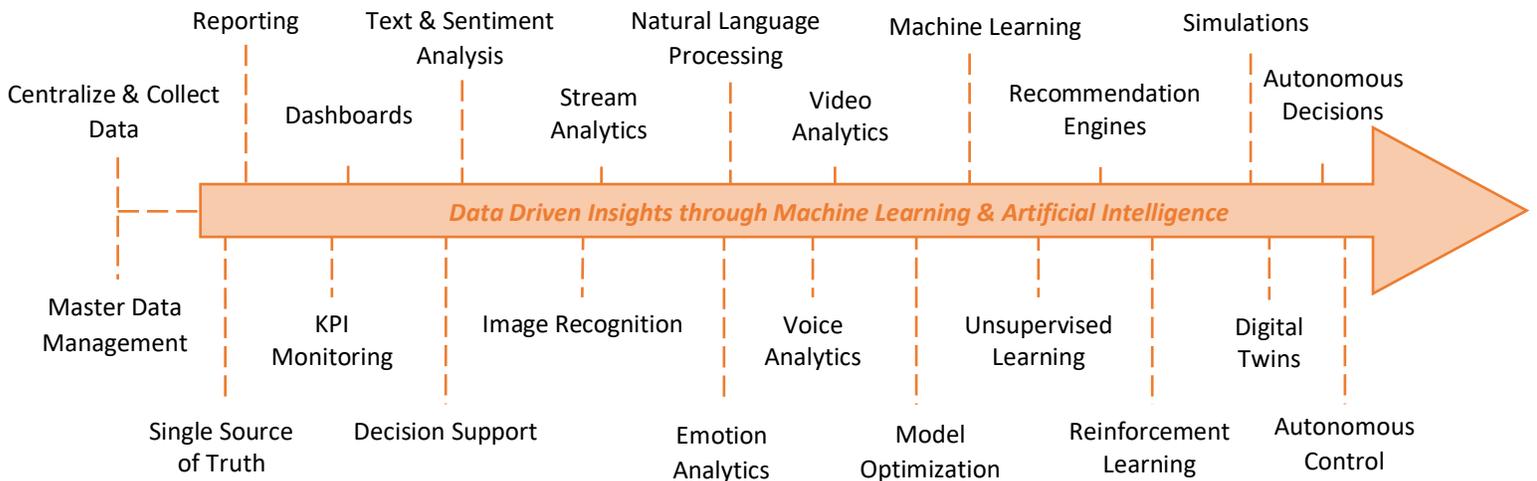

Upskill your team on Azure & AI capabilities, identify the highest priorities based on *Return on Investment* and *Total Impact*, then iterate and deploy viable proof of concepts. **Eastwall** has a proven methodology through technical questionnaires, workshops, and technical evaluation to chart a roadmap of viable AI opportunities and rapidly prototype to see hands-on value.

Engagement Methodology

- Single or multi-day design thinking workshops to categorize highest priorities for AI & machine learning in your organization.
- Iterative, programmatic deployments of templated infrastructure and services to accelerate your AI prototyping journey.
- Collaborative use-case shaping, data validation & modelling, and integration with Azure-native AI services.
- Hands-on prototyping of one-to-many concept ideas, then selection of the most viable prototypes and promotion into a more formal non-production environment.
- Technical roadmap & plan to promote the solution to production use.

Why Eastwall?

- Industry best-practices using **Microsoft’s proven** Cloud Adoption Framework (CAF)
- Personalized full-service offering with **end-to-end** cloud planning, design, implementation & operations support.
- Technology delivery team with **decades of cumulative Azure experience** and expertise in data modelling and machine learning on industry-standard tools.
