

Fortify Your Cloud Investment with Eastwall's Azure Governance & Security Health Check

More than just a report, get expert task guidance to harden your estate.

Fortify Your Cloud Investment

The Azure Governance & Security (AzGovSec) Health Check helps uncover gaps and vulnerabilities in real-world cloud deployments that create significant security, compliance, and reputational risk. In a comprehensive 3-week engagement, Eastwall leverages Microsoft's suite of Azure & 3rd party tools to identify misconfigurations, excessive permissions, network vulnerabilities, and compliance gaps.

Week 1

Tool-Based & Hands on Assessment

Leveraging a combination of Microsoft-native and trusted open-source tools, Eastwall hosts up to five workshops & begins reviewing Compliance, Security & Governance.

Week 2

Calibrate & Prioritize Findings

We bring your team into the process, showcasing preliminary findings, ensuring accuracy of our work and calibrating the prioritization of identified gaps.

Week 3

Executive Readout with Actionable Plan

The project culminates with our highly technical, detailed, and actionable *Azure Governance & Security Functional Design Document* and an executive summary readout.

Tools-based Approach

Industry Compliance Focused

Highly Actionable Outputs

Low Team Time Investment

Eastwall

Founded in 2022, Eastwall is a unique professional services firm in the Azure cloud space. We are a **Cloud-focused** Microsoft partner. Our vision is predicated on bettering business outcomes through modern technology implementations and operating models built in the Microsoft Cloud.
