

Move from Power BI to Microsoft Fabric's Unified Analytics

Ecosystem Scale your business from legacy capacity & workspaces to redefine data innovation

Power BI to Microsoft Fabric Migration Accelerator

Eastwall empowers organizations to transition seamlessly from Power BI Premium (P-SKUs) to Microsoft Fabric (F-SKUs), unlocking the full potential of Microsoft's next-generation unified analytics platform. Our solution offers enhanced scalability, an integrated analytics ecosystem, and cost optimization.

Week 1

Assessment and Planning

Analyze your current Power BI landscape and deliver a tailored migration plan aligned with your business goals.

Week 2

Pilot Execution

Deploy a Microsoft Fabric F64 SKU, migrate test workspace, and finalize governance, capacity, and monitoring designs.

Week 3

Production Migration

Implement a Microsoft design, execute migration(s), and provide a roadmap for future analytics initiatives.
