THE NEW INDUSTRY SOLUTION

Microsoft Azure und Microsoft 365

Nowadays, almost no company can operate economically without IT. Often a large part of the IT infrastructure is still operated by the local entrepreneurs, which leads to unexpected failures and high costs. Thanks to global networking and internet access, this no longer must be the case.

Together with our partner Microsoft, we are happy to help you overcome the following **challenges**:

- ⊖ Acquisition and provision of expensive and underutilized hardware
- ⊖ Safe and GDPR-compliant work
- ⊖ Data access at any time and from any location
- ⊖ High availability of the systems
- ⊖ Poor expandability of the systems
- ⊖ Energy-efficient use of resources

💡 **Solution:**

The solution is as simple as it is obvious - use of tested and guaranteed solutions from the Microsoft Azure Cloud:

- ✓ Cloud email system
- ✓ Online data storage (SharePoint, OneDrive)
- ✓ Operation of high-availability special applications in global data centers
- ✓ Innovative protection of all data by 3500 Microsoft security experts
- ✓ EBCONT consulting and operation to get the best out of the cloud

+ **Advantages:**

- Secure data and communication
- Costs only according to usage
- No need for your own server hardware
- Virtualized, fail-safe and scalable
- Integrated security solution
- Services specially adapted to your needs

Our Workflow

consultation

- (free of charge)
- Recommendations based on our customer experiences
- What does Microsoft 365 and Microsoft Azure offer?

Solution Assessment

- Analysis of the existing IT infrastructure
- Assessment of your IT infrastructure, whether and which migration to the cloud is possible and useful for you
