AUTOMATE CLIENT REQUESTS WITH DIGITALL'S AI-INFUSED INPUT MANAGEMENT SOLUTION

Are you struggling to handle an overwhelming number of customer requests while maintaining quick response times and high satisfaction levels?

DIGITALL's **GDPR-compliant Input Management Solution**, powered by **Microsoft Azure OpenAI**, automatically classifies, extracts, and validates information from incoming correspondence, seamlessly integrating results into your back-end systems.
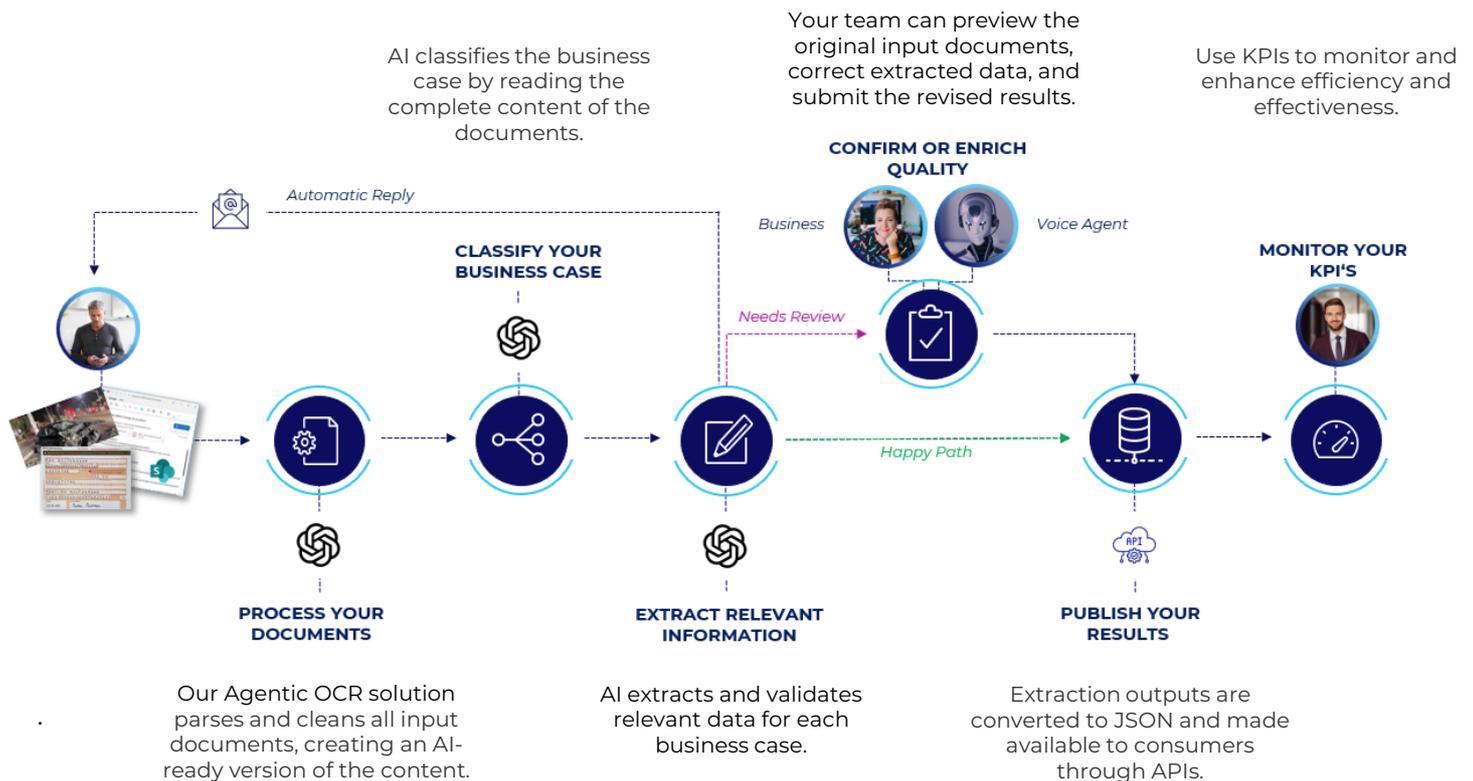

Leverage the power of advanced **Large Language Models (LLMs)** to extract key insights relevant to your business case, saving time and resources, while meeting the highest standards for data security and compliance.

UNLOCK THESE BENEFITS

- **Harness Leading-Edge Technology**
  Utilize the latest large language models: no training or fine-tuning required.
- **Simple, Natural Configuration**
  Define prompts in natural language; no specialized coding skills needed.
- **Data Security & GDPR Compliance**
  Your data stays securely in your own Azure tenant, meeting all regulatory standards.
- **Minimal Setup**
  All you need is an Azure subscription to get started.
- **Flexible Use Cases**
  The possibilities are endless - split or summarize documents, process handwritten inputs, or automatically update back-end systems.
- **Scalable & Adaptable**
  Focus on one use case at a time or tackle multiple use cases to enhance efficiency.

DIGITALL

THE INPUT MANAGEMENT PROCESS FLOW

AI classifies the business case by reading the complete content of the documents.

Your team can preview the original input documents, correct extracted data, and submit the revised results.

Use KPIs to monitor and enhance efficiency and effectiveness.

PROCESS YOUR DOCUMENTS

EXTRACT RELEVANT INFORMATION

PUBLISH YOUR RESULTS

Our Agentic OCR solution parses and cleans all input documents, creating an AI-ready version of the content.

AI extracts and validates relevant data for each business case.

Extraction outputs are converted to JSON and made available to consumers through APIs.

UP AND RUNNING IN 8 WEEKS

VALIDATION	MVP	PRODUCTION READINESS
DIGITALL prepares a tailored demo using your typical emails to showcase the end-to-end AI Input Management process: from reading and classification to data extraction.	The AI-Infused Input Management solution is deployed in your Azure tenant with detailed configuration of two selected use cases.	A full-scale rollout is executed with a dedicated production instance and complete integration into backend systems (CRM, ticketing, etc.).
FREE OF CHARGE	**6 WEEKS – 25,000 €**	**ONGOING – PAY AS YOU GO ***
PHASE 1	**PHASE 2**	**PHASE 3**

* PAY AS YOU GO
- **Pay per use:** Costs align with actual consumption.
- **No upfront investment:** Start without significant budget commitments.
- **Easy AI adoption:** Low-risk entry to launch and scale AI initiatives.

> **Turn manual request handling into an automated, AI-driven process: securely, efficiently, and in just eight weeks**
