

# AZURE NAVISION MIGRATION

Dynamics NAV on Azure is an optimum way to manage the solution in remote work. It offers an easy-to-use, quick-to-deploy solution on a secure enterprise-class cloud platform.

## Why move NAV to Microsoft Azure?

1. Running on Azure is more affordable.
2. Dynamics NAV on Azure is scalable.
3. It is accessible through all platforms and devices.
4. The migration process is quick.
5. Microsoft Azure enables robust security, backup, and privacy controls
